Incest Novels from the 1990s Marinella Rodi-Risberg, 2022-03-24 This book explores the intersections of sexualized gendered and racialized traumas in five US novels about father daughter incest from the 1990s It examines how incest can be connected to wider past and present structural oppression and institutional abuse and what fiction looks like that testifies against and references a historical background of slavery poverty settler colonialism annexation and immigration Investigating the means of resistance used against attempts at silencing and denial in these texts the book also shows how contemporary women s novels can propose social change Overall this study uniquely argues that the individual trauma of incest in these texts must be understood in relation to histories of and present collective wounding against marginalized communities By sitting at the intersections between trauma theory and US third world feminism it allows for theory to meet literary activism *Catalog of Copyright Entries.
