Soldiers To The Rescue Humanitarian Lebons From Rwanda:

Soldiers to the Rescue Humanitarian Lessons from Rwanda Guillot Philippe, Minear Larry, 1996-07-18 *Military Support and Protection for Humanitarian Assistance* R. M. Connaughton, 1996 **Civilian-Military Cooperation and Humanitarian Assistance: Lessons from Rwanda**, 1996 On July 22 1994 President Clinton announced that the United States would contribute massive relief assistance to Rwandan refugees in response to an appeal from the United Nations High Commissioner for Refugees The greatly increased level of U S humanitarian support would be provided primarily by the military The Department of Defense quickly responded and its rapid reaction has been highly commended for saving thousands of lives **Surviving the Slaughter** Marie Beatrice Umutesi, 2004-10-15 Though the world was stunned by the horrific massacres of Tutsi by the Hutu majority in Rwanda beginning in April 1994 there has been little coverage of the reprisals that occurred after the Tutsi gained political power During this time hundreds of thousands of Hutu were systematically hunted and killed *Surviving the Slaughter The Ordeal of a Rwandan Refugee in Zaire* is the eyewitness account of Marie Beatrice Umutesi She tells of life in the refugee camps in Zaire and her flight across 2000 kilometers on foot During this forced march far from the world's cameras many Hutu refugees were trampled and murdered Others died from hunger exhaustion and sickness or simply vanished ignored by the international community and betrayed by humanitarian organizations Amidst this brutality day to day suffering and desperate survival Umutesi managed to organize the camps to improve the quality of life for women and children In this first hand account of inexplicable brutality day to day suffering and survival Marie Beatrice Umutesi sheds light on a backlash of violence that targeted the Hutu refugees of Rwanda after the victory of the Rwandan Patriotic Front in 1994 Umutesi's documentation of the flight and terror of these years provides the world a veritable account of a history that is still widely unknown After translations from its original French into three other languages this important book is available in English for the first time It is more than a testimony to the lives and humanity lost it is a call for those politicians military personnel and humanitarian organizations responsible for the atrocious crimes and the devastating silence to be held accountable Umutesi's tale told with honesty and eloquence is a tribute to the human spirit a searing indictment of the agents who perpetrated these horrors and a reproach to those who turned away Catharine Newbury *African Studies Review* Restores a human dimension that has been lacking in the history of the genocide and massacres in Rwanda Danielle de Lame *African Studies Review* A vivid account of the grueling nightmare experienced by tens of thousands of Rwandan civilians whom the world had deliberately forsaken An outstanding call for justice Aloys Habimama *African Studies Review* A towering work An epic for our times a tale to ponder for the lessons it conveys testimony so powerful and moving that it reaches an unintended literary greatness Jan Vansina *African Studies Review* Of all the current books and films ten years after the Rwandan genocide none is more effective than *Surviving the Slaughter* This book carries one along often as if running with the refugees Anne Serafin *Multicultural Review* **Humanitarian aid,**

genocide and mass killings Jean-Hervé Bradol, Marc Le Pape, 2017-01-06 Throughout the 1990s Médecins Sans Frontières (MSF) faced challenges posed by the genocide of Rwandan Tutsis and a succession of outbreaks of political violence in Rwanda and in its neighbours. This book recounts the experiences of the MSF teams working in the field. *Walking Them Home*

Derrick Nearing, 2019-12-09 In July of 1994 Leading Seaman Derrick Nearing, a military medic, is urgently deployed to Rwanda, a country he has never heard of, sent on a mission halfway around the world that will colour the rest of his life. In the previous months, Rwanda has lost forty percent of its seven million people, either murdered or fleeing for their lives to neighboring countries to escape the Interahamwe genocide. The mission for Derrick and his fellow soldiers is simple: to help the reconnaissance team secure the ground vehicles and materials needed to establish a hospital facility. Once this is accomplished, 247 soldiers will join them from Canada on a humanitarian mission to assist the people of Rwanda in the wake of the genocide. The mission, dubbed Operation Passage, will help refugees walk back from Goma, Zaire, to return to their towns, villages, farms, and cities all over Rwanda. The Canadians will set up rest, water, and food points and medical aid stations along the major highway into the country. As the Rwandans return, the Canadian men and women will come to witness the horrific aftermath of a genocide and an abysmal stain on the United Nations and the nations of the world that didn't act when it was so desperately needed. Based on Nearing's daily journal entries, *Walking Them Home: A Soldier's Journey to Post War Rwanda* is an intimate view of one soldier's journey from initial optimism and excitement at being sent to help in a faraway land to a slow descent into PTSD and depression from the nightmarish memories he cannot escape. *Rwanda*

Courtney Chandler, 2013 **Civilian-military Cooperation and Humanitarian Assistance: Lessons from Rwanda**, 1998

Conclusion The termination of Operation Support Hope by the end of September 1994 forced other agencies to take over all aspects of the relief operation within a few months of the massive refugee outflow. Perhaps the presence of US military support for a period beyond 30 September would have made for a better transition, but that subject is beyond the scope of this article. What is clear is that the extent of the military role in refugee relief was the subject of intense debate in the United States between the military and the civilian humanitarian agencies. As a result of the experience with Rwandan refugee relief, various efforts are under way to improve civilian-military coordination and cooperation on humanitarian relief. These should proceed since there undoubtedly will be humanitarian crises in the future that require military involvement. Additional contacts between military establishments and humanitarian actors can reduce some of the wide gap between organizational perspectives. The new vision of the Joint Chiefs of Staff for the year 2010 uses the catch phrase "full spectrum dominance" to encompass the military's humanitarian role. New concepts will enable us to dominate the full range of military operations from humanitarian assistance through peace operations up to and into the highest intensity conflict. The 1994 experience with Rwandan refugees, however, calls into question the prospects for effective implementation of this vision. The US military will need far more than focused logistics to be fully successful when it is selectively engaged in providing humanitarian aid. It

will require stronger commitment from its leadership stronger support in Congress and closer cooperation with civilian agencies on both the nature and termination of its humanitarian mission Nevertheless even under the best of circumstances the concept of dominance in Joint Vision 2010 will be difficult to achieve The nature of the United States military with its focus on warfighting means that humanitarian assistance will always be viewed as a secondary concern and as a distraction from the real task at hand This will inevitably result in clashes with the civilian humanitarian agencies whose primary mission is to protect and assist civilian victims and with whom the military must cooperate in any such action
