

SOCIOLOGY

Sociology is the scientific study of human society, social relationships, and the patterns of behavior that emerge within them.

OVERVIEW

Sociology explores how individuals are shaped by social structures, cultural norms, and institutions, and how they, in turn, shape society. Sociologists analyze various social phenomena such as inequality, social change, and group dynamics to understand how they impact individuals and communities.

EXAMPLES

- **Study of social institutions:** Sociology investigates how social institutions such as schools, courts, and government affect social mobility and inequality.
- **Study of gender:** Sociologists explore how gender affects people's life chances due to social stigmatization and social norms.

Year-book University of Southern California,1922 *Model Cases* Monika Krause,2021-09-03 In *Model Cases* Monika Krause asks about the concrete material research objects behind shared conversations about classes of objects periods and regions in the social

sciences and humanities It is well known that biologists focus on particular organisms such as mice fruit flies or particular viruses when they study general questions about life development and disease Krause shows that scholars in the social sciences and humanities also draw on some cases more than others selecting research objects influenced by a range of ideological but also mundane factors such as convenience historicist ideas about development over time schemas in the general population and schemas particular to specific scholarly communities Some research objects are studied repeatedly and shape our understanding of more general ideas in disproportionate ways The French Revolution has profoundly influenced our concepts of revolution of citizenship and of political modernity just like studies of doctors have set the agenda for research on the professions Based on an extensive analysis of the role of model cases in different fields Krause argues that they can be useful for scholarly communities if they are acknowledged and reflected as particular objects she also highlights the importance of research strategies based on neglected research objects and neglected combinations of research objects and scholarly concerns

Circular of Information University of Southern California,1925 [Workplace Learning](#) John Bratton,Jean C. Helms Mills,Peter Sawchuk,2003-12-01 Published Under the Garamond Imprint This innovative book is concerned with the power relations complexities and contradictions in the paid workplace Workplace learning is not value free or politically neutral and cannot be studied independently of the political economy of work Workplace Learning is part of a growing body of work that offers an alternative to mainstream approaches to workplace learning recognizing that power relations politics and conflicts of interest all shape learning The authors emphasize the lived experiences of working people avoiding prescriptive accounts and uncritical Human Resource Development views Comments Here is a map through contested and largely uncharted terrain from the foreword by D Arcy Martin

Framing a Domain for Work and Family Carol S. Wharton,2002-05-09 Framing a Domain brings new sociological focus to the work of women realtors The book provides fascinating insights into why women choose to sell real estate and why they have come to dominate the profession Based on in depth interviews with women realtors carried out through the 1990s Carol Wharton s work places this white collar service occupation within the larger context of women s lives It offers a unique case study of the gendered practices that infuse the workplace and the ways women negotiate these practices to successfully weave work with family obligations Framing a Domain not only provides an excellent occupational study of residential real estate salespeople but contributes much to our understanding of gender and work in the late twentieth and early twenty first centuries
