

A photograph of two men standing in a field with trees in the background. The man on the left is wearing a dark blue polo shirt and sunglasses, and the man on the right is wearing a red polo shirt and sunglasses. They are both looking down at a map or document that the man on the left is holding. The man on the right is pointing at the map with his right hand. The background consists of green trees and foliage.

Border Environmental Education Resource Guide ,2008 **Sustainable Agriculture** ,1992 *Outcome-Based Performance Management in the Public Sector* Elio Borgonovi,Eugenio Anessi-Pessina,Carmine Bianchi,2017-07-17 This book highlights the use of an outcome oriented view of performance to frame and assess the desirability of the effects produced by adopted policies so to allow governments not only to consider effects in the short but also the long run Furthermore it does not only focus on policy from the perspective of a single unit or institution but also under an inter institutional viewpoint This book features theoretical and empirical research on how public organizations have evolved their performance management systems toward outcome measures that may allow one to better deal with wicked problems Today wicked problems characterize most of governmental planning involving social issues These are complex policy problems underlying high risk and uncertainty and a high interdependency among variables affecting them Such problems cannot be clustered within the boundaries of a single organization or referred to specific administrative levels or ministries They are characterized by dynamic complexity involving multi level multi actor and multi sectoral challenges In the last decade a number of countries have started to develop new approaches that may enable to improve cohesion to effectively deal with wicked problems The chapters in this book showcase these approaches which encourage the adoption of more flexible and pervasive governmental systems to overcome such complex problems Outcome Based Performance Management in the Public Sector is divided into five parts Part 1 aims at shedding light on problems and issues implied in the design and implementation of outcome based performance management systems in the public sector Then Part 2 illustrates the experiences problems and evolving trends in three different countries Scotland USA and Italy towards the adoption of outcome based performance management systems in the public sector Such analyses are conducted at both the national and local government levels The third part of the book frames how outcome based performance management can enhance public governance and inter institutional coordination Part 4 deals with the illustration of challenges and results from different public sector domains Finally the book concludes in Part 5 as it examines innovative methods and tools that may support decision makers in dealing with the challenges of outcome based performance management in the public sector Though the book is specifically focused on a research target it will also be useful to practitioners and master students in public administration *Forestry and Biodiversity* Fred L. Bunnell,Glen B. Dunsworth,2010-01-01 Sustainable management is a problem for countries that depend on natural resources Forests contain much of the world s biodiversity and offer significant renewable resources with a potentially small ecological and carbon footprint Yet as global demand for forest products increases conserving biodiversity

has become more urgent and challenging Forestry and Biodiversity makes the case for adaptive management a structured approach to learning by doing to sustain biodiversity in managed forests It draws on the theory and principles of conservation biology and forest ecology and illustrates them and the challenges they pose through a practical real world study of a 1 1 million hectare commercial operation in a coastal temperate rainforest **Promoting sustainable land management through evidence-based decision support** Harari, N., Mekdaschi Studer, R., Bastidas Fegan, S., Schlingloff, S., Bres, A., 2023-10-23 This publication is a product of the GEF funded FAO project Decision Support for Mainstreaming and Scaling Out Sustainable Land Management DS SLM which has developed a decision support framework DSF The DSF integrates experience from work with land degradation LD and SLM into an overall strategy for mainstreaming and scaling out SLM at different spatial and temporal scales This publication serves as a step by step guide for the application and implementation of the DSF during planning design and implementation of SLM interventions It includes elements both in its modules and proposed tools and methods which can support countries in pursuing land degradation neutrality LDN
