Cities and Metaphors Somaiyeh Falahat, 2018-04-19 Introducing a new concept of urban space Cities and Metaphors encourages a theoretical realignment of how the city is experienced thought and discussed In the context of Islamic city studies relying on reasoning and rational thinking has reduced descriptive vivid features of the urban space into a generic scientific framework Phenomenological characteristics have consequently been ignored rather than integrated into theoretical components The book argues that this results from a lack of appropriate conceptual vocabulary in our global body of scholarly literature It challenges existing theories introduces and applies the concept of Hezar tu a thousand insides to rethink the spaces in historic cores of Fez Isfahan and Tunis This tool constructs a staging post towards a different articulation of urban space based on spatial physical virtual symbolic and social edges and thresholds nodes of sociospatial relationships zones of containment state of intermediacy and thus a logic of ambiguity rather than determinacy Presenting alternative narrations of paths through sequential discovery of spaces this book brings the sensual features of urban space into the focus The book finally shows that concepts derived from local contexts enable us to tailor our methods and theoretical structures to the idiosyncrasies of each city while retaining the global commonalities of all Hence in broader terms it contributes to a growing awareness that urban studies should be more inclusive by bringing the diverse global contexts of cities into the body of our urban knowledge

The Quest for Hegemony in the Arab World Poteh, 2022-02-22 The struggle between Egypt and Iraq over Arab hegemony constitutes the main theme of this study Focussing on the struggle over Middle Eastern defense between 1945-58 and culminating in the conflict over the Baghdad Pact 1955-58 it sheds new light on Arab politics during the period under review This research concentrates predominantly on the regional actors The underlying assumption is that policies were not necessarily formulated in Washington and London and that often enough major decisions taken in Ankara Cairo Baghdad Damascus Amman and other Arab capitals affected decision makers in Western capitals The Quest for Hegemony in the Arab World is based on newly released British American and Israeli documents as well as on all available Arab sources The study's value rests upon its discussion of the Baghdad Pact a significant event which was hitherto neglected yet marked a watershed in modern Arab history This study's approach offers an analytical framework with which the present struggle for hegemony in the Arab world may be examined

This is a detailed account and an excellent narrative history of the often neglected period 1906-1908 in Turkey in which the prelude and aftermath of the revolution and elections of 1908 took place. The year 1908 opened a new era of representative government and the social and political developments leading to the overthrow of the ancien régime are carefully and fascinatingly given. Historians and general readers will find *The Revolution of 1908 in Turkey* a thought-provoking book which will resound in the discussion of the validity of Kemalist or quasi-Kemalist historiography and therefore provide a major contribution to the field. **Kordofan Invaded** Stiansen, Kevane, 2021-10-11. This volume addresses economic change, regional politics and Islamisation in Kordofan, a large province in the Sudan. Kordofan's history is characterised by resistance and adaptation to expanding states and market forces, causing both sectoral transformation and stagnation. The contributions in different ways examine the interplay between local and invading institutions and include studies of Kordofan as a terra media between Darfur and Sinnar, international trade in the nineteenth century, the Mahdist revolt, the Anglo-Egyptian Condominium with particular reference to land tenure and tribal identity, Kordofan in Sudanese nationalist poetry, local politics in the Nuba Mountains and the conflict between religious orthodoxy and local practice. The book will be of interest to scholars of Africa and Islam because of its novel focus on regional institutions and their relation to the state structures. This edited volume explores the history, social structure and economy of Kordofan in the Sudan. Representing several academic disciplines, each chapter is concerned with the long-term incorporation through invasions of the region into wider socio-political and economic structures. **Hadhrami Traders, Scholars and Statesmen in the Indian Ocean, 1750s-1960s** Ulrike Freitag, William Clarence-Smith, 2021-10-11. This volume covers the long neglected history of Hadhramaut, southern Arabia, during the modern colonial era, together with the history of Hadhrami colonies in the Malay world, southern India, the Red Sea and East Africa. After an introduction placing Hadhramis in the context of other diasporas, there are sections on local and international politics, social stratification and integration, religious and social reform and economic dynamics. The conclusion brings the story to the present day and outlines a research agenda. Many aspects of Indian Ocean history are illuminated by this book, notably the role of non-Western merchants in the spread of capitalism, Islamisation and the controversies which raged within Islam. British and Ottoman strategic concerns, social

antagonisms in southern Arabia and the cosmopolitan character of coastal societies İsmet İnönü Metin Heper,2021-10-11 This highly original study of a Turkish statesman can be read as an introduction into Turkish politics In his very clearly written and stimulating political biography of İsmet İnönü Metin Heper presents to the reader a highly motivated self reflecting and self conscious political leader İsmet İnönü played a critical role in the founding of the Turkish Republic further promoting Westernization and the transition to and the consolidation of democracy in Turkey This volume is the first treatise on this remarkable statesman in any Western language It challenges such orthodox views on İnönü as his having played second fiddle vis a vis Atatürk and his having been a power hungry politician with an authoritarian bend of mind It is suggested that İnönü complemented Atatürk and that over time he adopted liberal political views while remaining a staunch guardian of the premises such as secularism upon which the Turkish Republic rested It is also argued that if his compatriots had paid closer attention to İnönü they would have a more liberal conception of democracy and at the same time in politics they would have acted more prudently *The Socialist Movement in Turkey 1960-1980* Lipovsky,2021-11-15 The present study offers a thorough account of the activities of the radical left in Turkey between 1960 1980 and shows how these formed a major contributing factor to the political instability of the country and the military coups that took place in March 1971 and September 1980 The military coup of May 1960 liberalized political life in Turkey and a legal leftist movement arose combining in its ranks social democratic trade unionist and Marxist elements Many of these were united in the framework of the Turkish Labour Party The ideological and political struggle within the leftist movement led to a split in the Labour Party and to the formation in the 1970s of several legal socialist parties each of which adopted its own model of socialism Soviet Chinese Turkish Scandinavian North Korean The 1980 military coup terminated the legal activity of the marxist parties Some merged with the Communist Party which operated illegally others sought ways of legalizing their activity in the new political conditions of Turkey **Islamic Historiography and "Bulghar" Identity Among the Tatars and Bashkirs of Russia** Allen J.
