The Scars of Southeast Asia: Understanding the Human Toll of Conflict Pasquale De Marco,2025-03-19 In the annals of history the Vietnam War stands as a somber reminder of the devastating consequences of war and the complexities of international conflicts This comprehensive book delves into the depths of this tumultuous period shedding light on the

historical political and human dimensions of the war that deeply scarred Southeast Asia and reverberated across the globe. The book begins by examining the roots of the conflict tracing its origins to the aftermath of World War II and the subsequent division of Vietnam along the 17th parallel. It explores the ideological clashes and regional tensions that fueled the war as well as the role of the United States and its domino theory in escalating the conflict. With meticulous research and poignant storytelling, the book delves into the human cost of the war. It unveils the staggering civilian casualties, the destruction of infrastructure, and the lasting legacy of suffering caused by the indiscriminate use of chemical weapons. The plight of refugees displaced from their homes and seeking asylum in foreign lands is also brought to light. The book also examines the anti-war movement that gained momentum during the conflict. It highlights the protests, demonstrations, and acts of civil disobedience that challenged the government's narrative and called for an end to the war. These movements reflected a growing disillusionment with the conduct of the war and its heavy human toll. The fall of Saigon in 1975 marked a turning point in the war, leading to the reunification of Vietnam under communist rule. However, the legacy of the war extended far beyond the battlefield. The book explores the impact of the war on the United States, leading to a period of soul searching and re-evaluation of its role in international affairs and the limits of military intervention. Through a multidisciplinary approach, this book provides a comprehensive understanding of the Vietnam War. It illuminates the complexities of the conflict, its causes, consequences, and enduring impact, contributing to a more nuanced understanding of this chapter in history. This book is an essential resource for anyone seeking a deeper understanding of the Vietnam War and its profound implications on Southeast Asia and the world. If you like this book, write a review.

Trends and Issues in Housing in Asia Urmi Sengupta, Annapurna Shaw, 2017-07-06. This book offers a comprehensive overview of current housing practices across Asian cities based on facts and trends in the market. For many countries in Asia, the future of housing is now. This future is closely linked to successful theoretical advancement and policy practice in housing studies. This volume brings together twelve chapters divided across four thematic parts that sum up the concept and conditionality of housing in Asian cities. It studies housing through conceptual perspectives and empirical studies to explore established notions, cultures, and practices relevant to the 21st-century post-reform context in Asia. Housing and property have long been economic drivers leading many individual households towards better lives and associated social and community benefits while also collectively improving the economic base of a city or country. This book examines the nature of the interplay of both state and market in the housing outcomes of these cities. With its extensive geographic coverage across South East Asia, South Asia, and the Far East, and a cross-section of different income groups, the book will interest researchers and scholars in urban studies, architecture, development studies, public policy, political studies, sociology, policymakers in local and central governments, housing and planning professionals, and commercial firms engaged in property markets or real estate in Asia. It will also provide ideas, tools, and good practices for institutional enablement, stakeholders involved in these interventions, private sector.

organisations and NGOs **Conflict Management and Dispute Settlement in East Asia** Ramses Amer,2016-05-23
 Through a multi disciplinary approach this volume studies the management and settlement of conflict and disputes in East Asia Conflict and disputes exist everywhere in human society The management and settlement of them has become an imperative This volume is a significant contribution to a broader understanding of the complexities involved in managing and settling disputes and conflicts at regional inter state and intra state levels in the East Asian region Drawing on expertise in Peace and Conflict International Relations and International Law the volume presents to the reader a general picture of how conflict can be managed at the international and regional levels through various mechanisms in particular through prominent regional organizations such as ASEAN It then moves on to case studies at the regional level including inter state and intra state conflicts and disputes The last part of the volume highlights how states resolve their maritime disputes This has drawn much attention from the international community due to various factors such as the increasing demand for natural resources from the oceans These disputes disrupt the smooth development of international relations as well as trigger tensions and confrontation between states **U.S. Policy in the Far East: Developments in Southeast Asia. examines the genesis nature and features of the European Union's policy of conflict resolution. It examines the causes, consequences and prospects of conflict in South Asia. It evaluates the role of the European Union in conflict resolution in Afghanistan, Myanmar, Nepal and Sri Lanka. It also assesses Norway's role in conflict resolution in Myanmar. The study will be of interest to all those engaged in the fields of political science, international relations, conflict studies and Indian and South Asian politics and foreign policy.

International Conflict in the Asia-Pacific Jacob Bercovitch, Mikio Oishi, 2010-06-23

This book analyses four major long standing and intractable conflicts in the Asia Pacific region: the Korean Peninsula, the Taiwan Strait, the South China Sea, Spratly Islands and India Pakistan, and aims to identify the mechanisms used to manage these conflicts. *International Conflict in the Asia Pacific* brings together in one volume four major international conflicts that have shaped the region and studies how they evolved and how best to manage them. The book seeks to find a pattern common to the four conflicts and their management as well as taking note of variations among them, hereby aiming to establish what might be called the Asia Pacific way of managing intractable conflicts. This book will be of much interest to students of international conflict management, Asian politics, security studies and IR in general. Jacob Bercovitch is Professor of International Relations in the Political Science Department at the University of Canterbury in New Zealand. Widely regarded as one of the most influential scholars in the field of international conflict resolution, he is author of more than 15 books and numerous articles. Mikio Oishi is a Visiting Fellow with the National Centre for Peace and Conflict Studies (NCPACS), University of Otago and a Research Fellow with the Political Science Programme of the University of Canterbury.
