Soll Und Haben:

The Economy of Ulysses Mark Osteen, 1995-07-01 This original and wide ranging study explores the economies of Ulysses using a number of different critical and theoretical methods Not only do the economic circumstances of the characters form a significant part of the novel's realistic subject matter but the relationships between characters are also based upon modes of economic exchange Moreover the narrative itself is filled with economic terms that serve as tropes for its themes events and techniques Some of the subjects and topics covered include Joyce's own spendthrift background gift exchanges and reciprocity as a fundamental means of reader author relationship in the novel money and language Bloom as an economic man the narrative economy of Wandering Rocks the relationship between commerce and eroticism the function of sacrifice in the creation of value counterfeiting forgery and other crimes of writing and a demonstration of how the encounter between Stephen and Bloom makes both ends meet The book brings together not only the opposed economic impulses in Joyce but also the conflicting strains of regulation and excess in the novel's structural economy

The German Bestseller in the Late Nineteenth Century Charlotte Woodford, Benedict Schofield, 2012 The late nineteenth century was a crucial period for the development of German fiction Political unification and industrialization were accompanied by the rise of a mass market for German literature and with it the beginnings of the German bestseller Offering escape romance or adventure as well as insights into the modern world nineteenth century bestsellers often captured the imagination of readers well into the twentieth century and beyond However many have been neglected by scholars This volume offers new readings of literary realism by focusing not on the accepted intellectual canon but on commercially successful fiction in its material and social contexts It investigates bestsellers from writers such as Freytag Dahn Jensen Raabe Viebig Stifter Auerbach Storm Müllhausen Marlitt Suttner and Thomas Mann The contributions examine the aesthetic strategies that make the works such a success and writers' attempts to appeal simultaneously on different levels to different readers Writers tried to find freedom and be innovative while also accommodating the expectations of publishers and the marketplace This volume sheds light on the important effect of the mass market on the writing not just of popular works but of German prose fiction on all levels

The Novel in Anglo-German Context, 2021-10-18 The Novel in Anglo-German Context focuses on cross currents and affinities between fiction written in English and fiction written in German and the thirty one contributors to this volume cover authors from the eighteenth century to the present day The essays collected in this book approach the theme of Anglo-German cultural cross fertilisation from a number of different angles These include the reception and translation of foreign authors the examination of exile writers the comparative exploration of aspects which are crucial to both German Austrian or Swiss and British or Irish novelists at a given point in time the fictional depiction of the respective other culture Anglo-German images in the novel as well as the role of the novel in the curricula of German and British secondary education The topics chosen by the contributors offer stimulating views on a wide range of subject areas and the volume is essential reading

