Solidarity Congress 1981 The Great Debate:

Solidarity with Solidarity Idesbald Goddeeris, 2012-07-10 The Polish crisis in the early 1980s provoked a great deal of reaction in the West Not only governments but social movements were also touched by the establishment of the Independent Trade Union Solidarnosc in the summer of 1980 the proclamation of martial law in December 1981 and Solidarnosc's underground activity in the subsequent years In many countries campaigns were set up in order to spread information raise funds and provide the Polish opposition with humanitarian relief and technical assistance Labor movements especially stepped into the limelight A number of Western European unions were concerned about the new international tension following the Soviet invasion of Afghanistan and the new hard line policy of the US and saw Solidarnosc as a political instrument of clerical and neo conservative cold warriors This book analyzes reaction to Solidarnosc in nine Western European countries and within the international trade union confederations It argues that Western solidarity with Solidarnosc was highly determined by its instrumental value within the national context Trade unions openly sided with Solidarnosc when they had an interest in doing so namely when Solidarnosc could strengthen their own program or position But this book also reveals that reaction in allegedly reluctant countries was massive albeit discreet pragmatic and humanitarian rather than vocal emotional and political

Solidarity Congress, 1981 George Sanford, 1990 Solidarity Congress, 1981 George Sanford, 1990-06-18 The 1981 Solidarity Congress summed up its intellectual and political heritage This edited translation is the most comprehensive source for Solidarity's values policies internal wrangles and political strategies and provides an important historical document on the Polish crisis of the 1980s

The Political Economy of State-Society Relations in Hungary and Poland Anna Seleny, 2006-02-13 This book shows how Hungary and Poland led the transformations that brought down Communism

Uncivil Society Stephen Kotkin, 2010-10-12 Twenty years ago the Berlin Wall fell In one of modern history's most miraculous occurrences communism imploded and not with a bang but with a whimper Now two of the foremost scholars of East European and Soviet affairs Stephen Kotkin and Jan T Gross drawing upon two decades of reflection revisit this crash In a crisp concise unsentimental narrative they employ three case studies East Germany Romania and Poland to illuminate what led Communist regimes to surrender or to be swept away in political bankruptcy This is less a story of dissidents so called civil society than of the bankruptcy of a ruling class communism's establishment or uncivil society The Communists borrowed from the West like drunken sailors to buy mass consumer goods then were unable to pay back the hard currency debts and so borrowed even more In Eastern Europe communism came to resemble a Ponzi scheme one whose implosion carries enduring lessons From East Germany's pseudotechnocracy to Romania's megalomaniacal dystopia from Communist Poland's cult of Mary to the Kremlin's surprise restraint Kotkin and Gross pull back the curtain on the fraud and decadence that cashiered the would be alternative to the market and democracy an outcome that opened up to a deeper global integration that has proved destabilizing

Anti-Communist Student

Organizations and the Polish Renewal Charles Wankel, 1992-06-18 Offers an account of the key role of Polish student movements in the rebirth of their country It provides a history of student activism in Poland and explains the context in which recent changes have occurred

Return to the NEP Oscar J. Bandelin, 2002-12-30 No scholar denies Mikhail S Gorbachev's role in developing a new approach to Soviet socialism but most writers emphasize the radical departure from traditional Soviet ideology that perestroika seemed to represent This work presents perestroika as part of the continuum of European intellectual history It examines the sources of Gorbachev's thinking and action in 19th century thought the development of Russian Marxism through the intellectual crisis at the turn of the 20th century the pragmatic and philosophical challenges to the Marxist Leninist paradigm Stalinism and its critics and reform Communism in post World War II Eastern Europe Against this background the book argues that the decline and fall of Soviet Communism was much more deeply connected with ideological issues than most scholars have realized Bandelin presents fresh analyses of the impacts of major works and ideas such as Lenin's Materialism and Empirio Criticism the neglected Marxian concept of the Asiatic mode of production and the underlying relationship of East European reform Communism to perestroika He analyzes the major intellectual trends of perestroika in terms of these and other currents This study offers a perspective that challenges most of current scholarship on the issues it raises suggests new avenues for research and contributes to a broader overall understanding of the problems of Soviet socialism and Gorbachev's effort to solve them

Democratization in Poland, 1988-90, 1992-06-18 The themes and data generated by Poland's move away from Communism are crucial for discussing prospects for democratization and marketization in Eastern Europe This is a case study of the mechanisms of power transfer the dynamics of the initial transition and the prospects for democratization

Empowering Revolution Gregory F. Domber, 2014 As the most populous country in Eastern Europe as well as the birthplace of the largest anticommunist dissident movement Poland is crucial in understanding the end of the Cold War During the 1980s both the United States and the Soviet Union vied for influence over Poland's politically tumultuous steps toward democratic revolution In this groundbreaking history Gregory F Domber examines American policy toward Poland and its promotion of moderate voices within the opposition while simultaneously addressing the Soviet and European influences on Poland's revolution in 1989 With a cast including Reagan Gorbachev and Pope John Paul II Domber charts American support of anticommunist opposition groups particularly Solidarity the underground movement led by future president Lech Wałęsa and highlights the transnational network of Polish migrants and trade unionists that kept the opposition alive Utilizing archival research and interviews with Polish and American government officials and opposition leaders Domber argues that the United States empowered a specific segment of the Polish opposition and illustrates how Soviet leaders unwittingly fostered radical pro democratic change through their policies The result is fresh insight into the global impact of the Polish pro democracy movement

Global Solidarity Lawrence Wilde, 2013-01-31 This book explores the development of the goal of human solidarity at a time when the processes of

globalisation offer the conditions for the development of a harmonious global community
