Solidarity's Secret The Women Who Defeated Communism In Poland:

Solidarity's Secret Shana Penn, 2005 Drawing on a decade of interviews Penn Union Theological Center in Berkeley California pieces together the huge largely unstudied contributions of the Polish women whose pro democracy work was obscured by the more public successes of their male counterparts While prominent men like Lech Walesa were underground or in jail during the 1980s

Melancholic Migrating Bodies in Contemporary Polish Women's Writing Urszula Chowaniec, 2015-10-13 Reading contemporary women's writing as melancholy texts highlights their often under explored neuralgic nature and emancipatory value These strangers in their own lands as most recent Polish women writers and their work were described are the subject of detailed analysis in this book and are also positioned as the mirrors in which those lands are reflected From this perspective the melancholic strands in women's writing are drawn together to provide a diagnosis of the current situation in Poland taking into account unwanted discourses unwelcomed subjects and unresolved problems *Melancholic Migrating Bodies* offers the first systematic overview of Poland's literary and cultural environment after 1989 from the perspective of women's writing It critically surveys the various political and social transformations of this period through a close reading of the foremost Polish female novelists In this original way the book adopts a fresh perspective on some of the country's key questions such as Catholicism nationalism the patriotic ethos history romantic mythology and the problem of memory

produced an eloquently written exciting and meticulously analyzed ethnographic history that marks an alternative to the vast majority of strictly archival based historical literature on the German Polish borderlands Within the field of Polish history this book is also an important contribution as the first extensive work on the critical role of informality in the politics society and economy of People s Poland H Poland By concentrating on the local strategies of combination in the areas of uprootedness Materka has made an interesting and valuable contribution to our knowledge of human behavior References and the use of Polish words for important concepts are exemplary H er collection of narratives provides food for thought on the relation between formal regulation and human ingenuity Baltic Worlds **Established-Outsiders Relations in Poland** Marta Bucholc,2024-03-30 This book uses Norbert Elias and John L Scotson s The Established and The Outsiders to map selected established outsiders figurations in Poland after 1989 Looking at gender and sexual orientation nationalism and patriotism race and class antifeminism and homophobia elitist and populist imaginaries religious and political ideals and ideologies hate speech and the crisis of the rule of law this book tracks how inequalities are transformed into figurations of the have and the have nots by way of spatial symbolic and institutional exclusion This edited collection is rooted in a socio historical understanding of the trajectory of Polish society before and since the fall of Communism over thirty years ago and a critical assessment of the dramatic turn that Polish society has taken since the beginning of the democratic backsliding in 2015

The Politics of Gender Culture under State Socialism Hana Havelková,Libora Oates-Indruchová,2014-02-03 Though there has been much research on the incomplete emancipation project of state socialism in East and Central Europe very little has been published on how the state and its institutions conceived of gender as a concept This book seeks to understand if and how this conceptualization developed in the second half of the twentieth century and what impact it had on everyday life and on culture This study moves beyond the dichotomous gender perspectives and towards a nuanced understanding of the diverse discursive negotiations agendas actors and agency involved in state socialist gender practices Including a detailed case study on Czechoslovakia contributors explore these issues in a series of independent but collaboratively developed studies placing their research in the context of other East Central European countries The studies collected in the volume bring to light fresh material and consider it from the combined perspective of current gender theory and internal ideological dynamics of state socialism breaking new ground in gender theory cultural theory and studies of state socialism This book will be of interest to students and scholars of gender studies socialism Cold War politics and Eastern European politics and culture **Working on Rights** Anna Delius,2023-11-20 This book is the first to connect global labor history and the history of human rights By focusing on democratic labor oppositions in Spain and Poland between 1960 and 1990 it shows how workers in authoritarian regimes addressed repression and whether they developed a language of rights in the light of a globally dynamic human rights discourse The study argues that the democratic labor oppositions in Spain and Poland were both variants of emancipatory and democracy oriented social movements with global interconnections that

