Sociology Of Secularisation A Critique Of A Concept

David Martin

Sociology Of Secularisation A Critique Of A Concept:

The Sociology of Secularisation Peter E. Glasner, 1977-01-01 *Secularisation, Pentecostalism and Violence* David Martin, 2017-03-16 In this book David Martin brings together a coherent summary of his many years of ground breaking academic work on the sociology of religion Covering key and contentious areas from the last half century such as secularisation religion and violence and the global rise of Pentecostalism it presents a critical recuperation of these themes some of them first initiated by the author and a review of their reception history As such this collection is vital reading for all academics with an interest in David Martin s work as well as those involved with the sociology of religion and the study of secularisation more generally Islam and Secularism in the Middle East Azzam Tamimi, John L. Esposito, 2000-10 Western civilization tends to view secularism as a positive achievement From this perspective benefits of secularizing trends include the separation of church and state the rule of law and freedom from organized religion In the Arab Middle East however Islamist intellectuals increasingly cite Western inspired secularism as the source of the region s social dislocation and political instability While secularism in the West led to the spread of democratic values in the Muslim world it has been associated with dictatorship the violation of human rights and the abrogation of civil liberties Islam and Secularism in the Middle East examines the origins and growth of the movement to abolish the secularizing reforms of the past century by creating a political order guided by Shariah law Contributors explain the Islamic rejection of secularism as a failed Western Christian ideal and also discuss how secularization was pioneered by those who thought Muslims could only advance politically by emulating Western practices including the renunciation of religion **Oxford Handbook of Political Behavior** Russell J. Dalton, Hans-Dieter Klingemann, 2007 Assembles the world s leading scholars on public opinion and political behaviour to describe the state of the art research on the beliefs values and behaviours of contemporary politics *Jewish Culture in Early Modern Europe* Richard I. Cohen, Natalie B. Dohrmann, Elchanan Reiner, Adam Shear, 2014-12-31 David B Ruderman s groundbreaking studies of Jewish intellectuals as they engaged with Renaissance humanism the Scientific Revolution and the Enlightenment have set the agenda for a distinctive historiographical approach to Jewish culture in early modern Europe from 1500 to 1800 From his initial studies of Italy to his later work on eighteenth century English German and Polish Jews Ruderman has emphasized the individual as a representative or exemplary figure through whose life and career the problems of a period and cultural context are revealed Thirty one leading scholars celebrate Ruderman s stellar career in essays that bring new insight into Jewish culture as it is intertwined in Jewish European Ottoman and American history The volume presents probing historical snapshots that advance refine and challenge how we understand the early modern period and spark further inquiry Key elements explored include those inspired by Ruderman s own work the role of print the significance of networks and mobility among Jewish intellectuals the value of extraordinary individuals who absorbed and translated so called external traditions into a Jewish idiom and the interaction between

cultures through texts and personal encounters of Jewish and Christian intellectuals While these elements can be found in earlier periods of Jewish history Ruderman and his colleagues point to an intensification of mobility the dissemination of knowledge and the blurring of boundaries in the early modern period These studies present a rich and nuanced portrait of a Jewish culture that is both a contributing member and a product of early modern Europe and the Ottoman Empire As director of the Herbert D Katz Center for Advanced Judaic Studies at the University of Pennsylvania Ruderman has fostered a community of scholars from Europe North America and Israel who work in the widest range of areas that touch on Jewish culture He has worked to make Jewish studies an essential element of mainstream humanities The essays in this volume are a testament to the haven he has fostered for scholars which has and continues to generate important works of scholarship across the entire spectrum of Jewish history

The Future of Christianity Professor David Martin, 2013-06-28 This book offers a mature assessment of themes preoccupying David Martin over some fifty years complementing his book *On Secularization* Deploying secularisation as an omnibus word bringing many dimensions into play Martin argues that the boundaries of the concept of secularisation must not be redefined simply to cover aberrant cases as when the focus was more on America as an exception rather than on Europe as an exception to the furiously religious character of the rest of the world Particular themes of focus include the dialectic of Christianity and secularization the relation of Christianity to multiple enlightenments and modes of modernity the enigmas of East Germany and Eastern Europe and the rise of the transnational religious voluntary association including Pentecostalism as that feeds into vast religious changes in the developing world Doubts are cast on the idea that religion has ever been privatised and has lately reentered the public realm The rest of the book deals with the relation of the Christian repertoire to the nexus of religion and politics including democracy and violence and sharply criticises polemical assertions of a special relation of religion to violence and explores the contributions of cognitive science to the debate

State, Society, and Religious Engineering Khun Eng Kuah-Pearce, 2009 The book looks at how religion in Singapore is being subjected to the processes of modernisation and change The Singapore State has consciously brought religion under its guidance It has exercised strong bureaucratic and legal control over the functioning of all religions in Singapore The Chinese community and the Buddhist Sangha have responded to this by restructuring their temple institutions into large multi functional temple complexes There has been quite a few books written on the role of the Singapore State but so far none has been written on the topic the relationship between state society and religion It will help to fill the missing gap in the scholarly literature on this area This is also a topic of great significance in many Asian particularly Southeast Asian countries and it will serve as an important book for future reference in this area of research and comparative studies

The New Criminology Ian Taylor, Ian Taylor, M.B, Paul Walton, Jock Young, 2002-11 A major contribution to criminology in which Taylor Walton and Young provide a framework for a fully social theory of crime

Religion, Theology and the Human Sciences Richard H. Roberts, 2002 Religion Theology and the Human Sciences

explores the religious consequences of the so called end of history and triumph of capitalism as they have impinged upon key institutions of social reproduction in recent times The book explores the imposition of managerial modernity upon successive sectors of society and shows why many people today feel themselves to be oppressed by systems of management that seem to leave them no option but to conform Richard Roberts seeks to challenge and outflank such seamless oppressive modernity through reconfiguration of the religious and spiritual field
