Working on Rights Anna Delius, 2023-11-20 This book is the first to connect global labor history and the history of human

rights By focusing on democratic labor oppositions in Spain and Poland between 1960 and 1990 it shows how workers in authoritarian regimes addressed repression and whether they developed a language of rights in the light of a globally dynamic human rights discourse The study argues that the democratic labor oppositions in Spain and Poland were both variants of emancipatory and democracy oriented social movements with global interconnections that emerged in the 1960s It reveals that the demands for free and independent trade unions which in both countries became a flashpoint in the fight for broader democratic demands was not always discussed in rights terms but rather presented as an inevitable necessity At the same time these labor movements and their intellectual allies morally delegitimized state repression against workers and thereby employed the concepts of democracy participation solidarity progress and eventually rights Integrating the history of two European semi peripheric societies into a broader narrative this book is relevant for readers interested in global labor history human rights history and the history of democratization in Europe in the late twentieth century

**Return to the NEP** Oscar J. Bandelin, 2002-12-30 No scholar denies Mikhail S Gorbachev s role in developing a new approach to Soviet socialism but most writers emphasize the radical departure from traditional Soviet ideology that perestroika seemed to represent This work presents perestroika as part of the continuum of European intellectual history It examines the sources of Gorbachev s thinking and action in 19th century thought the development of Russian Marxism through the intellectual crisis at the turn of the 20th century the pragmatic and philosophical challenges to the Marxist Leninist paradigm Stalinism and its critics and reform Communism in post World War II Eastern Europe Against this background the book argues that the decline and fall of Soviet Communism was much more deeply connected with ideological issues than most scholars have realized Bandelin presents fresh analyses of the impacts of major works and ideas such as Lenin s Materialism and Empirio Criticism the neglected Marxian concept of the Asiatic mode of production and the underlying relationship of East European reform Communism to perestroika He analyzes the major intellectual trends of perestroika in terms of these and other currents This study offers a perspective that challenges most of current scholarship on the issues it raises suggests new

avenues for research and contributes to a broader overall understanding of the problems of Soviet socialism and Gorbachev's effort to solve them

**No End in Sight** Anna Krakus, 2018-07-10

No End in Sight offers a critical analysis of Polish cinema and literature during the transformative late Socialist period of the 1970s and 1980s. Anna Krakus details how conceptions of time, permanence, and endings shaped major Polish artistic works. She further demonstrates how film and literature played a major role in shaping political consciousness during this highly charged era. Despite being controlled by an authoritarian state and the doctrine of socialism, artists were able to portray the unsettled nature of the political and psychological climate of the period and an undetermined future. In analyzing films by Andrzej Wajda, Krzysztof Kieslowski, Krzysztof Zanussi, Wojciech Has, and Tadeusz Konwicki alongside Konwicki's literary production, Anna Krakus identifies their shared penchant to defer or completely eschew narrative closure, whether in plot, theme, or style. Krakus calls this artistic tendency aesthetic unfinalizability. As she reveals, aesthetic unfinalizability was far more than an occasional artistic preference or a passing trend; it was a radical counterpolitical act. The obsession with historical teleology saturated Polish public life during socialism to such a degree that instances of nonclosure or ambivalent endings emerged as polemical responses to official ideology.
