Committee on Agriculture and Forestry,1975 My Father's List Laura Carney,2023-06-13 Fifty four adventures in six years That s what thirty eight year old journalist Laura Carney embarked on when she discovered her late father Mick s bucket list Killed in a car crash when Laura was twenty five Mick seemed lost forever My Father s List is the story of how one woman with the help of family friends and even strangers found the courage to go after her own dreams after realizing those of a beloved yet mysterious man This is a story about secrets and the freedom we feel when we learn to trust again in life in love and in a father s lessons on how to fully live Blitz Kids Ferrin Tres,2012-02-01 In the 1940s before March Madness the frenzy of the NBA draft and multi million dollar professional contracts college basketball players played simply because they loved the game This is the story of a group of kids who loved to play basketball the underdog 1943 44 University of Utah men s basketball team and their unlikely path to the NCAA championship who came out of nowhere to upset heavily favored Dartmouth for the title *Filming in European Cities* Ipek A. Celik Rappas,2025-03-15 *Filming in European Cities* explores the effort behind creating screen production locations Ipek A Celik Rappas accounts the rising demand for original and affordable locations for screen projects due to the growth of streaming platforms As a result screen professionals are repeatedly tasked with chores such as transforming a former factory in Istanbul to resemble a war zone in Aleppo or finding a London street that evokes Barcelona Celik Rappas highlights the pivotal role crew members play in transforming cities and locations into functional screen settings Examining five European media capitals Athens Belfast Berlin Istanbul and Paris the book delves into the overlooked aspects of location related screen labor and its ability to generate production value *Filming in European Cities* demonstrates that in its perpetual quest for authentic filming locations the screen industry extracts value from cities and neighborhoods their marginalized residents and screen labor enriching itself through this triple exploitation **Breach of Faith** Jed Horne,2008-07-15 Hurricane Katrina shredded one of the great cities of the South and as levees failed and the federal relief effort proved lethally incompetent a natural disaster became a man made catastrophe As an editor of New Orleans daily newspaper the Pulitzer Prize winning Times Picayune Jed Horne has had a front row seat to the unfolding drama of the city s collapse into chaos and its continuing struggle to survive As the Big One bore down New Orleanians rich and poor black and white lurched from giddy revelry to mandatory evacuation The thousands who couldn t or wouldn t leave initially congratulated themselves on once again riding out the storm But then the unimaginable happened Within a day 80 percent of the city was under water The rising tides chased horrified men and women into snake filled attics and onto the roofs of their houses Heroes in swamp boats and helicopters braved wind and storm surge to bring survivors to dry ground Mansions and shacks alike were swept away and then a tidal wave of

lawlessness inundated the Big Easy Screams and gunshots echoed through the blacked out Superdome Police threw away their badges and joined in the looting Corpses drifted in the streets for days and buildings marinated for weeks in a witches brew of toxic chemicals that when the floodwaters finally were pumped out had turned vast reaches of the city into a ghost town Horne takes readers into the private worlds and inner thoughts of storm victims from all walks of life to weave a tapestry as intricate and vivid as the city itself Politicians thieves nurses urban visionaries grieving mothers entrepreneurs with an eye for quick profit at public expense all of these lives collide in a chronicle that is harrowing angry and often slyly ironic Even before stranded survivors had been plucked from their roofs government officials embarked on a vicious blame game that further snarled the relief operation and bedeviled scientists striving to understand the massive levee failures and build New Orleans a foolproof flood defense As Horne makes clear this shameless politicization set the tone for the ongoing reconstruction effort which has been haunted by racial and class tensions from the start Katrina was a catastrophe deeply rooted in the politics and culture of the city that care forgot and of a nation that forgot to care In Breach of Faith Jed Horne has created a spellbinding epic of one of the worst disasters of our time **The Offshore Imperative** Tyler Priest,2007

After World War II the discovery and production of onshore oil in the United States faced decline As a result offshore prospects in the Gulf of Mexico took on new strategic value Shell Oil Company pioneered many of the early moves offshore and continues to lead the way into deepwater Tyler Priest s study is the first time the modern history of Shell Oil has been told in any detail Drawing on interviews with Shell retirees and many other sources Priest relates how the imagination talent and hard work of personnel at all levels shaped the evolution of the company The narrative also covers important aspects of Shell Oil s corporate evolution but the company s pioneering steps into the deepwater fields of the Gulf of Mexico are its signature achievement Priest s study demonstrates that engineers did not suddenly create methods for finding and producing oil and gas from astounding water depths Rather they built on a half century of accumulated knowledge and improvements to technical systems Shell Oil s story is unique but it also illuminates the modern history of the petroleum industry As Priest demonstrates this company s experiences offer a starting point for examining the understudied topics of strategic decision making scientific research management of technology and corporate organization and culture within modern oil companies as well as how these activities applied to offshore development
