the world's population lives in cities in developing countries where access to basic public services such as water, electricity and health clinics is either inadequate or sorely missing. Water and Politics shows how politicians benefit politically from manipulating public service provision for electoral gain. In many young democracies, politicians exchange water service for votes or political support, rewarding allies or punishing political enemies. Surprisingly, the political problem of water provision has become more pronounced as water service represents a valuable political currency in resource scarce environments. Water and Politics finds that middle class and industrial elites play an important role in generating pressure for public service reforms.

El encantamiento del mundo Boris Cyrulnik, 2020-07-31

Desde el nacimiento nos dejamos fascinar, hechizar e hipnotizar por el mundo y los otros que nos rodean. Cuál es este poder oculto que nos gobierna y nos obliga a quedar capturados por los gestos, la mirada y la voz de los otros? Esta relación la compartimos con todos los animales que al nacer necesitan el cuidado de otros para poder sobrevivir. La fascinación que nos liga a nuestro mundo es un producto de la evolución. Pero si los animales quedan hechizados por los sentidos cuando perciben el olor, el color o la postura de otros para los humanos se da un tipo de hechizo los significados que cada uno atribuye a las cosas hechizando a su vez el mundo y recreándolo como su mundo mental. Cuando los humanos conversan con otros sobre y desde su representación particular del mundo no saben cuál es la del otro y, sin embargo, nos sirve para comunicar. Y este mundo puramente mental no está separado de nuestro físico porque todo nuestro organismo está penetrado por los significados que creamos. Esta obra ofrece un amplio panorama de los aspectos más sutiles y sorprendentes del comportamiento humano y su desarrollo. Boris Cyrulnik lo compara a cada paso con las conductas de las más diversas especies animales. A la vista de sus asombrosas capacidades y actitudes, lo recientemente descubiertas y reconocidas, cabe preguntar qué queda a nivel como lo específicamente humano. El autor intenta responder desde la etología humana a la pregunta por nuestro lugar en el mundo de lo vivo y por nuestro estatuto en este planeta.
