The Social Setting of the Ministry as Reflected in the Writings of Hermas, Clement and Ignatius Harry O.

Maier,2006-01-01 Focussing on three first and early second century documents the Shepherd of Hermas 1 Clement and the Ignatian epistles this work contributes to a growing body of literature concerned with the social setting of early Christianity Maier argues that the development of structures of leadership in the early Christian church is best accounted for by reference to the hospitality patronage and leadership of wealthy hosts who invited local Christian groups to meet in their homes Sociological models and types are employed to analyze the tensions that arose from excesses of patronage and leadership by the well to do Recognizing the socio economic setting of these conflicts corrects the interpretation of early Christian conflicts over the ministry as purely theological and doctrinal Public Religions in the Modern World José

Casanova,2024-05-31 In a sweeping reconsideration of the relation between religion and modernity Jose Casanova surveys the roles that religions may play in the public sphere of modern societies During the 1980s religious traditions around the world from Islamic fundamentalism to Catholic liberation theology began making their way often forcefully out of the private sphere and into public life causing the deprivatization of religion in contemporary life No longer content merely to administer pastoral care to individual souls religious institutions are challenging dominant political and social forces raising questions about the claims of entities such as nations and markets to be value neutral and straining the traditional connections of private and public morality Casanova looks at five cases from two religious traditions Catholicism and Protestantism in four countries Spain Poland Brazil and the United States These cases challenge postwar and indeed post Enlightenment assumptions about the role of modernity and secularization in religious movements throughout the world This book expands our understanding of the increasingly significant role religion plays in the ongoing construction of the modern world

On the Scope and Truth of Theology Robert Cummings Neville,2006-06-05 This is the first volume of Robert Cumming Neville s magnum opus Theology as Symbolic Engagement Neville is the premier American systematic

theologian of our time His work is profoundly influenced by Paul Tillich Friedrich Schleiermacher and the American pragmatists John Dewey and Charles Sanders Pierce From Tillich he takes the notion of religion art and morality as symbol and the notion that religion is the substance of culture and culture the form of religion Thus theology is symbolic engagement with cultural forms and Neville explores the ways that such engagement occurs among various religious traditions One of the most important tasks in theology is to devise ways of testing correcting or affirming claims that we had been unable to question before This book will argue that system in theology is not merely correlating assertions but rather building perspectives from which we can render the various parts of theology vulnerable for assessment In fact one of the unique features of this book is its engagement with other religions Such dialogue has been a feature of Neville s work from the beginning Theology as Symbolic Engagement breaks the boundaries of systematic theology and moves away from the static character that characterizes such enterprises from Barth onward Instead Neville s book showcases the dynamic character of all theology The hallmark of this entire project is its effort to show theology to be hypothetical and to make it vulnerable to correction

Nicolaus Mameranus Matthew Tibble,2020-06-22 In Nicolaus Mameranus Matthew Tibble recovers an obscure but revealing body of poetry and political commentary that the Imperial poet laureate Nicolaus Mameranus produced for the court of Mary I of England during the visit of her husband Philip II of Spain in 1557 Where most studies portray this period as one of decline and decay Tibble argues instead that for many Catholics 1557 was characterised by hope and a sense of progression He argues that the royal couple successfully re forged their image as the embodiment of a political union that many considered the foundation of a new Anglo Habsburg dynasty and equally successfully represented their dual monarchy as a bastion in the fight to reform Catholic Christianity in response to the Protestant Reformation

Local Baptists, Local Politics Clifford Anthony Grammich, 1999 This book explores the political views and actions of religious adherents who claim to base their faith on a literal interpretation of the Bible Focusing on several small Baptist sects scattered throughout the middle and uplands South Clifford Grammich finds that these groups are often highly engaged politically at the local level He thus challenges the traditional view of these Baptists as politically aloof concerned only with matters of faith and personal conduct Grammich shows that the politics arising from these groups religious beliefs are not those of any consistent pervasive ideology Rather he argues such politics more often reflect a series of adaptations to local circumstances
