Padres of the California Mission Frontier Thomas L. Davis, 2003-12-15 Describes the life and works of the Franciscan priests who helped the Spanish colonize California by establishing missions for the native peoples and new settlers

California, 1542-1850 Robin Santos Doak, 2006 Discusses the early history and colonial life in California

SMRC Revista, 2002

Antigua California Harry W. Crosby, 1994-05 This Spanish Borderlands classic recounts Jesuit colonization of the Old California the peninsula now known as Baja California

Women and the Conquest of California, 1542-1840 Virginia M. Bouvier, 2004-08 Studies of the Spanish conquest in the Americas traditionally have explained European Indian encounters in terms of such factors as geography timing and the charisma of individual conquistadores Yet by reconsidering this history from the perspective of gender roles and relations we see that gender ideology was a key ingredient in the glue that held the conquest together and in turn shaped indigenous behavior toward the conquerors This book tells the hidden story of women during the missionization of California It shows what it was like for women to live and work on that frontier and how race religion age and ethnicity shaped female experiences It explores the suppression of women's experiences and cultural resistance to domination and reveals the many codes of silence regarding the use of force at the missions the treatment of women indigenous ceremonies sexuality and dreams Virginia Bouvier has combed a vast array of sources including mission records journals of explorers and missionaries novels of chivalry and oral histories and has

discovered that female participation in the colonization of California was greater and earlier than most historians have recognized Viewing the conquest through the prism of gender Bouvier gives new meaning to the settling of new lands and attempts to convert indigenous peoples By analyzing the participation of women both Hispanic and Indian in the maintenance of or resistance to the mission system Bouvier restores them to the narrative of the conquest colonization and evangelization of California And by bringing these voices into the chorus of history she creates new harmonies and dissonances that alter and enhance our understanding of both the experience and meaning of conquest *California and Its Missions: Upper California* Bryan James Clinch,1904

Colonial Rosary Alison Lake,2006 California would be a different place today without the imprint of Spanish culture and the legacy of Indian civilization The colonial Spanish missions that dot the coast and foothills between Sonoma and San Diego are relics of a past that transformed California s landscape and its people In a spare and accessible style Colonial Rosary looks at the complexity of California s Indian civilization and the social effects of missionary control While oppressive institutions lasted in California for almost eighty years under the tight reins of royal Spain the Catholic Church and the government of Mexico letters and government documents reveal the missionaries genuine concern for the Indian communities they oversaw for their health spiritual upbringing and material needs With its balanced attention to the variety of sources on the mission period Colonial Rosary illuminates ongoing debates over the role of the Franciscan missions in the settlement of California By sharing the missions stories of tragedy and triumph author Alison Lake underlines the importance of preserving these vestiges of California s prestatehood period An illustrated tour of the missions as well as a sensitive record of their impact on California history and culture Colonial Rosary brings the story of the Spanish missions of California alive *Colonial America* Jerome Reich,2016-07-01 This brief up to date examination of American colonial history draws connections between the colonial period and American life today by including formerly neglected areas of social and cultural history and the role of minorities African Americans Native Americans women and laboring classes It summarizes and synthesizes recent studies and integrates them with earlier research Key topics European Backgrounds The Native Americans The Spanish Empire in America The Portuguese French and Dutch Empires in America The Background of English Colonization The Tobacco Colonies Virginia and Maryland The New England Colonies The Completion of Colonization Seventeenth Century Revolts and Eighteenth Century Stabilization Colonial Government African Americans in the English Colonies Immigration Colonial Agriculture Colonial Commerce Colonial Industry Money and Social Status The Colonial Town The Colonial Family Religion in Colonial America Education in Colonial America Language and Literature Colonial Arts and Sciences Everyday Life in Colonial America The Second Hundred Years War The Road to Revolution The Revolutionary War Governments for a New Nation Market For anyone interested in Colonial History American Revolution or Early American Social History
