Social Movements Identity Culture And The State

Brian K. Grodsky

Social Movements Identity Culture And The State:

How Social Movements Die Christian Davenport, 2014-12-22 How do social movements die Some explanations highlight internal factors like factionalization whereas others stress external factors like repression Christian Davenport offers an alternative explanation where both factors interact Drawing on organizational as well as individual level explanations Davenport argues that social movement death is the outgrowth of a coevolutionary dynamic whereby challengers influenced by their understanding of what states will do to oppose them attempt to recruit motivate calm and prepare constituents while governments attempt to hinder all of these processes at the same time Davenport employs a previously unavailable database that contains information on a black nationalist secessionist organization the Republic of New Africa and the activities of authorities in the US city of Detroit and state and federal authorities **Social Movements** David S. Meyer, Nancy Whittier, Belinda Robnett, 2002 Why do social movements take the forms they do How do activists efforts and beliefs interact with the cultural and political contexts in which they work Why do activists take particular strategic paths and how do their strategies affect the course and impact of the movement Social Movements aims to bridge the gap between political opportunities theorists who look at the circumstances and effects of social movement efforts and collective identity theorists who focus on the reconstruction of meaning and identity through collective action The volume brings together scholars from a variety of disciplines **Social Movements** David S. Meyer, Nancy Whittier, Belinda Robnett, 2002 Why do social movements take the forms they do How do activists efforts and beliefs interact with the cultural and political contexts in which they work This book considers the intersections of opportunities and identities structures and cultures in social movements *Social Movements and the State in India* Kenneth Bo Nielsen, Alf Gunvald Nilsen, 2016-11-23 Questions of the extent to which social movements are capable of deepening democracy in India lie at the heart of this book In particular the authors ask how such movements can enhance the political capacities of subaltern groups and thereby enable them to contest and challenge marginality stigma and exploitation The work addresses these questions through detailed empirical analyses of contemporary fields of protest in Indian society ranging from gender and caste to class and rights based legislation Drawing on the original research of a variety of emerging and established international scholars the volume contributes to an engaged dialogue on the prospects for democratizing Indian democracy in a context where neoliberal reforms fuel a contradictory process of uneven development **Social Movements and Solidarity Structures in Crisis-Ridden Greece** Haris Malamidis, 2025-10-01 Social Movements and Solidarity Structures in Crisis Ridden Greece explores the rich grassroots experience of social movements in Greece between 2008 and 2016 The harsh conditions of austerity triggered the rise of vibrant mobilizations that went hand in hand with the emergence of numerous solidarity structures providing unofficial welfare services to the suffering population Based on qualitative field research conducted in more than 50 social movement organizations in Greece s two major cities the book offers an in depth analysis of the

contentious mechanisms that led to the development of such solidarity initiatives By analyzing the organizational structure resources and identity of markets without middlemen social and collective kitchens organizations distributing food parcels social clinics and self managed cooperatives this study explains the enlargement of boundaries of collective action in times of crisis

Social Movements and the New State Brian K. Grodsky, 2012-09-26 The world's democracies cheered as the social movements of the Arab Spring ended the reigns of longstanding dictators and ushered in the possibility of democracy Yet these unique transitions also fit into a broader pattern of democratic breakthroughs around the globe where political leaders emerge from the pro democracy movement that helped affect change In *Social Movements and the New State* Brian Grodsky examines the relationships between new political elites and the civil society organizations that brought them to power in three culturally and geographically disparate countries Poland South Africa and Georgia This book argues that the identities and personal networks developed during the struggle provide movement activists with opportunities to influence minor issues but that new and differing institutional pressures create schisms on broader policy that can turn prior bonds into a liability rather than an asset Drawing on media analyses and more than 150 elite interviews Grodsky offers a rare empirical assessment of the degree to which social movement organizations shape activists beliefs and actions over the long term

Identity Work in Social Movements Jo Reger, Daniel J. Myers, Rachel L. Einwohner, 2008 Movements for social change are by their nature oppositional as are those who join change movements How people negotiate identity within social movements is one of the central concerns in the field This volume offers new scholarship that explores issues of diversity and uniformity among social movement participants

The Wiley Blackwell Companion to Social Movements David A. Snow, Sarah A. Soule, Hanspeter Kriesi, Holly J. McCammon, 2023-01-04 The most up to date and thorough compendium of scholarship on social movements This second edition of *The Wiley Blackwell Companion to Social Movements* features forty original essays from the field With contributions from both established and ascendant scholars the Companion seeks to present current research on social movements in all its diversity It is the most up to date comprehensive volume of social science research on social movements available today The essays address facilitative and constraining contexts and conditions social movement organizations fields and dynamics strategies and tactics micro structural and social psychological dimensions of participation consequences and outcomes and various thematic intersections including the intersection of social movements and social class gender race and ethnicity religion human rights globalization political extremism and more Offers an illuminating guide to understanding the dynamics and operation of social movements within the modern global world Covers a diverse range of topics in the field of social movement studies Offers original state of the art essays by internationally recognized scholars *The Wiley Blackwell Companion to Social Movements* is recommended for graduate seminars on social movement and for scholars of social movements worldwide It is also an excellent text for college and university libraries especially with graduate programs in the social sciences

