Martin van Bruinessen

Solo In The New Order:

The Institutional Origins of Communal Violence Yuhki Tajima, 2014-07-28 Why are transitions from authoritarian rule often marked by spikes in communal violence Through examining Indonesia's recent transition to democracy this book develops a novel theoretical explanation for this phenomenon that also accounts for why some communities are vulnerable to violence during such transitions while others are able to maintain order Yuhki Tajima argues that repressive intervention by security forces in Indonesia during the authoritarian period rendered some communities dependent on the state to maintain intercommunal security whereas communities with a more tenuous exposure to the state developed their own informal institutions to maintain security As the coercive grip of the authoritarian regime loosened communities that were more accustomed to state intervention were more vulnerable to spikes in communal violence until they developed informal institutions that were better adapted for less state intervention To test the theory Tajima employs extensive fieldwork in and rigorous statistical evidence from Indonesia as well as cross national data

Adolescents in Contemporary Indonesia Lyn Parker, Pam Nilan, 2013-07-18 The youth demographic is a large and growing cohort in Indonesia and adolescents embody the currents of social change Throughout the twentieth century they were significant agents of social protest leading to social and political transformation This book looks at the importance of adolescents in contemporary Indonesia and how they are spearheading not just globalisation and a growing consumer youth culture but also the Islamisation movement The book explores both the inner worlds and social selves of Indonesian adolescents It presents an in depth knowledge of Indonesian society and culture in various parts of Indonesia and discusses national patterns and trends Grounded in two field sites the book enables an analysis of young people's local ethnic and religious identities and their commitment to the Indonesian nation state It goes on to look at the physical age bracket of youth the definitions used by the Indonesian state and other agencies and the perceptions of youth themselves about adolescence and adulthood Providing a comprehensive study of young people in contemporary Indonesia the book addresses gender relations the importance of education for youth and youth engagement with popular culture and the moral issue concerning the sexual propriety of young people It is a useful contribution for students and academics of Asian Studies Sociology and Cultural Studies

Contemporary Developments in Indonesian Islam Martin van Bruinessen, 2013 Once celebrated in the Western media as a shining example of a liberal and tolerant Islam Indonesia since the end of the Soeharto regime May 1998 has witnessed a variety of developments that bespeak a conservative turn in the country's Muslim politics In this timely collection of original essays Martin van Bruinessen our most distinguished senior Western scholar of Indonesian Islam and four leading Indonesian Muslim scholars explore and explain these developments Each chapter examines recent trends from a strategic institutional perch the Council of Indonesian Muslim scholars the reformist Muhammadiyah South Sulawesi's Committee for the Implementation of Islamic Shari'a and radical Islamism in Solo With van Bruinessen's brilliantly synthetic introduction and conclusion these essays shed
