Solar Cat:

A History of Solar Power Art and Design Alex Nathanson, 2021-07-30 This book examines the history of creative applications of photovoltaic PV solar power including sound art wearable technology public art industrial design digital media building integrated design and many others The growth in artists and designers incorporating solar power into their work reflects broader social economic and political events As the cost of PV cells has come down they have become more accessible and have found their way into a growing range of design applications and artistic practices As climate change continues to transform our environment and becomes a greater public concern the importance of integrating sustainable energy technologies into our culture grows as well The book will be of interest to scholars working in art history design history design studies environmental studies environmental humanities and sustainable energy design

Skin Diseases of the Dog and Cat Thelma Lee Gross, Peter J. Ihrke, Emily J. Walder, Verena K. Affolter, 2008-04-15 Diagnosis is often the most challenging part of dermatology Diagnostic dermatology melds both clinical and histopathologic diagnosis by correlating the clinical and microscopic features of skin disease This book is a heavily illustrated comprehensive overview of clinical dermatology and dermatopathology that will provide the reader with the tools to accurately diagnose skin disease in the dog and cat The book will prove an indispensable reference for veterinary dermatologists diagnostic pathologists and small animal practitioners who seek to improve their skill in diagnostic dermatology Completely revised second edition with many new disease descriptions Now with colour clinical photographs illustrating all of the non neoplastic skin diseases previous edition had black and white photographs only Written by internationally renowned experts it provides a comprehensive overview of clinical dermatology and dermatopathology for all those interested in skin diseases of dogs and cats
