through the often controversial ideas of the consumer society's most influential theorists Jean Baudrillard and Zygmunt Bauman this book assesses the ways in which consumerism is reshaping the nature and meaning of the city It examines the nature of consumption and its increasing centrality to post modern society by considering the development of consumerism as a central facet of social life demonstrating that social inequalities are increasingly structured around consumption uncovering the hidden consequences of consumerism pondering the meaning of lifestyle revealing how the nature of reality is changing in an age of globalization Employing a sustained and engaging theoretical analysis the book ranges across a variety of sometimes unexpected topics It represents an impassioned plea for everyone interested in the social life of cities to take the notion of the consumer society and the arguments of its major theorists seriously **The Therapist's Answer Book**

Jerome S. Blackman, 2012-11-27 Therapists inevitably feel more gratified in their work when their cases have better treatment outcomes This book is designed to help them achieve that by providing practical solutions to problems that arise in psychotherapy such as Do depressed people need an antidepressant or psychotherapy alone How do you handle people who want to be your friend who touch you who won't leave your office or who break boundaries How do you prevent people from quitting treatment prematurely Suppose you don't like the person who consults you What if people you treat with CBT don't do their homework When do you explain defense mechanisms and when do you use supportive approaches Award winning professor Jerome Blackman answers these and many other tricky problems for psychotherapists Dr Blackman punctuates his lively text with tips and snippets of various theories that apply to psychotherapy He shares his advice and illustrates his successes and failures in diagnosis treatment and supervision He highlights fundamental fascinating and perplexing problems he has encountered over decades of practicing and supervising therapy *Green White Green* Lanre

Badmus, 2012-10-16 A Piece of Perfect Poetry Lucid lines laced with beauty that makes you want to ask for more **The Parallax View** Slavoj Zizek, 2009-02-13 In i ek's long awaited magnum opus he theorizes the parallax gap in the ontological the scientific and the political and rehabilitates dialectical materialism The Parallax View is Slavoj i ek's most substantial theoretical work to appear in many years i ek himself describes it as his magnum opus Parallax can be defined as the apparent displacement of an object caused by a change in observational position i ek is interested in the parallax gap separating two points between which no synthesis or mediation is possible linked by an impossible short circuit of levels that can never meet From this consideration of parallax i ek begins a rehabilitation of dialectical materialism Modes of parallax can be seen in different domains of today's theory from the wave particle duality in quantum physics to the parallax of the unconscious in Freudian psychoanalysis between interpretations of the formation of the unconscious and theories of drives In The Parallax View i ek with his usual astonishing erudition focuses on three main modes of parallax the ontological difference the ultimate parallax that conditions our very access to reality the scientific parallax the irreducible gap between the phenomenal experience of reality and its scientific explanation which reaches its apogee in today's brain sciences according

to which nobody is home in the skull just stacks of brain meat a condition i ek calls the unbearable lightness of being no one and the political parallax the social antagonism that allows for no common ground Between his discussions of these three modes i ek offers interludes that deal with more specific topics including an ethical act in a novel by Henry James and anti anti Semitism The Parallax View not only expands i ek s Lacanian Hegelian approach to new domains notably cognitive brain sciences but also provides the systematic exposition of the conceptual framework that underlies his entire work Philosophical and theological analysis detailed readings of literature cinema and music coexist with lively anecdotes and obscene jokes