States and Social Movements Hank

Johnston,2011 States and Social Movements cuts to the core of how social movements interact with all types of state system to produce variable outcomes such as democracy policy reform repression insurrection and revolution Social Movements

Paul Almeida,2019-03-05 Social Movements cleverly translates the art of collective action and mobilization by excluded groups to facilitate understanding social change from below Students learn the core components of social movements the theory and methods used to study them and the conditions under which they can lead to political and social transformation This fully class tested book is the first to be organized along the lines of the major subfields of social movement scholarship framing movement emergence recruitment and outcomes to provide comprehensive coverage in a single core text Features include use of real data collected in the U S and around the world the emphasis on student learning outcomes case studies that bring social movements to life examples of cultural repertoires used by movements flyers pamphlets event data on activist websites illustrations by activist musicians to mobilize a group topics such as immigrant rights transnational movement for climate justice Women s Marches Fight for 15 Occupy Wall Street Gun Violence Black Lives Matter and the mobilization of popular movements in the global South on issues of authoritarian rule and neoliberalism With this book students deepen their understanding of movement dynamics methods of investigation and dominant theoretical perspectives all while being challenged to consider their own place in relation to social movements **Social Movements in Politics**

Cyrus Ernesto Zirakzadeh,2006-08-19 In this book Zirakzadeh examines different types of social movements from the Greens in Germany to the Shining Path in Peru The book concludes with a juxtaposition of the three major theoretical approaches and historical findings and proposes a fourth theoretical approach emphasizing factional conflict and reconciliation

Social Movements and the Transformation of American Health Care Jane C. Banaszak-Holl,Mayer N.

Zald,2010-06-24 This is a collection of essays which examine dynamics of change in health care institutions through the lens of contemporary theory and research on collective action The book conceptualizes the American health care system as being organized around multiple institutions *Research in Social Movements, Conflicts and Change* Patrick G. Coy,2015-09-03 A long standing characteristic of the series is publishing new theoretical and empirical work that connects previously disparate sub fields This volume continues that tradition as the papers join social movements research with organizational theory new institutionalism strategic action fields and nonviolent action **Frames of Protest** Hank Johnston,John A. Noakes,2005 Frames of Protest brings together important empirical research and theoretical essays by leading sociologists political scientists and media specialists that focus on social movement frames and framing practices Frames are new ways of understanding political and social relations that emphasize injustice and the need for change As such they are crucial for the development of social movements and protest Frames of Protest is the only book to focus exclusively on this major research perspective in social movement and protest studies Thirteen chapters encompass the major themes in the framing perspective to offer a state of the art review Three chapters present evidence for the determining influence of framing in

social movement mobilization Next framing activities by the state and the mass media are analyzed Then two research reports examine the effect of political opportunities on framing in Poland under the Communists and in New York City s ethnic politics Several chapters by leading theorists present a lively debate about the relationship of ideologies to collective action frames The book closes with a hands on discussion about analyzing textual materials and interview transcripts to do frame analysis that lends itself to longitudinal and cross case comparisons

Violent Conjectures in Democratic India

Amrita Basu,2015-06-30 This book is a pioneering study of when and why Hindu Nationalists have engaged in discrimination and violence against minorities in contemporary India Amrita Basu asks why the incidence and severity of violence differs significantly across Indian states within states and through time Contrary to many predictions the Hindu nationalist Bharatiya Janata Party BJP has neither consistently engaged in anti minority violence nor been compelled by the centrifugal pressures of democracy to become a centrist party Rather the national BJP has alternated between moderation and militancy Hindu nationalist violence has been conjunctural determined by relations among its own party social movement organization and state governments and on the character of opposition states parties and movements This study accords particular importance to the role of social movements in precipitating anti minority violence It calls for a broader understanding of social movements and a greater appreciation of their relationship to political parties

Democracy in the Making

Kathleen M. Blee,2012-03-30 Winner of the 2012 ARNOVA Outstanding Book in Nonprofit and Voluntary Action Research Award 2013 Charles Tilly Award for Best Book from the American Sociological Association Section on Collective Behavior and Social Movements Democracy in the Making offers a marvelous synthesis of sociological acumen and hope Kathleen Blee finds that while social activists often narrow their visions of doable social change they also can learn together and take surprising new directions with unpredictable results A wide range of activists will recognize themselves in this book s wonderfully fine grained portraits of politics at the grassroots Paul Lichterman author of Elusive Togetherness Church Groups Trying to Bridge America s Divisions This book is an enormous breath of fresh air in an area that often recycles concepts and perspectives Blee offers a strikingly original approach to grassroots activism that will substantially reorient research in collective action and social movements Marc W Steinberg Associate Professor of Sociology Smith College With civic engagement commonly understood to be on the decline and traditional bases of community and means of engagement increasingly fractured how do people become involved in collective civic action How do activist groups form What hampers the ability of these groups to invigorate political life and what enables it Kathleen Blee s groundbreaking new study provides a provocative answer the early times matter By following grassroots groups from their very beginnings Blee traces how their sense of possibility shrinks over time as groups develop a shared sense of who they are that forecloses options that were once open At the same time she charts the turning points at which options re open and groups become receptive to change and reinvention Based on observing more than sixty grassroots groups in Pittsburgh for three years Democracy in the

