

Introduction to the Sociology of Aging

The sociology of aging explores how society, our social environment and relationships influence the aging process.

 by Jason Toimle

Sociology Of Aging

**Panel on New Directions in Social
Demography, Social Epidemiology,
and the Sociology of Aging, Committee
on Population, Division of Behavioral
and Social Sciences and
Education, National Research Council**

Sociology Of Aging:

The Sociology of Aging Duane A. Matcha, 1997 Using a sociological perspective book examines how aging is a social construct rather than a specific chronological age or set of conditions KEYTOPICS Covers all facets of aging and how aging is a consequence of various social structural factors rather than a cause **The Sociology of Aging** Diana K.

Harris, 2007 This text provides a comprehensive overview of the sociology of aging and remains the only book of its kind to approach aging from a purely sociological perspective This new edition is completely updated throughout with new chapters that discuss the now imminent retirement of the first of the baby boomers the new form housing arrangements known as semi independent or assisted living elder abuse in nursing homes and quality issues in nursing homes generally and the long term problems facing Medicare and Social Security **The Sociology of Aging** Robert C. Atchley, Mildred M. Seltzer, 1976

Perspectives on the Future of the Sociology of Aging Panel on New Directions in Social Demography, Social Epidemiology, and the Sociology of Aging, Committee on Population, Division of Behavioral and Social Sciences and Education, National Research Council, 2013-02-14 The population of the United States is growing inexorably older With birth rates historically low and life expectancy continuing to rise the age distribution of the population in the United States is growing steadily older This demographic shift is occurring at a time of major economic and social changes which have important implications for the growing elderly population Other changes such as the move away from defined benefit toward defined contribution retirement plans changes in some corporate and municipal pension plans as a result of market pressures and the 2008 financial crisis precipitated by the crash of the housing market all have economic implications for older people They are also likely to make it more difficult for certain groups of future retirees to find their retirements at the level that they had planned and would like To deal effectively with the challenges created by population aging it is vital to first understand these demographic economic and social changes and to the extent possible their causes consequences and implications Sociology offers a knowledge base a number of useful analytic approaches and tools and unique theoretical perspectives that can be important aids to this task The Panel on New Directions in Social Demography Social Epidemiology and the Sociology of Aging was established in August 2010 under the auspices of the Committee on Population of the National Research Council to prepare a report that evaluates the recent contributions of social demography social epidemiology and sociology to the study of aging and seeks to identify promising new research in these fields *Perspectives on the Future of the Sociology of Aging* provides candid and critical comments that will assist the institution in making the final published volume as sound as possible and to ensure that the volume meets institutional standards for objectivity evidence and responsiveness to the study charge **New Directions in the Sociology of Aging** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Population, Panel on New Directions in Social Demography, Social Epidemiology, and the Sociology of Aging, 2013-12-26 The aging of the population of the United States is occurring at a

time of major economic and social changes These economic changes include consideration of increases in the age of eligibility for Social Security and Medicare and possible changes in benefit levels Furthermore changes in the social context in which older individuals and families function may well affect the nature of key social relationships and institutions that define the environment for older persons Sociology offers a knowledge base a number of useful analytic approaches and tools and unique theoretical perspectives that can facilitate understanding of these demographic economic and social changes and to the extent possible their causes consequences and implications New Directions in the Sociology of Aging evaluates the recent contributions of social demography social epidemiology and sociology to the study of aging and identifies promising new research directions in these sub fields Included in this study are nine papers prepared by experts in sociology demography social genomics public health and other fields that highlight the broad array of tools and perspectives that can provide the basis for further advancing the understanding of aging processes in ways that can inform policy This report discusses the role of sociology in what is a wide ranging and diverse field of study a proposed three dimensional conceptual model for studying social processes in aging over the life cycle a review of existing databases data needs and opportunities primarily in the area of measurement of interhousehold and intergenerational transmission of resources biomarkers and biosocial interactions and a summary of roadblocks and bridges to transdisciplinary research that will affect the future directions of the field of sociology of aging

Sociology of Aging Diana K. Harris, William Earle Cole, 1980 Handbook of Aging and the Social Sciences Linda George, Kenneth Ferraro, 2015-08-18 Handbook of Aging and the Social Sciences Eighth Edition presents the extraordinary growth of research on aging individuals populations and the dynamic culmination of the life course providing a comprehensive synthesis and review of the latest research findings in the social sciences of aging As the complexities of population dynamics cohort succession and policy changes modify the world and its inhabitants in ways that must be vigilantly monitored so that aging research remains relevant and accurate this completely revised edition not only includes the foundational classic themes of aging research but also a rich array of emerging topics and perspectives that advance the field in exciting ways New topics include families immigration social factors and cognition caregiving neighborhoods and built environments natural disasters religion and health and sexual behavior amongst others Covers the key areas in sociological gerontology research in one volume with an 80% update of the material Headed up by returning editor Linda K George and new editor Kenneth Ferraro highly respected voices and researchers within the sociology of aging discipline Assists basic researchers in keeping abreast of research and clinical findings Includes theory and methods aging and social structure social factors and social institutions and aging and society Serves as a useful resource an inspiration to those searching for ways to contribute to the aging enterprise and a tribute to the rich bodies of scholarship that comprise aging research in the social sciences

Handbook of Sociology of Aging Richard A. Settersten, Jr., Jacqueline L. Angel, 2011-05-11 The Handbook of Sociology of Aging is the most comprehensive engaging and up to date treatment of

developments within the field over the past 30 years The volume represents an indispensable source of the freshest and highest standard scholarship for scholars policy makers and aging professionals alike The Handbook of Sociology of Aging contains 45 far reaching chapters authored by nearly 80 of the most renowned experts on the most pressing topics related to aging today With its recurring attention to the social forces that shape human aging and the social consequences and policy implications of it the contents will be of interest to everyone who cares about what aging means for individuals families and societies The chapters of the Handbook of Sociology of Aging illustrate the field s extraordinary breadth and depth which has never before been represented in a single volume Its contributions address topics that range from foundational matters such as classic and contemporary theories and methods to topics of longstanding and emergent interest such as social diversity and inequalities social relationships social institutions economies and governments social vulnerabilities public health and care arrangements The volume closes with a set of personal essays by senior scholars who share their experiences and hopes for the field and an essay by the editors that provides a roadmap for the decade ahead The Handbook of Sociology of Aging showcases the very best that sociology has to offer the study of human aging

The New Sociology of Aging Jason L. Powell, 2020 This book introduces the new sociology of aging through the analytical lens of sociological themes and new sociological theories In traditional gerontology much emphasis is put on aging as decline and decline as aging Sociology came late to assessing aging with the introduction of functionalism Marxist critical gerontology and feminist tools of analysis This book moves sociology on by exploring the sociology of risky aging and the precarity of aging identity through managing private pensions It examines postmodern sociological thought which provides the intellectual platform to diagnose why individuals have to manage their own risk affairs in welfare such as pensions and care The book also introduces the importance of a new social methodology for sociological analysis of aging and family life including care relations To compound this the book then draws from the sociological conceptual tools of surveillance and governmentality to examine aging and instances of welfare that epitomises why a new sociology of aging is required in the US Canada EU Africa and Australasia Hence it will appeal to advanced undergraduate postgraduate students and researchers It is envisaged the book will be provocative in examining the implications of rethinking social relations through an impetus for a new sociology of aging

Aging and the Life Course Deborah Lowry, 2022-01-10 Aging part II explores the experiences and conditions of aging especially in particular groups and part III presents current research on older adults engagement in work family social networks and sex Finally Part IV addresses themes of aging and social change
