Fenega,2014-03-13 This book is a firsthand account of the Vietnam conflict as it unfolded before a midlevel career military officer In a first person account it does not portend to be a microcosm of that war but rather what it was like for one year at one place to participate and ultimately lead an attack squadron in combat This an upbeat anecdote filled historically accurate but nonscholarly tale of events seen or taken part in by the author The book aims for a wide audience that likes aviation adventure and insight into leadership It forcefully brings home the lessons we as a country should learn from such turmoil This is no memoir to justify the action or inaction of a midlevel manager but a month by month account of controlled mayhem and high humor among professionals in the maelstrom of battle Weird Wonder in Merleau-Ponty, Object-Oriented Ontology, and New Materialism Brian Hisao Onishi,2023-12-15 This book connects recent developments in speculative realism new materialism and eco phenomenology to articulate an approach to wonder that escapes the connected traps of anthropocentrism and correlationism Brian Onishi argues that wonder has explanatory power for the constitution of the world and the organization of meaning To do this he appeals to both fiction speculative and Weird fiction in particular and

quantum physics More specifically he argues that the focus of Weird fiction on impossible experiences and a feeling of something just beyond the limits of one's grasp dramatizes the speculative reach beyond the limits of our understanding But more than a tool for knowledge acquisition wonder is an organizing property of objects Like the collapse of superposition in quantum physics reality is constituted when objects reveal themselves to other objects and thereby organize themselves into complex objects Since no relation is exhaustive the capacity to wonder remains at a material level and the possibility of reorganization is ever present Ultimately Onishi argues for a speculative eco phenomenology with wonder as an engine for a Weird environmental ethics
