Guggenheim Museum, Bruce Brooks Pfeiffer, Frank Lloyd Wright, 1995 This book celebrates the Guggenheim from its inception to the present In a highly informative essay Bruce Brooks Pfeiffer Vice President and Director of the Frank Lloyd Wright Archives traces an odyssey that began in 1943 with a letter imploring Wright to build a temple of spirit for a small museum of non objective paintings The project endured delays and upsets for sixteen years before construction was completed in 1959 only months after Wright s death After a major restoration and expansion project completed in 1992 the architect s original vision has now truly been fulfilled This beautiful volume also includes fascinating photographs taken during the museum s construction a portfolio of photographs interpreting Wright s structure as a work of art and images of exhibition installations within the newly restored building      The Solomon R. Guggenheim Foundation, 1960 Tells the story of the genesis of the museum building includes several extensive statements by Frank Lloyd Wright on his original concept of the Museum as it developed through the years      *Solomon R. Guggenheim Museum* Stephen Hoban, 2012 In 1943 Frank Lloyd Wright received a letter from Hilla Rebay the art advisor to Solomon R Guggenheim asking the architect to design a new building to house Guggenheim s four year old Museum of Non Objective Painting The project evolved into a complex struggle pitting the architect against his clients city officials the art world and public opinion but the resultant achievement testifies to both Wright s architectural genius and the adventurous spirit of its founders The Guggenheim Museum is an embodiment of Wright s attempts to render the inherent plasticity of organic forms in architecture His inverted ziggurat dispensed with the conventional approach to museum design which led visitors through a series of interconnected rooms and forced them to retrace their steps when exiting Instead Wright whisked people to the top of the building via elevator and led them downward at a leisurely pace on the gentle slope of a continuous ramp The galleries were divided like the segments of an orange into self contained yet interdependent sections The open rotunda afforded viewers the unique possibility of seeing several bays of work on different levels simultaneously The spiral design recalled a nautilus shell with continuous spaces flowing freely one into another Solomon R Guggenheim Museum An Architectural Appreciation celebrates Wright s crowning achievement with reflections by prominent architects historians and critics Paired alongside a half century of photographs they convey how as Paul Goldberger has said almost every museum of
