

Kemper's Theory

- ◆ 3 types of emotions:
 - Structural – characteristic of a relationship based on status and power dimensions
 - Situational – result from changes in status and power as a result of interaction
 - Anticipatory – from the contemplation of future interaction

Social Interactional Theory Of Emotions

Andrea Scarantino

Social Interactional Theory Of Emotions:

A Social Interactional Theory of Emotions Theodore D. Kemper, 1978 **Symbolic Interactionism as Affect Control** Neil Joseph MacKinnon, 1994-01-01 A treatment of affect control theory which holds that people try to manage their experiences so that their immediate feelings about people actions and settings affirm long term sentiments Includes the first propositional formulations of the theory traces its roots to other social psychological issues and interprets the complex quantitative model and empirical materials without resorting to mathematical or statistical discourse Of interest to readers in any of the social sciences Annotation copyright by Book News Inc Portland OR Emotion Theory: The Routledge Comprehensive Guide Andrea Scarantino, 2024-07-23 Emotion Theory The Routledge Comprehensive Guide is the first interdisciplinary reference resource which authoritatively takes stock of the progress made both in the philosophy of emotions and in affective science from Ancient Greece to today A two volume landmark publication it provides an overview of emotion theory unrivaled in terms of its comprehensiveness accessibility and systematicity Comprising 62 chapters by 101 leading emotion theorists in philosophy classics psychology biology psychiatry neuroscience and sociology the collection is organized as follows Volume I Part I History of Emotion Theory 10 chapters Part II Contemporary Theories of Emotions 10 chapters Part III The Elements of Emotion Theory 7 chapters Volume II Part IV Nature and Functions of 35 Specific Emotions 22 chapters Part V Challenges Facing Emotion Theory 13 chapters Special Elicitors of Emotions Emotions and Their Relations to Other Elements of Mental Architecture Emotions in Children Animals and Groups Normative Aspects of Emotions Most of the major themes of contemporary emotion theory are covered in their historical philosophical and scientific dimensions This collection will be essential reading for students and researchers in philosophy psychology neuroscience sociology anthropology political science and history for decades to come *Handbook of the Sociology of Emotions* Jan Stets, Jonathan H. Turner, 2007-02-25 For almost thirty years sociologists have increasingly theorized about and conducted research on human emotions Surprisingly it was not until the 1970s that the sociology of emotions emerged as a coherent field of inquiry What makes this late date surprising is that it is now obvious that human behavior interaction and organization are driven by emotions It was an immense oversight for emotions to be de emphasized in sociological theorizing and research for most of its 175 year history Since the 1970s however the study of emotions has accelerated and is now at the forefront of sociological analysis This book is designed to bring the reader up to date on the theory and research traditions that have proliferated in the analysis of human emotions Key figures who have carried the sociology of emotions to its current level of prominence review their own work and the work of others who have made contributions to a particular approach to the study of emotions The outcome is a comprehensive book that serves as a primer on the cutting edge of sociological work in what is obviously a key dynamic in human affairs The first section of the book addresses the range of emotions and how they can be classified the neurological underpinnings of emotions and the effect of gender on emotions

The second section reviews the prominent sociological theories of emotions including theories emphasizing power and status rituals identity and self psychoanalytic dynamics exchange expectation states and evolution While there is little integration among these theories this state of affairs will not last forever The third section addresses theory and research on specific emotions such as love jealousy and envy empathy sympathy anger grief and the moral emotions While this list does not exhaust the range of human feeling they are central emotions that drive human behavior interaction and social organization The last section explores how the study of emotions has added new insight into other subfields within sociology such as the study of the workplace health and social movements These chapters illustrate how the sociology of emotions can provide new research and theory for the large numbers of specialties within sociology Although no book can completely cover a field even a relatively new one like the sociology of emotions this Handbook of the Sociology of Emotions comes close to being comprehensive The reader will come away with a greater appreciation for how far the sociology of emotions has developed and prospered over the last thirty years

