Sixty Upanishads Of The Veda 2 Vols:

The Principal Upanishads, 2012-01-01 This is a beautiful translation of the sacred writings of Hinduism which predate recorded history and is perhaps the greatest of all the books in the history of world religions *The ^A Classical Upaniṣads* Signe Cohen, 2024-01-26 The Upanishads are rich and complex Sanskrit Hindu scriptures dating back to the 8th century BCE and are a staple of world religion courses across the globe Where most survey textbooks present a cursory overview of these texts Signe Cohen provides a nuanced but accessible exploration of the thirteen Classical Upanishads that will benefit both scholars students and general readers alike **The Divine Library** Rufus C. Camphausen, 1992-06 Succinctly describes 140 sacred texts dating from the earliest times to the present in relation to the cultures that created them **Encyclopedia of Hinduism** Denise Cush, Catherine A. Robinson, Michael York, 2012-08-21 The Encyclopedia of Hinduism contains over 900 entries reflecting recent advances in scholarship which have raised new theoretical and methodological issues as well as identifying new areas of study which have not been addressed previously The debate over the term Hinduism in the light of post Orientalist critiques is just one example of how once standard academic frameworks have been called into question Entries range from 150 word definitions of terms and concepts to 5 000 word in depth investigations of major topics The Encyclopedia covers all aspects of Hinduism but departs from other works in including more ethnographic and contemporary material in contrast to an exclusively textual and historical approach It includes a broad range of subject matter such as historical developments among them nineteenth and twentieth century reform and revival geographical distribution especially the diaspora major and minor movements philosophies and theologies scriptures deities temples and sacred sites pilgrimages festivals rites of passage worship religious arts sculpture architecture music dance etc religious sciences e g astrology biographies of leading figures local and regional traditions caste and untouchability feminism and women s religion nationalism and the Hindu radical right and new religious movements The history of study and the role of important scholars past and present are also discussed Accessibility to all levels of reader has been a priority and no previous knowledge is assumed However the in depth larger entries and the design of the work in line with the latest scholarly advances means that the volume will be of considerable interest to specialists The whole is cross referenced and bibliographies attach to the larger entries There is a full index **Hindu-Christian Dialogue** Mariasusai Dhavamony, 2021-11-15 Dialogue is an integral part of the mission of the Christian church The immensity of the ocean of Hindu doctrine and thought presents a significant obstacle to Christians who have been invited by the Roman Catholic Church to scrutinize the divine Mystery present in other religions Many fascinated by Hindu mysticism confuse permanent Hindu beliefs with certain current Western religious movements India s quest for the divine embodies multiple forms Its millennia old methods of meditation and varieties of asceticism often confuse those who are less inclined to experience of an inner spiritual nature This book attempts to address some of these difficulties and questions It is the author s belief that in the Hindu Christian encounter the Christian believer

will also rediscover the originality and newness of the Christian revelation viz the intervention of God in the history of salvation whereby God reveals his salvific love in Jesus Christ Possessing expert knowledge of both Hinduism and Christianity the author approaches the Hindu Christian dialogue with sympathy and discernment

Relating Ontological Truth in the Upanishads to Sleep, Dreaming and Schizophrenia Spectrum Models Edward Miller, 2025-07-28 This book explores the potential relevance of the Upanishads a corpus of ancient Eastern apophatic texts to contemporary Western theories of consciousness and psychopathology particularly in relation to psychoanalysis neuroscience and schizophrenia spectrum disorders Beginning with an analysis of Upanishadic thought and its historical influence in Europe this work bridges the gap between ancient wisdom and modern
