Neville, 1978 This is a philosophic study of some aspects of spiritual development broadly defined Professor Neville has been influenced significantly by comparison between several of the world's great spiritual traditions and he has tried to be faithful to experiences in those traditions Readers whose interest in spiritual development come out of non Western traditions will find this book congenial But this is a philosophical study and the book puts forward a philosophical theory of spiritual development paying attention to personal social and metaphysical concerns and analyzing three central images of spiritual heroism The central contribution attempted here is a way of understanding the quest for spiritual liberation or perfection through the models of the spiritual soldier the sage and the saint At times the argument aims not just to understand but to promote spiritual liberation and to do so through philosophic understanding

A Korean Theology of Human Nature Jung Sun Oh, 2005-01-31 This remarkable study articulates a Korean Confucian Christian theory of human nature theory of justification sanctification and salvation by means of a reformed concept of filial piety The book investigates in depth the theological anthropology of Robert C Neville and the inclusive humanism of Tu Wei ming Neville and Tu represent contemporary Christian and Confucian approaches to religious anthropology Furthermore they have engaged in an extended and productive dialogical encounter on the themes of comparative thought and religious renewal in Asia and North America This book argues that Neville's and Tu's insights into human nature have great relevance for a comparative contemporary Korean theology by focusing on the role of a reformed version of filial piety as a new component of Korean theology The articulation of filial piety as a potential key of contemporary Korean theology is an example of creative appropriation of a Confucian theme of the Christian praxis of sanctification and ultimately the soteriology of divine grace and transformation This study construes human nature to be such that any living theology will reflect the creative engagement of Christian theologians as public intellectuals in search of the articulation of the gospel

Whitehead's Radically Different Postmodern Philosophy David Ray Griffin, 2012-02-01 Postmodern philosophy is often dismissed as unintelligible self contradictory and as a passing fad with no contribution to make to the

problems faced by philosophers in our time While this characterization may be true of the type of philosophy labeled postmodern in the 1980s and 1990s David Ray Griffin argues that Alfred North Whitehead had formulated a radically different type of postmodern philosophy to which these criticisms do not apply Griffin shows the power of Whitehead's philosophy in dealing with a range of contemporary issues the mind body relation ecological ethics truth as correspondence the relation of time in physics to the irreversible time of our lives and the reality of moral norms He also defends a distinctive dimension of Whitehead's postmodernism his theism against various criticisms including the charge that it is incompatible with relativity theory *Buddhist Hagiography in Early Japan* Jonathan Morris Augustine,2004-10-21 Hagiographies or idealized biographies which recount the lives of saints bodhisattvas and other charismatic figures have been the meeting place for myth and experience In medieval Europe the lives of saints were read during liturgical celebrations and the texts themselves were treated as sacred objects In Japan it was believed that those who read the biographies of lofty monks would acquire merit Since hagiographies were written or compiled by believers the line between fantasy and reality was often obscured This study of the bodhisattva Gyoki regarded as the monk who started the largest social welfare movement in Japan illustrates how Japanese Buddhist hagiographers chose to regard a single monk's charitable activities as a miraculous achievement that shaped the course of Japanese history **Spirituality, Diversion, and Decadence** Peter H. Van

Ness,1992-10-22 This book presents a philosophical rethinking of the meaning and nature of spiritual discipline It offers a new way of describing and justifying practices like praying meditating fasting and yoga and it provides an innovative case for their contemporary importance Spiritual discipline is especially effective at combatting Pascalian diversion the pursuit of activities that occupy the mind just enough to avoid thinking about important things and Nietzschean decadence the proclivity for extirpating instinctive drives instead of satisfying or sublimating them In addition to overcoming diversion and decadence in contemporary consumerist culture VanNess recommends spiritual discipline as a means of political resistance to powerful institutions which seek to exercise social control in democratic societies by promulgating addictive patterns of consumption Finally he argues that regimens of spiritual discipline can serve healthful and liberating purposes and generally promote fullness of life only insofar as they are shaped by an ethos of intellectual criticism and aesthetic experimentation

St. John of the Cross Daniel A. Dombrowski,1992-01-01 Saint John of the Cross is one of the greatest figures in the history of Western mysticism and one of the greatest poets of the Spanish language This book examines his thought and then applies it to contemporary issues and culture No other book engages John of the Cross with contemporary philosophy and theology *Anglo-American Encyclopedia* ,1910 Religion Robert Cummings Neville,2015-01-08 Complete 3 volume set available for special price Philosophical Theology Set Volumes 1 2 and 3 The concluding volume in a trilogy advancing a systematic philosophical theology this book presents a plausible sacred worldview for religious participation Religion is the third and final volume in Robert Cummings Neville's systematic development of a new philosophical theology Unfolding

through his earlier volumes *Ultimates* and *Existence* and now in *Religion* philosophical theology considers first order questions generally treated by religious traditions through philosophical methods while reflecting Neville's long engagement with philosophy theology and Eastern and Western religious traditions In this capstone to the trilogy Neville provides a theory of religion and presents a sacred worldview to guide religious participation His philosophical theory of value enlightens religions approaches to ethics spirituality and religious institutional living and collaboration With a detailed examination of plausibility conditions for sacred worldviews the book concludes with an exploration of religionless religion for which institutions of religion are of penultimate value Through the development of philosophical theology Neville has built a unique multidisciplinary comparative nonconfessional theological system one that addresses concerns and provides tools for scientific and humanistic scholars of religion postmodern thinkers intellectuals from both secular and religious backgrounds and those interested in the global state of religion today

