**Honiara** Clive Moore, 2022-05-13 Nahona ara means facing the ara the place where the southeast winds meet the land just west of Point Cruz Nahona ara became Honiara the capital city of Solomon Islands with a population of 160 000 the only significant urban centre in a nation of 721 000 people Honiara Village City of Solomon Islands views Honiara in several ways first as Tandai traditional land then as coconut plantations between the 1880s and 1930s within the British protectorate 1893-1978 and its Guadalcanal District in the 1942-45 war years which created the first urban settlement in the directly post war period until 1952 as the new capital of the protectorate replacing Tulagi and then as the headquarters of the Western Pacific High Commission WPHC between 1953 and 1974 Finally in 1978 Honiara became the capital of the independent nation of Solomon Islands and the headquarters of Guadalcanal Province The book argues that over decades there have been four and sometimes five changing and intersecting Honiara worlds operating at one time each of different social economic and political significance The importance of each group British Solomon Islanders other Pacific Islanders Asians and more recently the 2003-17 presence of the Regional Assistance Mission to Solomon Islands RAMSI has changed over time

War at the Margins Lin Poyer, 2022-09-30 *War at the Margins* offers a broad comparative view of the impact of World War II on Indigenous societies Using historical and ethnographic sources Lin Poyer examines how

Indigenous communities emerged from the trauma of the wartime era with social forms and cultural ideas that laid the foundations for their twenty first century emergence as players on the world s political stage With a focus on Indigenous voices and agency a global overview reveals the enormous range of wartime activities and impacts on these groups connecting this work with comparative history Indigenous studies and anthropology The distinctiveness of Indigenous peoples offers a valuable perspective on World War II as those on the margins of Allied and Axis empires and nation states were drawn in as soldiers scouts guides laborers and victims Questions of loyalty and citizenship shaped Indigenous combat roles from integration in national armies to service in separate ethnic units to unofficial use of their special skills where local knowledge tilted the balance in military outcomes Front lines crossed Indigenous territory most consequentially in northern Europe Southeast Asia and the Pacific Islands but the impacts of war go well beyond combat Like others around the world Indigenous civilian men and women suffered bombing and invasion displacement forced labor military occupation and economic and social disruption Infrastructure construction and demand for key resources affected even areas far from front lines World War II dissolved empires and laid the foundation for the postcolonial world Indigenous people in newly independent nations struggled for autonomy while other veterans returned to home fronts still steeped in racism National governments saw military service as evidence that Indigenous peoples wished to assimilate but wartime experiences confirmed many communities commitment to their home cultures and opened new avenues for activism By century s end Indigenous Rights became an international political force offering alternative visions of how the global order might make room for greater local self determination and cultural diversity In examining this transformative era War at the Margins adds an important contribution to both World War II history and to the development of global Indigenous identity