Interpersonal Communication Richard West, Lynn H. Turner, 2019-01-02 Now published by SAGE Interpersonal Communication Fourth Edition empowers students to become more confident communicators by providing them with both the knowledge and the practical skills they need to make effective communication choices in today's rapidly changing and technologically advanced society Rather than telling students how to communicate authors Richard L West and Lynn H Turner offer a toolbox of key skills so students can actively choose and experiment with strategies appropriate for a given situation Filled with realistic examples and scenarios that reflect the diversity and interactions of today's students this practical text makes clear connections among theory skills and the life situations we all encounter on a daily basis A Complete Teaching Learning Package SAGE Premium Video Included in the interactive eBook SAGE Premium Video tools and resources boost comprehension and bolster analysis Interactive eBook Includes access to SAGE Premium Video multimedia tools and much more Save when you bundle the interactive eBook with the new edition Order using bundle ISBN 9781544365657 SAGE coursepacks FREE Easily import our quality instructor and student resource content into your school's learning management system LMS and save time SAGE edge FREE online resources for students that make learning easier

Black Women's Portrayals on Reality Television Donnetrice C. Allison, 2016-01-14 This book critically analyzes the portrayals of Black women in current reality television Audiences are presented with a multitude of images of Black women fighting arguing and cursing at one another in this manufactured world of reality television This perpetuation of negative insidious racial and gender stereotypes influences how the U S views Black women This stereotyping disrupts the process in which people are able to appreciate cultural and gender difference Instead of celebrating the diverse symbols and meaning making that accompanies Black women's discourse and identities reality television scripts an artificial or plastic image of Black women that reinforces extant stereotypes This collection's contributors seek to uncover examples in reality television shows where instantiations of Black women's gendered racial and

cultural difference is signified and made sinister Emotions in Late Modernity Roger Patulny, Alberto Bellocchi, Rebecca Olson, Sukhmani Khorana, Jordan McKenzie, Michelle Peterie, 2019-01-31 This international collection discusses how the individualised reflexive late modern era has changed the way we experience and act on our emotions Divided into four sections that include studies ranging across multiple continents and centuries Emotions in Late Modernity does the following Demonstrates an increased awareness and experience of emotional complexity in late modernity by challenging the legal emotional rational divide positive negative concepts of emotional valence sociological philosophical psychological divisions around emotion morality and gender and traditional understandings of love and loneliness Reveals tension between collectivised and individualised privatised emotions in investigating emotional sharing and individualised responsibility for anger crimes in courtrooms and the generation of emotional energy and achievement emotions in classrooms Debates the increasing mediation of emotions by contrasting their historical mediation through texts and bodies with contemporary digital mediation of emotions in classroom teaching collective mobilisations e g riots and film and documentary representations Demonstrates reflexive micro and macro management of emotions with examinations of the politics of fear around asylum seeking and religious subjects and collective commitment to climate change mitigation The first collection to investigate the changing nature of emotional experience in contemporary times Emotions in Late Modernity will appeal to students and researchers interested in fields such as sociology of emotions cultural studies political science and psychology Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Behavior and Personality** Walter W. Staats, PhD, 1996-09-03 In this capstone work Arthur Staats synthesizes more than four decades of research theory and study into a new generation of behaviorism that offers insights and future directions for researchers professionals and students Staats s unified theory of psychological behaviorism builds on current theories in child development personality psychological measurement and abnormal behavior His theoretical model provides new ways to consider human behavior as a whole that will have implications for research theory and practice *Status, Power and Ritual Interaction* Theodore D. Kemper, 2016-04-01 Sociologists mile Durkheim Erving Goffman and Randall Collins broadly suppose that ritual is foundational for social life By contrast this book argues that ritual is merely surface beneath which lie status and power the behavioral dimensions that drive all social interaction Status Power and Ritual Interaction identifies status and power as the twin forces that structure social relations determine emotions and link individuals to the reference groups that deliver culture and administer preferences actions beliefs and ideas An especially important contention is that allegiance to ideas even those as fundamental as the belief that 1 1 2 is primarily faithfulness to the reference groups that foster the ideas and not to the ideas themselves This triggers the counter intuitive deduction that the self a concept many sociologists social psychologists and therapists prize so highly is feckless and irrelevant Status power theory leads also to derivations about

