Soft Gold The Fur Trade Cultural Exchange On The Northwest Coast Of America:

Soft Gold Thomas Vaughn, Bill Holm, 1982-12-01 **Soft Gold** Bill Holm, Oregon Historical Society, 1982 Annotated catalogue to accompany an exhibition of early northwest coast Indian artifacts from the collections of the Peabody Museum of Archaeology and Ethnology at Harvard University and art and maps from various museums and private collections depicting the fur trade along the northwest coast of America **Souvenirs of the Fur Trade** Mary Malloy, Peabody Museum of Archaeology and Ethnology, 2000-12-18 American mariners made more than 175 voyages to the Northwest Coast during the half century after 1787 The art and culture of Northwest Coast Indians so intrigued American sailors that the collecting of ethnographic artifacts became an important secondary trade Malloy has brought details about these early collections together for the first time **A Voyage to the North West Side of America** Robert Galois, 2011-11-01 James Colnett a veteran of James Cook's second voyage to North America was an early participant in the maritime sea otter trade Between 1786 and 1789 his two vessel expedition traversed the Northwest Coast from Prince William Sound to Vancouver Island and wintered on the Hawaiian Islands Along the way he and his crew had some remarkable encounters with Native peoples of the Northwest Coast and the Hawaiian Islands they were the first Europeans to encounter the Tsimshian and the southern Heiltsuk peoples as well as the first to land on the southern Queen Charlotte Islands Colnett's journal of this expedition is published here for the first time Editor Robert Galois provides extensive annotations along with an introductory essay addressing the geopolitical context of the voyage and the intellectual background that shaped the writing of the journal Galois supplements Colnett's writings with extracts from a second journal also previously unpublished by Andrew Bracey Taylor third mate on one of the ships under Colnett's command Also included are illustrations from Colnett's journals and a variety of maps both contemporary and historical This fascinating and informative account offers a new understanding of the early European presence in the Northwest and of Native responses to these developments It will interest historians geographers and ethnographers of the Northwest Coast and beyond **California, Oregon, and Washington Archaeological Resource Study**, 1990 **California, Oregon, and Washington Archaeological Resource Study: Appendices**, 1990 **From Maps to Metaphors** Robin Fisher, Hugh Johnston, 2011-11-01 During the summers of 1792-94 George Vancouver and the crew of the British naval ships Discovery and Chatham mapped the northwest coast of North America from Baja California to Alaska Vancouver's voyage was the last and longest of the great Pacific voyages of the late eighteenth century Taking the art and technique of distant voyaging to a new level Vancouver eliminated the possibility of a northwest passage and his remarkably precise surveys completed the outline of the Pacific But to map an area is to appropriate it to begin to bring it under control and Vancouver's charts of the northwest coast were part of a process of economic exploitation and cultural disruption Although he and the other great navigators of his age exercised no control over the ideas and enterprises spawned by their voyages their names have come to symbolize the consequences of European

expansion good or bad From Maps to Metaphors grew out of the Vancouver Conference on Exploration and Discovery held to observe the bicentennial of Vancouver's arrival on the Pacific northwest coast It brings to light much of the new research on the discovery of the Pacific and illuminates the European and Native experience The chapters are written from a variety of perspectives and provide new insights on many aspects of Vancouver's voyages from the technology employed to the complex political and power relationships among European explorers and the Native leadership While it is no longer possible to celebrate the arrival to the northwest coast of explorers such as Vancouver their achievements cannot be overlooked The charts log books journals and specimens from these voyages are important sources of information and essential for the reconstruction of an image of the Pacific region and its people in the eighteenth century **The Sea is My Country** Joshua

