Sociology Theology And Conflict:

Sociology, Theology, and Conflict Denys Edward Hugh Whiteley, Roderick Martin, 1969 **Sociology and Theology** John Orme Mills, W. S. F. Pickering, 2003 This work brings together two disciplines Both sociology and theology give an account of the human condition but the majority of sociologists and theologians have dismissed each other's views as irrelevant *Religion and Social Conflicts* Otto Maduro, 2005-08-16 *Conflict and Catholic Social Ethics* Taylor J. Ott, 2024-11-01 This book focuses on the question of how to understand conflict and its place in Catholic and Christian social ethics The author examines Catholic social teaching CST for its explicit mentions of conflict or contention and analyzes the way that CST addresses the subjects of peace labor and environment While CST offers precedent to think about conflict within the frame of Catholic ethics its lack of explicit engagement remains a major obstacle to a full rich and concrete understanding of the fabric of society and the work of social justice Any social ethic that is not informed by the presence of conflict misses a major dynamic in society and therefore leads to ethical judgements that are at best inadequate and at worst actively harmful Building upon the insight of respected thinkers within Catholic social thought this study is based on an interdisciplinary method that engages sociology political theory postcolonial theory and intersectional feminist ethics The book will be of particular interest to theological ethicists and those who work with modern CST **Theology in a Social Context** Professor Robin Gill, 2013-06-28 Over the last 30 years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering *Theology in a Social Context* *Theology Shaped by Society* *Society Shaped by Theology* *Theology in a Social Context* argues that a sociological perspective properly understood can make an important contribution to theology Part I looks carefully at various objections raised by both theologians and sociologists maintaining instead that a proper understanding of social context is a prerequisite for effective theology Part II suggests that a sociological perspective offers crucial insights into resurgent forms of fundamentalism Part III offers a fresh account of social context in the modern world once thought by sociologists and theologians alike to consist simply of increasing secularization **Religion and Conflict in Northern Ireland** Véronique Altglas, 2022-04-11 Northern Ireland presents a fundamental challenge for the sociology of religion how do religious beliefs attitudes and identities relate to practices violence and conflict In other words what does religion do These interrogations are at the core of this book It is the first critical and comprehensive review of the ways in which the social sciences have interpreted religion's significance in Northern Ireland In particular it examines the shortcomings of existing interpretations and in turn suggests alternative lines of thinking for more robust and compelling analyses of the role's religion might play in Northern Irish culture and politics

Through and beyond the case of Northern Ireland the second objective of this book is to outline a critical agenda for the social study of religion which has theoretical and methodological underpinnings Finally this work engages with epistemological issues which never have been addressed as such in the Northern Irish context how do conflict settings affect the research undertaken on religion when religion is an object of political and violent contentions By analysing the scope for objective and critical thinking in such research context this critical essay intends to contribute to a sociology of the sociology of religion

Religion in World Conflict Jonathan Fox, Shmuel Sandler, 2014-02-04 This new book tackles two crucial questions First how does religion in its various forms and manifestations influence world politics Second how will adding religion to the discourse on international relations modify our theoretical understanding Each of these leading authors addresses different aspects of these questions in different contexts providing a diverse and multifaceted view of the topic Susanna Pearce and Tanja Ellingsen examine the religious causes of conflict on the macro level Several of the contributors focus on specific conflicts The Gaurav Ghose and Patrick James examine the Kashmir conflict from the Pakistani perspective and Carolyn James and Ozgur Ozdamar examine it from the Indian perspective Similarly Hillel Frisch examines the Palestinian Israeli conflict from the Palestinian perspective and Jonathan Rynhold examines it from the Israeli perspective Finally two of the authors examine other important issues Stuart Cohen examines the evolution of the religious view of war in the Jewish tradition and Yehudit Auerbach examines whether can play a role in conflict resolution and reconciliation These assessments deliver fascinating conclusions This book was previously published as a Special Issue of Terrorism and Violence

Understanding the Roots of Intractability in Hindu-Muslim Conflicts in India Chirasree Mukherjee, 2025-07-17

Understanding the Roots of Intractability in Hindu Muslim Conflicts in India examines why some political conflicts especially those involving religion prove difficult to resolve utilizing the case study of religious conflicts between the Hindus and the Muslims in India Traditional conflict resolution techniques such as negotiation and mediation often fail to manage or resolve such conflicts and the existing literature often overlooks the nuances within religious conflicts This book deepens understanding of the roots of intractable conflicts analyzing five decades of conflicts between Hinduism and Islam in India paving the way for more successful peacebuilding and conflict management The author disaggregates religious conflicts into four types Conflicts over Sacred Sites Dietary Restrictions Religious Festivities and Other Using the Varshney Wilkinson Dataset on Hindu Muslim Violence in India 1950 1995 and Mitra and Ray s 2014 extension of the same dataset 1996 2000 this book argues that compared to the latter three types of conflicts and nonreligious conflicts any conflict involving sacred sites results in greater intensity and duration and hence will be the most intractable It further demonstrates the varied effects of each conflict type on conflict intractability This book will appeal to scholars and students of political science religious studies and conflict and security studies