motivation play humor sacred symbols social bonding creative thought love and sex and other social involvements now either obscure or misunderstood Engaging with Durkheim on collective effervescence Goffman on ritual cum public order and Collins on interaction ritual this book is richly illustrated with instances of how to examine many central questions about society and social interaction from the status power perspective It speaks not only to sociologists but also to anthropologists behavioral economists and social and clinical psychologists to all disciplines that examine or treat of social life Historical Developments and Theoretical Approaches in Sociology - Volume I Charles Crothers ,2010-11-30 Historical Developments and Theoretical Approaches in Sociology in two volumes is a component of Encyclopedia of Social Sciences and Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty Encyclopedias Sociology is one of several social science disciplines and smaller bodies of knowledge which seeks to understand the patterns in social life There is a broad congruence between the objective configurations of social life and the components of the disciplines studying them the body of sociological knowledge is socially constructed and the pathways to its gaining of knowledge influenced by a variety of factors Moreover since social life is ever changing sociology often has to scramble to catch up with the changing social world This work is built up around four broad topics the first providing important shared contextual material and then followed by three broad levels of social analysis with each of these four parts containing a number of chapters with more specific and in depth information The theme essay provides a general introduction and overview of the theme as a whole In total the work holds 40 contributions written by a selection of many international renowned specialists from 12 countries It was important to obtain a wide range of viewpoints giving the ways in which social issues arise quite differently in a range of countries These two volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers NGOs and GOs **Research Agendas in the Sociology of Emotions** Theodore D. Kemper,1990-07-05 In this book leading sociologists of emotions present their research agendas for work that promises to shape the study of emotions well into the next decade The essays represent the full range of ideas issues and directions in the field From diverse theoretical positions symbolic interactionist social constructionist feminist positivist linguistic phenomenologist Marxist and evolutionist the authors set forth their current understandings as well as the directions of future work with a discussion of the most significant problems in emotions research **Handbook of Emotions** Lisa Feldman Barrett,Michael Lewis,Jeannette M. Haviland-Jones,2018-03-20 Recognized as the definitive reference this handbook brings together leading experts from multiple psychological subdisciplines to examine one of today s most dynamic areas of research Coverage encompasses the biological and neuroscientific underpinnings of emotions as well as developmental social and personality cognitive and clinical perspectives The volume probes how people understand experience express and perceive affective phenomena and explores connections to behavior and health across the lifespan

Concluding chapters present cutting edge work on a range of specific emotions Illustrations include 10 color plates New to This Edition Chapters on the mechanisms processes and influences that contribute to emotions such as genetics the brain neuroendocrine processes language the senses of taste and smell Chapters on emotion in adolescence and older age and in neurodegenerative dementias Chapters on facial expressions and emotional body language Chapters on stress health gratitude love and empathy Many new authors and topics extensively revised with the latest theoretical and methodological innovations A Choice Outstanding Academic Title *Handbook of Emotions* Michael Lewis, Jeannette M. Haviland-Jones, Lisa Feldman Barrett, 2010-11-03 Widely regarded as the standard reference in the field this handbook comprehensively examines all aspects of emotion and its role in human behavior The editors and contributors are foremost authorities who describe major theories findings methods and applications The volume addresses the interface of emotional processes with biology child development social behavior personality cognition and physical and mental health Also presented are state of the science perspectives on fear anger shame disgust positive emotions sadness and other distinct emotions Illustrations include seven color plates *Language and Emotion. Volume 3* Gesine Lenore Schiewer, Jeanette Altarriba, Bee Chin Ng, 2023-05-08 The Handbook consists of four major sections Each section is introduced by a main article Theories of Emotion General Aspects Perspectives in Communication Theory Semiotics and Linguistics Perspectives on Language and Emotion in Cultural Studies Interdisciplinary and Applied Perspectives The first section presents interdisciplinary emotion theories relevant for the field of language and communication research including the history of emotion research The second section focuses on the full range of emotion related aspects in linguistics semiotics and communication theories The next section focuses on cultural studies and language and emotion emotions in arts and literature as well as research on emotion in literary studies and media and emotion The final section covers different domains social practices and applications such as society policy diplomacy economics and business communication religion and emotional language the domain of affective computing in human machine interaction and language and emotion research for language education Overall this Handbook represents a comprehensive overview in a rich diverse compendium never before published in this particular domain **Ritual, Emotion, Violence** Elliott B. Weininger, Annette Lareau, Omar Lizardo, 2018-07-27 Microsociologists seek to capture social life as it is experienced and in recent decades no one has championed the microsociological approach more fiercely than Randall Collins The pieces in this exciting volume offer fresh and original insights into key aspects of Collins thought and of microsociology more generally The introductory essay by Elliot B Weininger and Omar Lizardo provides a lucid overview of the key premises this perspective Ethnographic papers by Randol Contreras using data from New York and Philippe Bourgois and Laurie Kain Hart using data from Philadelphia examine the social logic of violence in street level narcotics markets Both draw on heavily on Collins microsociological account of the features of social situations that tend to engender violence In the second section of the book a study by Paul DiMaggio Clark Bernier Charles Heckscher and David Mimno tackles the question

