Discourses of Quaker and Quakers

Thomas Whitworth

Socrates Of Constantinople Historian Of Church And State

Theresa Urbainczyk

Socrates Of Constantinople Historian Of Church And State:

Socrates of Constantinople Theresa Urbainczyk,1997 The first detailed study of Socrates history and the context in which he wrote Greek and Roman Historiography in Late Antiquity Gabriele Marasco,2003-07-01 This book is the first comprehensive study of Greek and Latin historiography from Constantine to the end of the sixth century AD It aims to examine the development of late antique historiography stressing chiefly the relations between pagan and Christian historians their polemics but also their often neglected agreements Of special importance is the study of the Church historians who are considerable but not adequately known sources for the political and social history of the period Greek and Latin Historiography in Late Antiquity is a highly valuable and useful reference tool for both scholars and students Greek and Roman Historiography in Late Antiquity has been selected by Choice as Outstanding Academic Title 2005 *Constantine and the Christian Empire* Charles Odahl,2003-10-04 Drawing on over a quarter of a century of the author s research and experience this book illustrated with ninety two photographs and eight maps is the standard work on the man and his life for scholars students and all those interested in Roman imperial early Christian and Byzantine imperial history Encyclopedia of Early Christianity Everett Ferguson,2013-10-08 First published in 1997 What s new in the Second Edition Some 250 new entries twenty five percent more than in the first edition plus twenty five new expert contributors Bibliographies are greatly expanded and updated throughout More focus on biblical books and philosophical schools their influence on early Christianity and their use by patristic writers More information about the Jewish and pagan environment of early Christianity Greatly enlarged coverage of the eastern expansion of the faith throughout Asia including persons and literature More extensive treatment of saints monasticism worship practices and modern scholars Greater emphasis on social history and more theme articles More illustrations maps and plans Additional articles on geographical regions Expanded chronological table Also includes maps **A Greek Roman Empire** Fergus Millar,2006-07-10 In the first half of the fifth century the Latin speaking part of the Roman Empire suffered vast losses of territory to barbarian invaders But in the Greek speaking half of the Eastern Mediterranean with its capital at Constantinople there was a stable and successful system using Latin as its official language but communicating with its subjects in Greek This book takes an inside look at how this system worked in the long reign of the pious Christian Emperor Theodosius II 408 50 and analyzes its largely successful defense of its frontiers its internal coherence and its relations with its subjects with a flow of demands and suggestions traveling up the hierarchy to the Emperor and a long series of laws often set out in elaborately self justificatory detail addressed by the Emperor through his officials to the people Above all this book focuses on the Imperial mission to promote the unity of the Church the State s involvement in intensely debated doctrinal questions and the calling by the Emperor of two major Church Councils at Ephesus in 431 and 449 Between the Law codes and the acts of the Church Councils the material illustrating the working of government and the involvement of State and church is incomparably richer more detailed and more vivid than for any

