Semi-centennial Celebration of the Founding of the New Jersey Historical Society, at Newark, N. J., May 16, 1895 New Jersey Historical Society,1900 Handbook of the Linguistic Atlas of the Middle and South Atlantic States William A. Kretzschmar,William A. Kretzschmar Jr.,1993-09-15 Who uses skeeter hawk snake doctor and dragonfly to refer to the same insect Who says gum band instead of rubber band The answers can be found in the Linguistic Atlas of the Middle and South Atlantic States LAMSAS the largest single survey of regional and social differences in spoken American English It covers the region from New York state to northern Florida and from the coastline to the borders of Ohio and Kentucky Through interviews with nearly twelve hundred people conducted during the 1930s and 1940s the LAMSAS mapped regional variations in vocabulary grammar and pronunciation at a time when population movements were more limited than they are today thus providing a unique look at the correspondence of language and settlement patterns This handbook is an essential guide to the LAMSAS project laying out its history and describing its scope and methodology In addition the handbook reveals biographical information about the informants and social histories of the communities in which they lived including primary settlement areas of the original colonies Dialectologists will rely on it for understanding the LAMSAS and historians will find it valuable for its original historical research Since much of the LAMSAS questionnaire concerns rural terms the data collected from the interviews can pinpoint such language differences as those between areas of plantation and small farm agriculture For example LAMSAS reveals that two waves of settlement through the Appalachians created two distinct speech types Settlers coming into Georgia and other parts of the Upper South through the Shenandoah Valley and on to the western side of the mountain range had a Pennsylvania influenced dialect and were typically small farmers Those who settled the Deep South in the rich lowlands and plateaus tended to be plantation farmers from Virginia and the Carolinas who retained the vocabulary and speech patterns of coastal areas With these revealing findings the LAMSAS represents a benchmark study of the English language and this handbook is an indispensable guide to its riches

Shinn and Kevin Cook with the Camden County Historical Society,2015 Journey through South Jersey towns and villages along the Cooper River and their unique role in the long and rich history of the area The Cooper River is a meandering tributary of the Delaware River in Camden County with a rich cultural heritage Along the Cooper River English Quakers found safe haven from religious persecution in Colonial times and General Washington's soldiers fought for control

of Cooper's Ferry during the American Revolution. The river was ideal for industry in Camden where many immigrants worked in the factories along its banks. From 1925 to 1928, landscape architect Charles Leavitt Jr. designed the plans for the 550-acre Cooper River Park. From 1935 to 1939, Roosevelt's Works Progress Administration carried out the plans to create open, gently sloping landscapes and wooded areas for recreation by dredging meadows and tidal wetlands. Along the Cooper River, Camden to Haddonfield focuses on the communities of Camden, Pennsauken, Cherry Hill, Collingswood, Haddon Township, and Haddonfield and how each of them has played a unique role in the long and rich history of the river and its evolution into a nationally significant recreational area.