of whether electronically mediated interaction exhibits the ritualization which according to Collins is a common feature of face to face encounters Their results suggest that at least under certain circumstances digitally mediated interaction may foster social solidarity in a manner similar to face to face interaction A chapter by Simone Polillo picks up from Collins work in the sociology of knowledge examining multiple ways in which social network structures can engender intellectual creativity The third section of the book contains papers that critically but sympathetically assess key tenets of microsociology Jonathan H Turner argues that the radically microsociological perspective developed by Collins will better serve the social scientific project if it is embedded in a more comprehensive paradigm one that acknowledges the macro and meso levels of social and cultural life A chapter by David Gibson presents empirical analyses of decisions by state leaders concerning whether or not to use force to deal with internal or external foes suggesting that Collins model of interaction ritual can only partially illuminate the dynamics of these highly consequential political moments Work by Erika Summers Effler and Justin Van Ness seeks to systematize and broaden the scope of Collins theory of interaction by including in it encounters that depart from the ritual model in important ways In a final reflective chapter Randall Collins himself highlights the promise and future of microsociology Clearly written these pieces offer cutting edge thinking on some of the crucial theoretical and empirical issues in sociology today

The Oxford Handbook of Emotional Development Daniel Dukes, Andrea Samson, Eric Walle, 2022-01-07 Emotional Development is a topic that embraces a range of disciplines including psychology neuroscience sociology primatology philosophy history cognitive science computer science and education The Oxford Handbook of Emotional Development is the first volume of its kind to include such a multidisciplinary group of experts to consider this topic and as such provides perhaps the most complete examination yet of how emotions develop and manifest themselves neuronally intra and interpersonally across different cultures and species and over time The volume is separated into five themes macro and micro underpinnings communication and understanding interactive contexts socialization and learning and morality and prosocial behaviour Each section includes contributions from researchers in at least three disciplines resulting in a volume that is destined to provoke the interested reader into either purposively or accidentally discovering emotional development from novel and stimulating perspectives The chapters are written to be concise in their overview and accessible to the researcher or intellectually curious person alike The reader can enjoy state of the art critical analysis of emotional development from different viewpoints which whether dipped into casually or read as a whole will provide the best view of not only what we know today about emotional development but also where the future study of emotional development lies The Oxford Handbook of Emotional Development is an original and important contribution to the literature in psychology and the affective sciences

Marriage and the Family Julie Xuemei Hu, Shondrah Tarrezz Nash, 2019-04-23 Marriage and the Family Mirror of a Diverse Global Society is a comprehensive text about marriage and the family in sociology family science and diversity studies The book is divided into four parts studying marriage patterns and understanding family

diversity developing and maintaining intimate relationships tackling family issues and managing household crises and appreciating contemporary living arrangements in a diverse American society and across the global community Marriage and the Family is unique in its focus on diversity as well as its global perspective Diversity Overview boxes feature vignettes of family diversity in America Global Overview boxes invite students to experience family life in different areas of the world Indeed families become a mirror that helps students see a diversifying American society and a globalizing world