previous period *Power and Rhetoric in the Ecclesiastical Correspondence of Constantine the Great* Andrew J. Pottenger, 2022-11-30 This volume closely examines patterns of rhetoric in surviving correspondence by the Roman emperor Constantine on conflicts among Christians that occurred during his reign primarily the Donatist schism and Arian controversy Commonly remembered as the first Christian emperor of the Roman Empire Constantine's rule sealed a momentous alliance between church and state for more than a millennium His well known involvement with Christianity led him to engage with two major disputes that divided his Christian subjects the Donatist schism centred from the emperor's perspective on determining the rightful bishop of Carthage and the so called Arian controversy a theological conflict about the proper understanding of the Son's divine nature in relation to that of the Father This book examines a number of letters associated with Constantine that directly address both of these disagreements exploring his point of view and motivations to better understand how and why this emperor applied his power to internal church divisions Based on a close analysis of prominent themes and their functions in the rhetoric of his correspondence Pottenger argues that three doctrines of power served to inform and direct Constantine's use of power as he engaged with these problems of schism and heresy *Power and Rhetoric in the Ecclesiastical Correspondence of Constantine the Great* is of interest to students and scholars of early Christianity and the history of the later Roman Empire **Early Christian Historiography** G. W. Trompf, 2016-04-08 First Published in 2014 This book describes the developing application of retributive principles in historical narratives before Christ It assesses degrees of concern in the first history writers of the world's most widespread monotheistic tradition to discern divine justice in human affairs *The Past is Prologue* Thomas C. Ferguson, 2005-08-01 While there has been substantial scholarly work done on the development of Christian doctrine in the fourth and fifth centuries very little corresponding attention has been paid to the writing of church history during this critical period This work examines how authors began to construct the historical narrative of the Arian controversy and focuses on the interplay between theology and worshipping communities Major figures such as Eusebius and Athanasius are examined and important but overlooked figures such as an anonymous non Nicene chronicler and Philostorgius are also included In the introduction the book surveys recent developments in the study of Arianism and discusses the usefulness of the very category of an Arian controversy Subsequent chapters set forth the thesis that church histories are important sources for understanding the development of doctrine A chapter is devoted to Eusebius *Ecclesiastical History* especially the oft overlooked Book X Further chapters explore the role of Rufinus as the first extant author to write a continuation of Eusebius The work also consciously includes marginalized non Nicene sources and there are chapters which examine an anonymous non Nicene chronicler and the *Ecclesiastical History* of the Eunomian Philostorgius of Borsippus The book is particularly useful for persons interested in examining the development of doctrine in the fourth century from fresh perspectives The work approaches church histories as narrative myths of community origins produced by worshipping communities standing in continuity to local schools of

thought **Palladius of Helenopolis** Demetrios S. Katos, 2011-11-17 This book is the first monograph devoted to the life work and thought of Palladius of Helenopolis ca 362-420, an important witness of Christianity in late antiquity. Palladius' *Dialogue on the Life of St John Chrysostom* and his *Lausiac History* are key sources for our knowledge of John Chrysostom's downfall and of the Origenist controversy, and they both provide rich information concerning many notable ecclesiastical personalities such as John Chrysostom, Theophilus of Alexandria, Jerome, Evagrius of Pontus, Melania the Elder, Isidore of Alexandria, and the Tall Brothers. Demetrios S. Katos employs late antique theories of judicial rhetoric and argumentation theories whose significance is only now becoming apparent to late antique scholars to elicit new insights from the *Dialogue* regarding the controversy that resulted in the death of John Chrysostom. He also demonstrates that the *Lausiac History* deliberately promoted to the imperial court of Pulcheria a spiritual theology that was indebted to his guide Evagrius and more broadly to the legacy of Origen, despite Jerome's recent attacks against both Palladius. Palladius emerges from this account not merely as a peripatetic monk, his own preferred self-portrait that has prevailed in most modern accounts, but as an ecclesiastical statesman who passionately supported both the causes and ideas of his associates in the most pressing controversies of his day. The study will also be valuable for scholars of late antiquity working in the areas of asceticism, spirituality, pilgrimage, hagiography, and early Christian constructions of gender, for all of which Palladius' works are important sources.

Literary Texts and the Roman Historian David Potter, 2005-07-22 *Literary Texts and the Roman Historian* looks at literary texts from the Roman Empire which depict actual events. It examines the ways in which these texts were created, disseminated, and read. Besides covering the major Roman historical authors such as Livy and Tacitus, he also considers the contributions of authors in other genres like Cicero, Lucian, and Aulus Gellius. *Literary Texts and the Roman Historian* provides an accessible and concise introduction to the complexities of Roman historiography.

Socrates Of Constantinople Historian Of Church And State Book Review: Unveiling the Power of Words

In a global driven by information and connectivity, the ability of words has become more evident than ever. They have the ability to inspire, provoke, and ignite change. Such is the essence of the book **Socrates Of Constantinople Historian Of Church And State**, a literary masterpiece that delves deep to the significance of words and their effect on our lives.
