**Sociology on Film** Chris Cagle, 2016-12-28 After World War II Hollywood's social problem films tackling topical issues that included racism crime mental illness and drug abuse were hits with critics and general moviegoers alike In an era of film famed for its reliance on pop psychology these movies were a form of popular sociology bringing the academic discipline's concerns to a much broader audience Sociology on Film examines how the postwar problem film translated contemporary policy debates and intellectual discussions into cinematic form in order to become one of the preeminent genres of prestige drama Chris Cagle chronicles how these movies were often politically fractious the work of progressive directors and screenwriters who drew scrutiny from the House Un American Activities Committee Yet he also proposes that the genre helped to construct an abstract discourse of society that served to unify a middlebrow American audience As he considers the many forms of print media that served to inspire social problem films including journalism realist novels and sociological texts Cagle also explores their distinctive cinematic aesthetics Through a close analysis of films like *Gentleman's Agreement* *The Lost Weekend* and *Intruder in the Dust* he presents a compelling case that the visual style of these films was intimately connected to their more expressly political and sociological aspirations Sociology on Film demonstrates how the social problem picture both shaped and reflected the middle class viewer's national self image making a lasting impact on Hollywood's aesthetic direction
