Ready to Lead Brian Taylor, Chris Johnson, 2022-12-27 There is an ongoing narrative that has often been taken as truth in the Body of Christ Black people will follow a White pastor but White people will never follow a Black pastor This book acknowledges the history from which this narrative came while looking to push a new narrative where the whole Body of Christ can benefit from the gift of Black leadership Many books have asked How do we see diversity in the pews But this book looks to see diversity in the pulpits and leadership rooms of these churches

Slave Religion Albert J. Raboteau, 1980

The Burden of Black Religion Curtis J. Evans, 2008-04-17 Religion has always been a focal element in the long and tortured history of American ideas about race In *The Burden of Black Religion* Curtis Evans traces ideas about African American religion from the antebellum period to the middle of the twentieth century Central to the story he argues was the deep rooted notion that blacks were somehow naturally religious At first this assumed natural impulse toward religion served as a signal trait of black people s humanity potentially their unique contribution to American culture Abolitionists seized on this point linking black religion to the black capacity for freedom Soon however these first halting steps toward a multiracial democracy were reversed As Americans began to value reason rationality and science over religious piety the idea of an innate black religiosity was used to justify preserving the inequalities of the status quo Later social scientists both black and white sought to reverse the damage caused by these racist ideas and in the process proved that blacks were in fact fully capable of incorporation into white American culture This important work reveals how interpretations of black religion played a crucial role in shaping broader views of African Americans and had real consequences in their lives In the process Evans offers an intellectual and cultural history of race in a crucial period of American history

Then We'll Sing a New Song Mary Ann Clark, 2012 This book examines how three African kingdoms that were involved in the slave trade specifically shaped religion in America and how they may have had an influence on contemporary American beliefs and culture

A New Dawn in Beloved Community Linda Lee, Abena Safiyah Fosua, 2013

These stories and readers stories together build a new community *The New Pilgrims* Joseph Castleberry,2025-04-08 We often assume America needs to help immigrants but in *The New Pilgrims* Joseph Castleberry opens our eyes to how the opposite is true and how we can join in one of the greatest spiritual movements this country has ever seen In the midst of an apparent religious decline in the United States many Americans are looking for solutions to this dilemma Our hope lies with Christian immigrants who bring to our churches powerful testimonies of faith from cultures all over the world As the new pilgrims settle into their lives here they are taking the American church by storm and helping rebuild America s conservative foundations It s time to acknowledge this exciting time of spiritual renewal and embrace the political and relational choices that will once again establish America as the shining city on a hill we all want it to be New Directions in Slavery Studies Jeff Forret,Christine E. Sears,2015-11-16 In this landmark essay collection twelve contributors chart the contours of current scholarship in the field of slavery studies highlighting three of the discipline s major themes commodification community and comparison and indicating paths for future inquiry *New Directions in Slavery Studies* addresses the various ways in which the institution of slavery reduced human beings to a form of property From the coastwise domestic slave trade in international context to the practice of slave mortgaging to the issuing of insurance policies on slaves several essays reveal how southern whites treated slaves as a form of capital to be transferred or protected An additional piece in this section contemplates the historian s role in translating the fraught history of slavery into film Other essays examine the idea of the slave community an increasingly embattled concept born of revisionist scholarship in the 1970s This section s contributors examine the process of community formation for black foreigners the crucial role of violence in the negotiation of slaves sense of community and the effect of the Civil War on slave society A final essay asks readers to reassess the long standing revisionist emphasis on slave agency and the ideological burdens it carries with it Essays in the final section discuss scholarship on comparative slavery contrasting American slavery with similar less restrictive practices in Brazil and North Africa One essay negotiates a complicated tripartite comparison of secession in the United States Brazil and Cuba while another uncovers subtle differences in slavery in separate regions of the American South demonstrating that comparative slavery studies need not be transnational *New Directions in Slavery Studies* provides new examinations of the lives and histories of enslaved people in the United States **Hog and Hominy** Frederick Douglass Opie,2010-06-04 An examination of the culinary origins of African American soul food finds the unique cuisine rooted in the American South is a mix of European Asian African and Amerindian food cultures **Slave Culture** Spencer R. From This Soil Thomas S. Bremer,2014-12-03 Formed from This Soil offers a complete history of religion in America that centers on the diversity of sacred traditions and practices that have existed in the country from its earliest days Organized chronologically starting with the earliest Europeans searching for new routes to Asia through to the global context of post 9 11 America of the 21st century Includes discussion of race ethnicity gender sexual orientation socio economic class political affiliations and other elements of individual and collective identity Incorporates recent scholarship for a nuanced history that goes beyond simple explanations of America as a Protestant society Discusses diverse beliefs and practices that originated in the Americas as well as those that came from Europe Asia and Africa Pedagogical features include numerous visual images sidebars with specialized topics and interpretive themes discussion questions for each chapter a glossary of common terms and lists of relevant resources to broaden student learning *Southern History across the Color Line* Nell Irvin