for anyone with a broad interest in Anglo Irish German Austrian and Swiss literature the development of fiction as well as Anglo German literary and cultural relations *Entwicklung und Kolonisation in Freytags Roman „Soll und Haben“: gesellschaftspolitische Diskurse in einem kontroversen Text des 19. Jahrhunderts* Vincent de Paul Kemeugne, 2015-10 Entwicklung und Kolonisation sind Problematiken die im Kontext der unter dem Antrieb vom Kapitalismus fußfassenden Industriegesellschaft und Modernisierung sowie der im Zeichen des Imperialismus sich verstärkenden kolonialen Globalisierung im 19. Jahrhu At the Limit of the Obscene Erica Weitzman, 2021-02-15 As German language literature turned in the mid nineteenth century to the depiction of the profane sensual world a corresponding anxiety emerged about the terms of that depiction with consequences not only for realist poetics but also for the conception of the material world itself At the Limit of the Obscene examines the roots and repercussions of this anxiety in German realist and postrealist literature Through analyses of works by Adalbert Stifter Gustav Freytag Theodor Fontane Arno Holz Gottfried Benn and Franz Kafka Erica Weitzman shows how German realism's conflicted representations of the material world lead to an idea of the obscene as an excess of sensual appearance beyond human meaning the obverse of the anthropocentric worldview that German realism both propagates and pushes to its crisis At the Limit of the Obscene thus brings to light the troubled and troubling ontology underlying German realism at the same time demonstrating how its works continue to shape our ideas about representability alterity and the relationship of human beings to the non human well into the present day *Colonial Fantasies, Imperial Realities* Lenny A. Ureña Valerio, 2019-08-28 In *Colonial Fantasies Imperial Realities* Lenny Ure a Valerio offers a transnational approach to Polish German relations and nineteenth century colonial subjectivities She investigates key cultural dynamics in the history of medicine colonialism and migration that bring Germany and Prussian Poland closer to the colonial and postcolonial worlds in Africa and Latin America She also analyzes how Poles in the German Empire positioned themselves in relation to Germans and native populations in overseas colonies She thus recasts Polish perspectives and experiences allowing new insights into identity formation and nationalist movements within the German Empire Crucially Ure a Valerio also studies the medical projects and scientific ideas that traveled from colonies to the German metropole and vice versa which were influential not only in the racialization of Slavic populations but also in bringing scientific conceptions of race to the everydayness of the German Empire As a whole *Colonial Fantasies Imperial Realities* illuminates nested imperial and colonial relations using sources that range from medical texts and state documents to travel literature and fiction By studying these scientific and political debates Ure a Valerio uncovers novel ways to connect medicine migration and colonialism and provides an invigorating model for the analysis of Polish history from a global perspective **Private Lives and Collective Destinies** Benedict Schofield, 2012 Nineteenth century Germany witnessed many debates on the nature of the nation both before and after unification in 1871 Bourgeois authors engaged closely with questions of class and national identity and resourcefully sought to influence the collective destiny of the German people through works of popular

fiction and cultural history Typical of this trend was the realist writer Gustav Freytag 1816 1895 the most widely read novelist of his era Innovatively exploring all of Freytag s works poetry drama novels history journalism biography and literary theory Schofield examines how his popular writing systematically re imagined the social structures of German society embedding political agendas within contemporary stories of private lives Connecting the aesthetics of Realism with the political aims of the bourgeoisie the study both reassesses Freytag s position within the German literary canon and re evaluates received opinion on the socio political function of Realism in German culture Benedict Schofield is Lecturer in German at King s College London

Distant Readings Matt Erlin, Lynne Tatlock, 2014 Explores the concept of distant reading and its application to the analysis of nineteenth century German literature and culture drawing on a range of approaches from the emerging digital humanities field In nineteenth century Germany breakthroughs in printing technology and an increasingly literate populace led to an unprecedented print production boom that has long presented scholars with a challenge how to read it all This anthology seeks new answers to the scholarly quandary of the abundance of text Responding to Franco Moretti s call for distant reading and modeling a range of innovative approaches to literary historical analysis informed by the burgeoning field of digital humanities it asks what happens when we shift our focus from the one to the many from the work to the network The thirteen essays in this volume explore the evolving concept of distant reading and its application to the analysis of German literature and culture in the long nineteenth century The contributors consider how new digital technologies enable both the testing of hypotheses and the discovery of patterns and trends as well as how distant and traditional close reading can complement each another in hybrid models of analysis that maintain careful attention to detail but also make calculation enumeration and empirical description critical elements of interpretation Contributors Kirsten Belgum Tobias Boes Matt Erlin Fotis Jannidis and Gerhard Lauer Lutz Koepnick Todd Kontje Peter M McIsaac Katja Mellmann Nicolas Pethes Andrew Piper and Mark Algee Hewitt Allen Beye Riddell Lynne Tatlock Paul A Youngman and Ted Carmichael Matt Erlin is Professor of German and Chair of the Department of Germanic Languages and Literatures and Lynne Tatlock is Hortense and Tobias Lewin Distinguished Professor in the Humanities both at Washington University in St Louis

