A History of Housing in New York City Richard Plunz, 2016-10-18 Since its emergence in the mid nineteenth century as the nation's metropolis New York has faced the most challenging housing problems of any American city but it has also led the nation in innovation and reform The horrors of the tenement were perfected in New York at the same time that the very rich were building palaces along Fifth Avenue public housing for the poor originated in New York as did government subsidies for middle class housing A standard in the field since its publication in 1992 A History of Housing in New York City traces New York's housing development from 1850 to the present in text and profuse illustrations Richard Plunz explores the housing of all classes with comparative discussion of the development of types ranging from the single family house to the high rise apartment tower His analysis is placed within the context of the broader political and cultural development of New York City This revised edition extends the scope of the book into the city's recent history adding three decades to the study covering the recent housing bubble crisis the rebound and gentrification of the five boroughs and the ecological issues facing the next generation of New Yorkers More than 300 illustrations are integrated throughout the text depicting housing plans neighborhood changes and city architecture over the past 130 years This new edition also features a foreword by the distinguished urban historian Kenneth T Jackson

Art and Merchandise in Keith Haring's Pop Shop Amy Raffel, 2020-12-30 As one of the first academic monographs on Keith Haring this book uses the Pop Shop a previously overlooked enterprise and artist merchandising as tools to reconsider the significance and legacy of Haring's career as a whole Haring developed an alternative approach to both the marketing and the social efficacy of art he controlled the sales and distribution of his merchandise while also promulgating his belief in accessibility and community activism He proved that mass produced objects can be used strategically to form a community and create social change Furthermore looking beyond the 1980s into the 1990s and 2000s Haring and his shop prefigured artists emerging self aware involvement with the mass media and the art world's growing dependence on marketing and commercialism The book will be of interest to scholars or students studying art history consumer culture cultural studies media studies or market studies as well as anyone with a curiosity about Haring and his work the 1980s art scene in New York the East Village street art art activism and art merchandising

Artists' SoHo Richard Kostelanetz, 2015-01-02 During the 1960s and 1970s in New York City young artists exploited an industrial wasteland to create spacious studios where they lived and worked redefining the Manhattan area just south of Houston Street Its use fueled not by city planning schemes but by word of mouth recommendations the area soon grew to become a world class center for artistic creation indeed the largest urban artists colony ever in America let alone the world Richard Kostelanetz's Artists SoHo not only examines why the artists came and