Collective Emotions Christian von Scheve, Mikko Salmella, 2014-01-30 Although collective emotions have a long tradition in scientific inquiry for instance in mass psychology and the sociology of rituals and social movements their importance for individuals and the social world has never been more obvious than in the past decades The Arab Spring revolution the Occupy Wall Street movement and mass gatherings at music festivals or mega sports events clearly show the impact collective emotions have both in terms of driving conflict and in uniting people But these examples only show the most obvious and evident forms of collective emotions Others are more subtle although less important shared moods emotional atmospheres and intergroup emotions are part and parcel of our social life Although these phenomena go hand in hand with any formation of sociality they are little understood Moreover there still is a large gap in our understanding of individual emotions on the one hand and collective emotional phenomena on the other hand This book presents a comprehensive overview of contemporary theories and research on collective emotions It spans several disciplines and brings together for the first time various strands of inquiry and up to date research in the study of collective emotions and related phenomena In focusing on conceptual theoretical and methodological issues in collective emotion research the volume narrows the gap between the wealth of studies on individual emotions and inquiries into collective emotions The book catches up with a renewed interest into the collective dimensions of emotions and their close relatives for example emotional climates atmospheres communities and intergroup emotions This interest is propelled by a more general increase in research on the social and interpersonal aspects of emotion on the one hand and by trends in philosophy and cognitive science towards refined conceptual analyses of collective entities and the collective properties of cognition on the other hand The book includes sections on Conceptual Perspectives Collective Emotion in Face to Face Interactions The Social Relational Dimension of Collective Emotion The Social Consequences of Collective Emotions Group Based and Intergroup Emotion Rituals Movements and Social Organization and Collective Emotions in Online Social Systems Including contributions from psychologists philosophers sociologists and neuroscience this volume is a unique and valuable contribution to the affective sciences literature

Handbook on Well-Being of Working Women Mary L. Connerley, Jiyun Wu, 2015-07-27 This handbook provides an overview and synthesis of relevant literature related to the issue of the well being of working women This focus addresses a gap that currently exists in the quality of life and well being fields The work of the authors answers the following broad questions Does gender matter in the well being of working women Do prejudices against and stereotypes of women

still play a role in inter personal interactions in the workplace that could hinder women from flourishing professionally Does the organizational context such as organizational culture reward systems and leadership contribute to the well being of working women What impact does the national context have on the well being of working women And finally how can public policies help enhance the well being of working women These are important issues for academics researchers and graduate students interested in gender issues in the fields of management sociology psychology social psychology economics and quality of life studies Policy makers and practitioners will also find this book beneficial Equitable treatment and outcomes for all regardless of gender remains a challenging goal to achieve with various barriers in different contexts and different cultures and this book provides strong coverage of this important topic of well being of working women *Handbook of the Sociology of Emotions: Volume II* Jan E. Stets, Jonathan H. Turner, 2014-08-18 *Handbook of the Sociology of Emotions Volume II* presents all new chapters in the ever developing area of the sociology of emotions The volume is divided into two sections Theoretical Perspectives and Social Arenas of Emotions It reviews major sociological theories on emotions which include evolutionary theory identity theory affect control theory social exchange theory ritual theory and cultural theory among others Social arenas where emotions are examined include but are not limited to the economy and the workplace the family mental health crime sports technology social movements and the field of science All the chapters review the major theories and research in the area and each chapter ends with some discussion of directions for future research The Sociology of Emotions is a fast growing and vital field in the broad discipline of Sociology This volume II follows the *Handbook of the Sociology of Emotions* which was first published in 2006 In 2008 this first handbook received the Outstanding Recent Contribution in the Emotions Section of the American Sociological Association With contributions from leading scholars from different areas in the discipline such as neurosociology culture economics mental health gender social movements discussing state of art theory and research on emotions in sociology this volume will generate wider appeal to the sociological community