Handbook of Whiteheadian Process Thought Michel Weber, 2013-04-30 Gathering 115 entries written by 101 internationally renowned experts in their fields the *Handbook of Whiteheadian Process Thought* aims at canvassing the current state of knowledge in Whiteheadian scholarship and at identifying promising directions for future investigations through internal cross elucidation and external interdisciplinary development Two kinds of entries are weaved together in order to interpret Whitehead secundum Whitehead and to read him from the vantage point of interdisciplinary and crossdisciplinary research The thematic entries provide i a broad contextualisation of the issue at stake ii a focus on Whitehead's treatment if any or of a possible Whiteheadian treatment of the issue iii a history of relevant scholarship iv a personal assessment by the Author The biographical entries provide i a brief vita of the targeted thinker ii a sketch of his/her categories relevant to the Whiteheadian scholarship iii a personal assessment of the actual or possible Whiteheadian semantic transfer to or from the thinker

Ultimates Robert Cummings Neville, 2013-10-01 A new theology of ultimate realities and a new theory of religion to back it up addressed to believers unbelievers and scholars of all traditions

Crossover Queries Edith Wyschogrod, 2006 Drawing together pieces from over twenty years that reflect her penetrating thought *Crossover Queries* presents for the first time in a single volume the astonishing range of a major philosopher To explore the risks ambiguities and unstable conceptual situations of contemporary thought it takes modes of negation especially the negation intrinsic to the ethical as its central thread Ranging from twentieth century European philosophy to traditional Jewish thought from analyses of dance music and novels to the question of the name of God from the phenomenology of the body to recent biological research its profoundly learned and humanely engaged discussions remain always mindful that even as philosophy crosses over into new spaces of thought the philosopher remains standing within and responsible a historical legacy one conditioned by the negative

Theology in Global Context Amos Yong, Peter G. Heltzel, 2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West

alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville s work

The Puritan Smile Robert Cummings Neville,1987-09-30 This book develops a contemporary metaphysics of morals Currently the liberal tradition defines the field of moral and political theory It contains the popular utilitarian the deontological and the virtue ethics approaches to normative theory and by a broad dialectical negation it also defines the historical materialism of Marx The Puritan Smile circumvents the Liberalism Marxism dialectic with the Puritan emphasis on responsibility and their social definition of individuality To this core of classical puritanism is added the deeply rooted sense of culture and the vast historical experience of Confucianism with which it resonates strongly The need for tolerance and the celebration of liberty is asserted by Neville in order to offset the tendencies toward dogmatism and totalitarianism inherent within the Puritan and Confucian views The book integrates a Puritan sense of participation with a Confucian sense of moral obligation and a liberal appreciation of freedom and tolerance

Strange, Surprising, Sure Robert Cummings Neville,2024-10-01 In Strange Surprising Sure Robert Cummings Neville presents a theory of being change and value and engages other philosophers who deal with these concepts The book s central thesis is that the entire created world includes everything determinate and thus the creator does not exist within creation Strangely this reverses nearly everything in the Western tradition Surprisingly this thesis is approached from a great many angles all of which are within the Western South Asian or East Asian traditions Surely put this thesis will win out in the long run Although Neville writes for an English reading audience he engages with thinkers from all these traditions

The Religious Dimensions of Confucianism Rodney L. Taylor,1990-08-09 The role of Confucianism in the development of East Asian Cultures has only recently begun to be fully appreciated Even with this recognition there is still little understanding of the tradition as a religious tradition This book presents Confucianism as a religious tradition In no other book has there been a sustained presentation of the many and varied religious dimensions of the tradition

1,911 Best Things Anybody Ever Said Robert Byrne,1988 A collection of 1 911 quotes from scholars comedians political candidates writers reporters philosophers and other people from throughout history

Philosophy and Its Others William Desmond,1990-07-05 Philosophy and its Others responds to the widespread sense that philosophy must renew its intellectual community with other significant ways of being and mind The author articulates philosophy s community of mind with the aesthetic the religious and the ethical without losing any of its own distinctive voice He develops an original and constructive position between these extremes the Hegelian extreme which reduces the plurality of others to a dialectical totality and the Wittgensteinian and deconstructive options that celebrate plurality but without a proper sense of the connectedness of philosophy and its others

Sainthood Richard Kieckhefer,George D. Bond,1990-08-09 Every major religion exalts certain individuals who occupy a dual role On the one hand they serve as exemplars of virtue to be imitated and on the other hand

they stand removed from other mortals privileged and unique Christianity knows them as saints and in the study of religion the term has been taken over and applied to similar figures in other traditions The essays in this volume analyze the role of the saint in Judaism Christianity Islam Hinduism Buddhism and Confucianism providing both a comparative and an interpretive view of sainthood The notion of sainthood is problematic in two ways First can the category be usefully applied to individuals in religious traditions other than Christianity How has it manifested itself and what differences are there in the various manifestations of sainthood Second where individuals are considered to have risen above the norms in these different traditions how is it possible to resolve the tension between the saint's imitability and his or her otherness between imitating and venerating the saint The authors consider these questions in relation to a wide range of individuals in all the major traditions