Painter,2013-06-01 The color line once all too solid in southern public life still exists in the study of southern history As distinguished historian Nell Irvin Painter notes historians often still write about the South as though people of different races occupied entirely different spheres In truth although blacks and whites were expected to remain in their assigned places in the southern social hierarchy throughout the nineteenth and much of the twentieth century their lives were thoroughly entangled In this powerful collection Painter reaches across the color line to examine how race gender class and individual subjectivity shaped the lives of black and white women and men in the nineteenth and twentieth century South Through six essays she explores such themes as interracial sex white supremacy and the physical and psychological violence of slavery using insights gleaned from psychology and feminist social science as well as social cultural and intellectual history At once pioneering and reflective the book illustrates both the breadth of Painter s interests and the originality of her intellectual contributions It will inspire and guide a new generation of historians who take her goal of transcending the color bar as their own **In Search of the New Testament Church** C. Douglas Weaver,2008 When John Smyth organized the first Baptist church he wanted to establish the New Testament church believer s baptism was the missing link Baptists of subsequent eras often continued the search to embody New Testament Christianity Unique to surveys of Baptist life Doug Weaver highlights this restorationist theme as a way to understand Baptist identity Weaver does not force the theme but the search is ever present It is found in the insistence upon believer s baptism but also in examples like the Sabbath worship of Seventh Day Baptists the nine rites of colonial Separate Baptists the women preachers of Free Will Baptists the trail of blood of

Landmarkism the social gospel of Walter Rauschenbusch the fundamentals of fundamentalism and the ministry of the European pioneer Johann Oncken Like other recent Baptist studies Weaver describes Baptist diversity Still he highlights the persistent commitment of most Baptists to an informal constellation of Baptist distinctives Alongside the quest for the New Testament church and congregational community Weaver especially highlights the Baptist commitment to religious liberty and the individual conscience This emphasis while later reinforced by Enlightenment ideals could already be found in the biblicist piety of the earliest Baptists who insisted that individual believers must have the right to choose their religious beliefs because they would stand alone before God at the final judgment Both chronological and thematic this book addresses such themes as the role of women the social gospel ecumenism charismatic influences and theological emphases in Baptist life The book's focus is America but it also includes helpful introductory chapters on early English Baptists and international Baptists

Upon these Shores William R. Scott, William G. Shade, 2013-10-31 This one volume comprehensive overview of African American history brings together original essays by some of the foremost authorities in the field Arranged both thematically and chronologically these papers discuss a wide range of topics from the Middle Passage to the Civil Rights Movement from abolition to the Great Migration from issues in religion class and family to literature education and politics

New Directions in American Religious History Harry S. Stout, D. G. Hart, 1998-01-01 The eighteen essays collected in this book had their origin in a conference of the same title held at the Wingspread Conference Center in October of 1993 Some of the most distinguished scholars in the field were invited to reflect on their specialties in American religious history in ways that summarized where the field is and where it ought to move in the decades to come Organized according to four general ways of looking at religious history places and regions universal themes transformative events and marginal groups and ethno cultural outsiders the essays address a wide range of topics including Puritanism religion and the Civil War Protestantism and economic behavior gender and sexuality in American Protestantism and the contemporary de Christianization of American culture Featuring contributions from David D Hall Donald G Matthews Allen C Guelzo Gordon S Wood Daniel Walker Howe Robert Wuthnow Jon Butler David A Hollinger and others this thought provoking and up to date collection will interest anyone involved in the study of American religion and history

Cut Loose Your Stammering Tongue Dwight N. Hopkins, George C. L. Cummings, 2003-01-01 Drawing on slave narratives found in forty one volumes of interviews and one hundred autobiographies by former slaves these contributors explore how enslaved African Americans received the often oppressive faith of their masters but transformed it into a gospel of liberation This classic work demonstrates how an authentic black theology of liberation today must listen to the divine spirit that once fed and continues to feed the black religious experience This second edition includes three additional provocative essays

A Mighty Baptism Susan Juster, Lisa MacFarlane, 1996 Follows the influences of race and gender on the Protestant tradition in America from the late eighteenth to the early twentieth century
