Solo In The New Order:

Solo in the New Order James T. Siegel, 1993-09-27 In this brilliant ethnography of contemporary Java James Siegel analyzes how language operates to organize and to order an Indonesian people. Despite the imposition of Suharto's New Order, the inhabitants of the city of Solo continue to adhere to their own complex ideas of deference and hierarchy through translation between high and low Javanese speech styles. Siegel uncovers moments when translation fails and compulsive mimicry ensues. His examination of communication and its failures also exposes the ways a culture reconstitutes itself. It leads to insights into the accidents that precede the formulations of culture as such. *The Institutional Origins of Communal Violence* Yuhki Tajima, 2014-07-28 This book develops a novel theoretical explanation for why transitions from authoritarian rule are often marked by spikes in communal violence.

Adolescents in Contemporary Indonesia Lyn Parker, Pam Nilan, 2013-07-18 The youth demographic is a large and growing cohort in Indonesia and adolescents embody the currents of social change. Throughout the twentieth century they were significant agents of social protest leading to social and political transformation. This book looks at the importance of adolescents in contemporary Indonesia and how they are spearheading not just globalisation and a growing consumer youth culture but also the Islamisation movement. The book explores both the inner worlds and social selves of Indonesian adolescents. It presents an in-depth knowledge of Indonesian society and culture in various parts of Indonesia and discusses national patterns and trends. Grounded in two field sites, the book enables an analysis of young people's local ethnic and religious identities and their commitment to the Indonesian nation-state. It goes on to look at the physical age bracket of youth, the definitions used by the Indonesian state and other agencies, and the perceptions of youth themselves about adolescence and adulthood. Providing a comprehensive study of young people in contemporary Indonesia, the book addresses gender relations, the importance of education for youth, and youth engagement with popular culture and the moral issue concerning the sexual propriety of young people. It is a useful contribution for students and academics of Asian Studies, Sociology, and Cultural Studies.

Contemporary Developments in Indonesian Islam Martin van Bruinessen, 2013 Once celebrated in the Western media as a shining example of a liberal and tolerant Islam, Indonesia since the end of the Soeharto regime in May 1998 has witnessed a variety of developments that bespeak a conservative turn in the country's Muslim politics. In this timely collection of original essays, Martin van Bruinessen, our most distinguished senior Western scholar of Indonesian Islam, and four leading Indonesian Muslim scholars explore and explain these developments. Each chapter examines recent trends from a strategic institutional perch: the Council of Indonesian Muslim scholars, the reformist Muhammadiyah, South Sulawesi's Committee for the Implementation of Islamic Shari'a, and radical Islamism in Solo. With van Bruinessen's brilliantly synthetic introduction and conclusion, these essays shed a bright light on what Indonesian Muslim politics was and where it seems to be going. The analysis is complex and by no means uniformly dire. For readers interested in Indonesian Muslim politics and for analysts interested in the dialectical interplay of

progressive and conservative Islam this book is fascinating and essential reading Robert Hefner Director Institute on Culture Religion and World Affairs Boston University *Solo* Frank Cyril Davison,1924 Producing Indonesia Eric Tagliacozzo,2014-02-26 The 26 scholars contributing to this volume have helped shape the field of Indonesian studies over the last three decades They represent a broad geographic background Indonesia the Netherlands the United Kingdom Australia the United States Canada and have studied in a wide array of key disciplines anthropology history linguistics and literature government and politics art history and ethnomusicology Together they reflect on the arc of our field the development of Indonesian studies over recent tumultuous decades They consider what has been achieved and what still needs to be accomplished as they interpret the groundbreaking works of their predecessors and colleagues This volume is the product of a lively conference sponsored by Cornell University with contributions revised following those interactions Not everyone sees the development of Indonesian studies in the same way Yet one senses and this collection confirms that disagreements among its practitioners have fostered a vibrant resilient intellectual community Contributors discuss photography and the creation of identity the power of ethnic pop music cross border influences on Indonesian contemporary art violence in the margins and the shadows inherent in Indonesian literature These various perspectives illuminate a diverse nation in flux and provide direction for its future exploration A Galaxy of Things Colette Searls,2023-06-28 A Galaxy of Things explores the ways in which all puppets masks makeup prosthetic figures are material characters using iconic Star Wars characters like Yoda and R2 D2 to illustrate what makes them so compelling As an epic franchise Star Wars has been defined by creatures droids and masked figures since the original 1977 movie Author Colette Searls a theatre director and expert in puppetry studies uncovers how non humans like Chewbacca semi humans like Darth Maul and even concealed humans like Boba Fett tell meaningful stories that conventional human characters cannot Searls defines three powers that puppets masked figures and other material characters wield distance distillation and duality and analyzes Star Wars most iconic robots and aliens to demonstrate how they work across nearly a half century of live action films Yoda and Baby Yoda two of popular culture s greatest puppets use these qualities to transform their human companions Similarly Darth Vader s mask functions as a performing object driving mystery and suspense across three film trilogies The power of material characters has also been wielded in problematic ways such as stereotypes in the representation of service droids and controversial creatures like Jar Jar Binks Bringing readers forward into the first Star Wars live action streaming series the book also explores how the early 2020s stories centered material characters in particularly meaningful often redemptive ways A Galaxy of Things is an accessible guide to puppets masks and other material characters for students and scholars of theatre film puppetry and popular culture studies It also offers useful perspectives on non human representation for researchers in object oriented ontology posthumanism ethnic studies and material culture Thom Yorke - Radiohead & Trading Solo Trevor Baker,2009-02-26 Radiohead is a band with few peers acclaimed multi platinum selling globe trotting