Making is an unprecedented look at how ordinary people come together to change society It gives a close up look at the deliberations of activists on the left and right as they work for animal rights an end to the drug trade in their neighbourhood same sex marriage global peace and more It shows how grassroots activism can provide an alternative to civic disengagement and a forum for envisioning how the world can be transformed At the same time it documents how activist groups become mired in dysfunctional and undemocratic patterns that their members dislike but cannot fix By analyzing the possibilities and pitfalls that face nascent activist organizations Blee reveals how critical early choices are to the success of grassroots activism Vital for scholars and activists alike this practical yet profound study shows us through the examples of both groups that flourish and those that flounder how grassroots activism can better live up to its democratic potential

Intersectionality in Feminist and Queer Movements Elizabeth Evans,Eléonore Lépinard,2019-11-26 Examining the ways in which feminist and queer activists confront privilege through the use of intersectionality this edited collection presents empirical case studies from around the world to consider how intersectionality has been taken up or indeed contested by activists in order to expose and resist privilege The volume sets out three key ways in which intersectionality operates within feminist and queer movements it is used as a collective identity as a strategy for forming coalitions and as a repertoire for inclusivity The case studies presented in this book then evaluate the extent to which some or all of these types of intersectional activism are used to confront manifestations of privilege Drawing upon a wide range of cases from across time and space this volume explores the difficulties with which activists often grapple when it comes to translating the desire for intersectionality into a praxis which confronts privilege Addressing inter related and politically relevant questions concerning how we apply and theorise intersectionality in our studies of feminist and queer movements this timely edited collection will be of interest to students and scholars from across the social sciences and humanities with an interest in gender and feminism LGBT and queer studies and social movement studies

Handbook of Political Citizenship and Social Movements Hein-Anton van der Heijden,2014-10-31 This Handbook uniquely collates the results of several decades of academic research in these two important fields The expert contributions successively address the different forms of political citizenship and current approaches and recent development

Hizbut Tahrir Indonesia and Political Islam Mohamed Nawab Mohamed Osman,2018-05-15 This book offers a timely examination of Hizbut Tahrir Indonesia HTI a chapter of the transnational movement Hizb ut Tahrir HT whose key aim is the revival of the caliphate It cautions against an overly simplistic read of a group like HTI and political Islam in Indonesia While there is much to laud particularly with regard to how leaders in Indonesia have attempted to counteract Islamist extremism insofar as the trajectory of non violent Islamism in Indonesia is concerned there are clear reasons for apprehension Groups like the HTI have been adept at using the democratic space in Indonesia to propound their illiberal objectives including encouraging the curtailment of Indonesian art forms deemed un Islamic and more importantly pushing for certain Islamic sects such as the Ahmadiyahs to be banned Yet despite its extreme

posturing HTI is accepted as a mainstream Muslim organization As such the Indonesian chapter of Hizb ut Tahrir represents a unique case unlike other chapters which are deemed extreme and fringe HTI though radical still exists within the space provided by the Indonesian religio political landscape This book offers new insights into HTI s history organizational structure and ideology adding considerable new details about HTI and correcting errors in existing literature while directing its primary focus on explaining HTI s rapid growth in Indonesia The central argument is that the key to understanding HTI s growth lies in the role collective identity plays in attracting new members and retaining its existing members within the party Factors such as institutional and non institutional opportunities within the Indonesian political system HTI s resource mobilization strategies and the anti systemic ideology of HTI serve as political organizational and religious incentives for individuals to join the party and launch collective action This goes on to emphasize and show that collective identity remains the most crucial factor in the party s growth Analysing this process of collective identity formation and its impact on recruitment and membership retention is central to this book This book will be of much interest to students of Southeast Asian politics regional security political Islam and International Relations in general

Racialized Protest and the State
Hank Johnston, Pamela Oliver, 2020-07-07 Bringing together leading scholars of social movements and protest this volume offers an up to date overview of several of the key ethnic and racial movements in the contemporary United States The organizations strategies and challenges of the Black Lives movement mainstream Black organizations the Mexican American Dreamer groups immigrant rights mobilizations Arab American resistance and White nationalism are all examined by situating them in a rapidly evolving and in many ways increasingly unfavorable state context With empirical studies linked by their dialogue with theories of social movement and protest and in particular recent trends that emphasize the dynamic relations among social movement groups and organizations Racialized Protest and the State also considers the multiplicity of state players and the roles of hostile civic actors who oppose the movements challenges A cutting edge analysis of an increasingly important dimension of contentious politics in complex and diverse Western societies this book will appeal to scholars of sociology and politics with interests in social movements nonviolent resistance protest campaigns and ethnic mobilization

Social Movements Identity Culture And The State Book Review: Unveiling the Power of Words