Germans, Poland, and Colonial Expansion to the East R. Nelson, 2009-02-02 This incisive collection probes the history of colonialism within Europe and posits that Eastern Europe was in fact Germany's true colonial empire Through a series of interdisciplinary essays ranging from 1850 to the European Union of today this collection explores the idea that Germany's relationship with Poland and Eastern Europe had many similarities to the practice of overseas colonialism As the contributing scholars aptly demonstrate the history of Germany's relationship with Poland contains all the trappings of the classic colonial encounter from its structures of power and control racism and cultural chauvinism to the implementation of wholesale scientific experimentation in a lawless environment

Ecology and German Realism Alexander Robert Phillips, 2025 Shows contrary to the traditional view that the major authors of German literary realism not only thematized environmental transformation but that it was central to their aesthetics In nineteenth century

Europe and particularly in Germany the industrial revolution led to air and water pollution urban and industrial sprawl and the physical reconstitution of natural landscapes This book investigates the relationship between environmental degradation and German Realist aesthetics challenging a longstanding argument in the scholarship that German Realism largely occluded urban and industrial realities by demonstrating that its major authors Adalbert Stifter Wilhelm Raabe Theodor Storm and Theodor Fontane not only thematized environmental matters but that environmental transformation became the very condition for their texts reflections on the aesthetic representation of reality German Realist aesthetics in this sense are thus inseparable from environmental aesthetics Environmental aesthetics in turn are inseparable from environmental politics connected as they are to problems such as the loss of individual livelihoods displacement of communities and the legal and ethical standing of animals plants and landscapes By exploring how these problems appear in the fiction of the period Alexander Phillips s book situates the literature in a longer genealogy of environmentalism and ecological aesthetics beyond Germany That genealogy includes the early twentieth century Nature Fakers debate in the United States twentieth century nature writing and contemporary ecocritical theory

Jews in Business and Their Representation in German Literature, 1827-1934 John Ward, 2010 The emancipation of Jews that commenced in Germany in the early 19th century pushed many Jews into urban commerce industries and intellectual professions The ongoing modernization and the Jewish prominence in business brought about an anti Jewish reaction Jews were seen as the incarnation of the new materialistic Zeitgeist dishonest merchants pursuing non German business practices and usurpers of economic power The Jews represented an alien unwanted economic system The backlash against the Jewish businessman was reflected in contemporary literature from Wilhelm Hauff s *Jud S* 1827 to the Nazi novel *Shylock unter Bauern* by Felix Nabor 1934 Examines the representation of the Jewish businessman in German literature in both antisemitic works and apologetic ones Two schools of thought can be discerned in these writings that the Jews including the businessmen can be corrected and assimilated into the German nation e g in Freytag s *Soll und Haben* 1855 and the racist and eliminationist conception of the Jews as unassimilable and inherently detrimental aliens who have to be removed from the body of the nation as in Wilhelm von Polenz s *Der B ttenbauer* 1895 with Heinrich Mann s anti Jewish writings somewhere in between Discusses also the ambivalent stance of Theodor Fontane Dwells on two cautionary tales written by Jewish authors and addressed to the Jews the novel *Jud S* by Feuchtwanger 1925 and the play *Jud S* by Paul Kornfeld 1929 as well as responses to antisemitism addressed to a general audience *Der neue Ahasver* by Fritz Mauthner 1881 *Ren Richter* by Lothar Brieger Wasservogel 1906 and Hermann Bahr s *Die Rotte Korahs* 1919 a philosemitic non Jewish response

