Spence,1996 It is 1837 when Hong ascends to Heaven While there he is charged by God his Heavenly Father attired in black dragon robe and high brimmed hat his mouth almost hidden by his luxuriant golden beard to slay the demon devils who are leading the people on earth astray Their leader is Yan Luo king of hell the Dragon Demon of the Eastern Sea Hong does battle in Heaven armed by his father with sword and seal aided by his elder brother Jesus Returned to his home village in south China he resolves to carry on the struggle against the evil polluting humanity He knows himself to be the younger brother of Jesus Christ God s Chinese son The Taiping uprising led by Hong Xiuquan was a massive millennial movement that in its violent rise and fall between 1845 and 1864 cost at least twenty million Chinese their lives In the course of this struggle the Taiping succeeded in overturning the authority of the ruling Qing dynasty throughout a massive territory in southern China This the Taiping ruled as their Heavenly Kingdom from their seat in Nanjing for eleven years until they were overcome in an apocalypse wrought by Qing and Western forces the Book of Revelation become history In this master work of the historian s art Jonathan Spence creates a history of intimate detail and grand scale We enter the fevered dream world of Hong Xiuquan as he meets his Heavenly family we see the torments awaiting earthly sinners in King Yan Luo s hell we feel the anxieties of Westerners living circumscribed lives on the edges of a China they do not understand This is a China of vast instability ruled by a dynasty in decline beset by pirates and bandits in areas beyond the government s reach pressed by Western traders to embrace

Weapons in Space Aaron Bateman,2024-05-07 A new and provocative take on the formerly classified history of accelerating superpower military competition in space in the late Cold War and beyond In March 1983 President Ronald Reagan shocked the world when he established the Strategic Defense Initiative SDI derisively known as Star Wars a space based missile defense program that aimed to protect the US from nuclear attack In *Weapons in Space* Aaron Bateman draws from recently declassified American European and Soviet documents to give an insightful account of SDI situating it within a new phase in the militarization of space after the superpower d tente fell apart in the 1970s In doing so Bateman reveals the largely secret role of military space technologies in late Cold War US defense strategy and foreign relations In contrast to existing narratives *Weapons in Space* shows how tension over the role of military space technologies in American statecraft was a central source of SDI s controversy even more so than questions of technical feasibility By detailing the participation of Western European countries in SDI research and development Bateman reframes space militarization in the 1970s and 1980s as an international phenomenon He further reveals that even though SDI did not come to fruition it obstructed diplomatic efforts to create new arms control limits in space Consequently *Weapons in Space* carries the legacy of SDI into the post Cold War era and shows how this controversial program continues to shape the global discourse about instability in space and the growing anxieties about a twenty first century space arms race