emerged in the 1960s It reveals that the demands for free and independent trade unions which in both countries became a flashpoint in the fight for broader democratic demands was not always discussed in rights terms but rather presented as an inevitable necessity At the same time these labor movements and their intellectual allies morally delegitimized state repression against workers and thereby employed the concepts of democracy participation solidarity progress and eventually rights Integrating the history of two European semi peripheric societies into a broader narrative this book is relevant for readers interested in global labor history human rights history and the history of democratization in Europe in the late twentieth century Civil Society Revisited Kerstin Jacobsson, Elżbieta Korolczuk, 2017-06-01 In much social scientific literature Polish civil society has been portrayed as weak and passive This volume offers a much needed corrective challenging this characterization on both theoretical and empirical grounds and suggesting new ways of conceptualizing civil society to better account for events on the ground as well as global trends such as neoliberalism migration and the renewal of nationalist ideologies Focusing on forms of collective action that researchers have tended to overlook the studies gathered here show how public discourse legitimizes certain claims and political actions as true civil society while others are too often dismissed Taken together they critique a model of civil society that is made from above *Democracy* Temma Kaplan, 2015 Focusing on local movements to achieve equal distribution of social economic and political rights and natural resources *Democracy A World History* examines how ordinary and extraordinary men and women of different cultural and religious backgrounds have formed and attempted to sustain institutions that would permit them to live together in equality and peace

Rethinking Modern Polish Identities Agnieszka Pasięka, Paweł Rodak, 2023 A critical examination of the category of Polishness that is the formation redefinition and performance of various kinds of Polish identities from a wide range of disciplinary perspectives Inspired by new research in the humanities and social sciences as well as recent scholarship on national identities this volume offers a rigorous examination of the idea of Polishness Offering a diversity of case studies and methodological theoretical approaches it demonstrates a profound connection between national and transnational processes and places the Polish case in a broader context This broader context stretches from a larger Eastern European one a usual frame of comparison to the overseas immigrant communities The authors renowned scholars from Europe and the United States thus demonstrate that an understanding of modern Polish identity means crossing not only historical but also geographical boundaries Consequently the narrative on Polish identity that unfolds in the volume is a personalized and multivocal one that presents the perspectives of a wide range of subjects peasants workers migrants ethnic and sexual minorities that is all those actors who have been absent in grand national narratives As such the examination of Polishness sheds light on the identity question more broadly emphasizing the interplay of pluralizing and homogenizing tendencies and fostering a reflection on national identity as encompassing both sameness and difference **Mapping Experience in Polish and Russian Women's Writing** Urszula Chowaniec, 2010-09-13 The volume encompasses eleven articles which

discuss the critical views that Polish and Russian women writers have articulated with regard to the notion of experience and constructions of femininity in the national imagination from the 19th to the 21st centuries Major themes of the articles include women's experiences as writers in the 19th century women's embodied experiences of a traumatic past body and sexuality in the different ages of women political and aesthetic discourses and femininity Although the articles are arranged in chronological order they do not form an absolute chronological or periodic continuum i.e. from Romanticism to Postmodernism although references to certain aesthetic periods are made The authors of the articles reflect in detail on how the women writers and their literary texts represent different understandings and experiences in relation to dominant perceptions for example of the memory of war of motherhood of art and aesthetics and so on Readers are encouraged to seek parallels and continuities between the different historical times and spaces between women's writing in Russia and Poland between different scholarly approaches and aims The articles of this volume bring together important critical standpoints in women's writing in Poland and Russia in which parallels continuities and resemblances can be traced but in which discontinuities breaks and differences also make themselves visible Apart from the conspicuous resemblances between individual Russian and Polish women writers works or even between groups of women writers the articles document the diversity within Russian and Polish women's writing respectively and even within individual writers

The Feminist Challenge to the Socialist State in Yugoslavia Zsófia Lóránd, 2018-09-27 This book tells the story of new Yugoslav feminism in the 1970s and 1980s reassessing the effects of state socialism on women's emancipation through the lens of the feminist critique This volume explores the history of the ideas defining a social movement analysing the major debates and arguments this milieu engaged in from the perspective of the history of political thought intellectual history and cultural history Twenty five years after the end of the Cold War societies in and scholars of East Central Europe still struggle to sort out the effects of state socialism on gender relations in the region What could tell us more about the subject than the ideas set out by the only organised and explicitly feminist opposition in the region who as academics artists writers and activists criticised the regime and demanded change
