

THE SOCIOLOGY OF LAW

(General reading: Hunt, *The Sociological Movement in Law* (1978); Cotterrell, *The Sociology of Law* (1992) seems legal system is closed off from rest of world- requires the mastery of a set of terms and way of speaking, socially linguistically, normatively closed off from outside world.; Tomasic, *The Sociology of Law* (1985); Wacks, *Understanding Jurisprudence* (2005) ch. 7; Defflem, *Sociology of Law: Visions of a Scholarly Tradition* (2008))

The autonomy of law. (Sociology of law rejects the account of the autonomy of law at the heart of analytical legal positivism.

Four connections between law and society:

(a) Justice and legitimacy; firstly there seems to be a relationship between justice and law- law aims to be just (as NL tell us)- must reflect the standard fo those being subjected to coercion by law. Democratic process determines the content of law- our view of citizens are fed through. We might start to think if law fails to be just and legitmite- people might stop following- theres a broader sense if law fails to connect to our personal views on how society should be run, it CANNOT OPERATE.

(b) Co-ordination; law is isolated, but in itself has a function, according to some theories- co-ordinates society. Law has social role.

(c) Purposivity; law, is capable of pushing societies in certain directions- could PROHIBIT alcohol, etc 1920s

(d) Integration) as societies become morally diverse, becomes more fragmented. More pluralistic. Religion and morality are not able to form cohesive bon dwhich can pull society together in the way they used to. WE ARE LEFT WITH LAW- the only way society can be glued together. The only way we can establish general stanrds that can govern our conduct.

Sociology of law reflects on these relationship.

- Sociological jurisprudence- range of theories offered by legal philosophers about the relationship between law and society.
- Habermas and Durkheim primarily sociologists looking at laws role in modern society.

Friedrich Karl von Savigny (1779-1861) (*Volkgeist*)

- Writing on issues of role and function of law in maintaining societies.
- Savigny argued customary law (common law) alongside language, was *volkgeist* (the spirit of the people) was being wiped away by a civil code and legislation- problem is once law become a code- it becomes disconnected from people and their culture.
- Savigny said law exists 2 ways- exists customary norms in minds of people AND in form of state law and legislations (applied by specialist lawyers and officials) etc,

Sociology Of Law Sociological Review Monography 23:

The Sociological Review Monograph Chris Shilling, Paul Halmos, 1976 **Law and Social Change** Sharyn L Roach Anleu, 2009-11-25 This is a timely new edition of Sharyn L Roach Anleu's invaluable introduction to the sociology of law and its role as a social institution and social process. Discussing current theory and key empirical research from a diverse range of perspectives, *Law and Social Change* gives relevant examples from various cultures and societies to provide a sociological view which goes beyond more jurisprudential approaches to law and society. The book provides coverage of major classic and contemporary social theories of law, is informed by empirical research drawn from several countries, and includes up to date and relevant examples. This thoroughly updated edition engages with modern scholarship and recent research on globalization whilst also looking at related issues such as the internationalization of law and human rights. It explores recent reforms at local and national levels including issues of migration and refugees, the regulation of anti-social behaviour and specialist or problem-solving courts, and also provides a clear, accessible introduction to research methods used in the socio-legal field. Direct and wide-ranging, this text will be essential reading for students and researchers on social science and law courses, and in particular those taking sociology, legal theory, criminology and criminal justice studies.

The Anxiety of the Jurist Claudio Michelson, 2016-04-01 The contributions in this volume pay homage to Zenon Ba-kowski with a focus on problems concerning law's normalization and the revitalizing force of anxiety. Ranging from political critique to methodological issues and from the role of human rights in development to the role of parables and analogy in legal reasoning, the contributions themselves are testament to the richness of Ba-kowski's scholarship as well as to the applicability of his core ideas to a wide range of issues. Divided into five parts, the book focuses on the role and methods of the jurist, conceptions of legality and the experience of living under rules, jurisprudential issues affecting exchange and the market, and the burden and methods of legal judgement. It also includes Ba-kowski's 2011 valedictory lecture and a bibliography of his work. Comprising all original contributions, the contributors represent a balance of established leading figures and younger emerging scholars in the field of legal and social theory.

In the Grip of Freedom Cary Boucock, 2000-01-01 Examining the relationship between Weber's *Sociology of Law* and his interpretation of the structure and meaning of modern society, Boucock looks at Weber's thought in the context of developments in Canada since 1982.

Official Discourse (Routledge Revivals) Frank Burton, Pat Carlen, 2013-10-14 First published in 1979, *Official Discourse* is an unofficial report of theoretical investigations into a specific state of practice: the publication of reports of official inquiries into law order and justice issues. The commissions, tribunals and committees of inquiry scrutinized in this book examine problems arising from wrongful imprisonment, police corruption, industrial picketing and communal rioting and internment in Northern Ireland. Focusing on the reasons why government reports take the form they do, the authors venture into the areas of linguistics, psychoanalysis and Marxism. The book is an exercise in discourse analysis, an exercise in theoretical work that looks at the relationships

between theory and literary production and a critique of official conceptions of law order and justice **Psychology and Law** Andreas Kapardis,2003 This book is the authoritative work for students and professionals in psychology and law

The Ties That Bind (Routledge Revivals) Carol Smart,2013-11-05 First published in 1984 this book made an important and timely contribution to the development of the idea that the law is a major source of women s oppression Based on research of the theory and practice of family law it examines the way in which private law operates to sustain reproduce and reinforce the dependence of women in the most private of spheres namely marriage The author focuses on the point of break down or divorce where the economic vulnerability of women caused by marriage and the sexual division of labour is most clearly expressed She points to the way in which the law while mitigating the worst excesses of men s power over women in marriage has consistently failed to tackle the economic structure of marriage and women s fundamental material vulnerability inside the family She confronts various myths on divorce legislation in Britain and discusses alternative feminist proposals for tackling the problems caused by women s economic dependence in marriage Although Smart writes in 1984 many of the issues she discusses retain their significance in today s society **The Politics of Display** Sharon

Macdonald,2010-10-05 The assumption that museum exhibitions particularly those concerned with science and technology are somehow neutral and impartial is today being challenged both in the public arena and in the academy The Politics of Display brings together studies of contemporary and historical exhibitions and contends that exhibitions are never and never have been above politics Rather technologies of display and ideas about science and objectivity are mobilized to tell stories of progress citizenship racial and national difference The display of the Enola Gay the aircraft which dropped the atomic bomb on Hiroshima is a well known case in point The Politics of Display charts the changing relationship between displays and their audience and analyzes the consequent shift in styles of representation towards interactive multimedia and reflexive modes of display The Politics of Display brings together an array of international scholars in the disciplines of sociology anthropology and history Examples are taken from exhibitions of science technology and industry anthropology geology natural history and medicine and locations include the United States of America Australia the United Kingdom France the