L. Reid, 2015-01-01 The first full scale history of the Makah people of the Pacific Northwest whose culture and identity are closely bound to the sea For the Makahs a tribal nation at the most northwestern point of the contiguous United States a deep relationship with the sea is the locus of personal and group identity Unlike most other indigenous tribes whose lives are tied to lands the Makah people have long placed marine space at the center of their culture finding in their own waters the physical and spiritual resources to support themselves This book is the first to explore the history and identity of the Makahs from the arrival of maritime fur traders in the eighteenth century through the intervening centuries and to the present day Joshua L Reid discovers that the People of the Cape were far more involved in shaping the maritime economy of the Pacific Northwest than has been understood He examines Makah attitudes toward borders and boundaries their efforts to exercise control over their waters and resources as Europeans and then Americans arrived and their embrace of modern opportunities and technology to maintain autonomy and resist assimilation The author also addresses current environmental debates relating to the tribe's customary whaling and fishing rights and illuminates the efforts of the Makahs to regain control over marine space preserve their marine oriented identity and articulate a traditional future Captured Heritage Douglas

Cole, 2011-11-01 The heyday of anthropological collecting on the Northwest Coast took place between 1875 and the Great Depression The scramble for skulls and skeletons poles canoes baskets feast bowls and masks went on until it seemed that almost everything not nailed down or hidden was gone The period of most intense collecting on the coast coincided with the growth of anthropological museums which reflected the realization that time was running out and that civilization was pushing the indigenous people to the wall destroying their material culture and even extinguishing the native stock itself Douglas Cole examines the process of collecting in the context of the development of museums and anthropology The main North American museums with Northwest Coast collections the Smithsonian Institution the American Museum of Natural History Chicago's Field Museum of Natural History the Royal British Columbia Museum and the Canadian Museum of Civilization in Ottawa were intense rivals in the race against time For the new edition of Captured Heritage Douglas Cole has written a preface in which he outlines developments since the book's first publication in 1985 Since that time for example the

Kwagiulth Museum and Cultural Center on Quadra Island and the U Mista Museum and Cultural Center at Alert Bay have been successful in having some of their artifacts repatriated

BOOK JACKET **The Heathen School** John Demos, 2014 Longlisted for the 2014 National Book Award The astonishing story of a unique missionary project and the America it embodied from award-winning historian John Demos Near the start of the nineteenth century as the newly established United States looked outward toward the wider world a group of eminent Protestant ministers formed a grand scheme for gathering the rest of mankind into the redemptive fold of Christianity and civilization Its core element was a special school for heathen youth drawn from all parts of the earth including the Pacific Islands China India and increasingly the native nations of North America If all went well graduates would return to join similar projects in their respective homelands For some years the school prospered indeed became quite famous However when two Cherokee students courted and married local women public resolve and fundamental ideals were put to a severe test The Heathen School follows the progress and the demise of this first true melting pot through the lives of individual students among them Henry Obookiah a young Hawaiian who ran away from home and worked as a seaman in the China Trade before ending up in New Engl John Ridge son of a powerful Cherokee chief and subsequently a leader in the process of Indian removal and Elias Boudinot editor of the first newspaper published by and for Native Americans From its birth as a beacon of hope for universal salvation the heathen school descends into bitter controversy as American racial attitudes harden and intensify Instead of encouraging reconciliation the school exposes the limits of tolerance and sets off a chain of events that will culminate tragically in the Trail of Tears In The Heathen School John Demos marshals his deep empathy and feel for the textures of history to tell a moving story of families and communities and to probe the very roots of American identity Encounters with the People Dennis Baird, Diane Mallick, William R. Swagerty, 2021-10-04 Organized both chronologically and thematically Encounters with the People is an edited annotated compilation of unique primary sources related to Nez Perce history Native American oral histories diary excerpts military reports maps and more Generous elders shared their collective memory of carefully guarded stories passed down through multiple generations One described the level of attentiveness required to preserve their oral history as so still to listen that you could hear a bird take a drink of water on the other side of the mountain The work begins with early Nimiipuu Euro American contact and extends to the period immediately after the Treaty of 1855 held at Walla Walla The editors scoured archives federal document repositories and state and local historical museums in search of little known documents related to regional cultural and environmental history Most of the selected material is published for the first time or is found only in obscure sources Complete documents are included wherever possible and any excisions carefully noted Part of the Voices from Nez Perce Country series Encounters with the People includes a thorough up to date