Writing against Boundaries ,2021-10-18 Writing against Boundaries Nationality Ethnicity and Gender in the German speaking Context presents a series of essays by prominent scholars who critically explore the intersection of nation and subjectivity the production of national identities and the tense negotiation of multiculturalism in German speaking countries By looking at a wide spectrum of texts

that range from Richard Wagner's operas to Hans Bellmer's art and to literature by Aras ren Irene Dische Annette Kolb Elizabeth Langg sser Karin Reschke Christa Wolf to contemporary German theater by Bettina Fless Elfriede Jelinek Anna Langhoff Emine Sevgi zdamar and to Monika Treut's films the volume explores the intersection of gender ethnicity and nation and examines concepts of national culture and the foreigner or so called other Focusing on such issues as immigration xenophobia gender and sexuality the volume looks at narratives that sustain the myth of a homogeneous nation and those that disrupt it It responds to a growing concern with borders and identity in a time in which borders are tightening as the demands of globalization increase

Gustav Freytag and the Prussian Gospel Larry L. Ping, 2006 Based on author's thesis doctoral University of Oregon 1994 **The Attitude of Gustav Freytag and Julian Schmidt Toward English Literature (1848-1862)** Lawrence Marsden Price, 1915 **Germany and Eastern Europe**, 2023-08-14 The opening up and subsequent tearing down of the Berlin Wall in 1989 effectively ended a historically unique period for Europe that had drastically changed its face over a period of fifty years and redefined in all sorts of ways what was meant by East and West For Germany in particular this radical change meant much more than unification of the divided country although initially this process seemed to consume all of the country's energies and emotions While the period of the Cold War saw the emergence of a Federal Republic distinctly Western in orientation the coming down of the Iron Curtain meant that Germany's relationship with its traditional neighbours to the East and the South East which had been essentially frozen or redefined in different ways for the two German states by the Cold War had to be rediscovered This volume which brings together scholars in German Studies from the United States Germany and other European countries examines the history of the relationship between Germany and Eastern Europe and the opportunities presented by the changes of the 1990's drawing particular attention to the interaction between the willingness of German and its Eastern neighbours to work for political and economic integration on the one hand and the cultural and social problems that stem from old prejudices and unresolved disputes left over from the Second World War on the other

Respectability as Moral Map and Public Discourse in the Nineteenth Century Woodruff D. Smith, 2017-07-20 Despite the fact that respectability is universally recognized as a feature of nineteenth century society it has seldom been studied as a subject in itself In this path breaking book Woodruff D Smith interprets respectability as a highly significant cultural phenomenon incorporating both a moral imaginary or map and a distinctive discourse Respectability was constructed in the public spheres of Europe and the Americas and eventually came to be an aspect of social life throughout the world From its origins in the late eighteenth century it was a conscious response to what were perceived as undesirable aspects of modernity It became a central feature of concepts of the modern itself and an essential part of the processes that in the twentieth century came to be called modernization and cultural globalization Respectability though typically associated with the bourgeoisie existed independently of any particular social class and strongly affected modern constructions of class in general and of gender Although not an ideology respectability was overtly

embedded in several political discourses especially those of movements such as antislavery which claimed to transcend politics While it may no longer be a coherent entity in culture and discourse respectability continues to affect contemporary public life through a fragmentary legacy **Germany's Wild East** Kristin Kopp,2012-09-27 This examination of the elements of colonial relationships is new in paperback *Heroes and Heroism in German Culture* ,2021-10-18 As Brecht s Galileo observed a country which needs heroes is unfortunate indeed words which suggest that a society s need for heroes is always a function of its shortcomings By examining the role that heroes and heroism have played in German literature and culture over the past two centuries the essays in this volume illuminate and contour both a flawed German society in need of heroes and the flawed but essential heroes brought forth by that society Beginning in he era of the anti Napoleonic Wars of Liberation advancing to the challenging situation Germany faced at the end of World War II and concluding with the current reemergence of a unified Germany after almost half a century of division this volume broadens our understanding of the inadequacies and breakdowns of German society In addition to analyses of heroism in German culture during the last two centuries this volume contains the first major essays in English on cultural representations of disability in German culture and on AIDS in German literature as well as two essays on the scholarly accomplishments of Jost Hermand to whom all of the essays in the volume are dedicated German American Annals ,1913
