The Political Economy of European Welfare Capitalism Colin Hay, Daniel Wincott, 2012-07-19 A state of the art assessment of welfare provision policy and reform at national and at EU level which spans the whole of Europe East West and Central Uniquely broad ranging in scope and covering the latest research findings and theoretical debates it provides a genuinely comparative overview text for students of 21st century Europe *Solidarity in Health and Social Care in Europe* W. Arts, R. Muffels, 2013-03-14 OF SOLIDARITY IN UK SOCIAL WELFARE Here then perhaps is a British version of solidarity in social welfare but early there are strong tensions between the powerfully liberal individualistic strands of the British understanding of the functions of the state and the socialistic or communitarian tendency of a commitment to universal welfare provision In the search for the roots of this understanding of welfare we shall survey first the historical background to these tensions in some early British political philosophers starting with Hobbes and ending with Mill We then consider the philosophical and social influences on the Beveridge Report itself and we will trace the emergence of the philosophy of the welfare state in the era following the Second World War Finally we consider the contemporary debate as it relates to the Third Way thinking of New Labour 2 A HISTORICAL SKETCH In the previous section we observed that the philosophy underlying the Beveridge Report could be described as liberal collectivism What are the historical antecedents of this strange amalgam of individualism and collectivism Within the short scope of this chapter any account of the philosophical history must be little more than a sketch but we can perhaps understand most debates in British socio political thought as a continuing dialogue with the well known claim of Thomas Hobbes in *Leviathan* that all political institutions are founded on

egoistic motives **Rescaling Social Policies towards Multilevel Governance in Europe** Yuri Kazepov, 2017-10-24 The workings of multi level governance institutional choices concerning centralisation decentralisation and subsidiarity are widely debated within European public policy but few systematic studies assessing the effects of changing divisions of power for policy making have been carried out This volume offers an assessment of the workings of multi level governance in terms of social welfare policy across different clusters of European states Nordic Southern European Central and East European This book reports on a major comparative study at the European Centre for Social Welfare policy and Research which included partners from universities in Finland France Italy Norway Sweden Poland Spain and Switzerland It reports on three particular policy areas social assistance and local policies against poverty activation and labour market policies and care for the elderly The authors describe different starting points strategies and solutions in European countries which are facing similar challenges and could thus learn from each other They explore the differences between European welfare regimes in terms of territorial responsibilities the changes that have taken place over the past few years and their effects The book is distinctive in highlighting comparative transversal and transnational issues of multi level governance in social welfare policies rather than presenting country reports *Changing European Employment and Welfare Regimes* Martin Heidenreich, Jonathan Zeitlin, 2009-05-07 This book examines how national labour market and social welfare policies have been influenced by the European Employment Strategy and the Open Method of Coordination OMC processes on Social Protection Inclusion Routledge Handbook of European Sociology Sokratis Koniaris, Alexandros Kyrtis, 2014-09-04 The Routledge Handbook of European Sociology provides over forty original groundbreaking state of the art accounts each expert contribution teasing out the distinctively European features of the sociological theme it explores The Handbook is divided in four parts intellectual and institutional settings regional variations thematic variations and European concerns Southern European Welfare States G. Migrant Integration in a Changing Europe Roxana Barbulescu, 2019-02-28 In this rich study Roxana Barbulescu examines the transformation of state led immigrant integration in two relatively new immigration countries in Western Europe Italy and Spain The book is comparative in approach and seeks to explain states immigrant integration strategies across national regional and city level decision and policy making Barbulescu argues that states pursue no one size fits all strategy for the integration of migrants but rather simultaneously pursue multiple strategies that vary greatly for different groups Two main integration strategies stand out The first one targets non European citizens and is assimilationist in character and based on interventionist principles according to which the government actively pursues the inclusion of migrants The second strategy targets EU citizens and is a laissez faire scenario where foreigners enjoy rights and live their entire lives in the host country without the state or the local authorities seeking their integration

The empirical material in the book dating from 1985 to 2015 includes systematic analyses of immigration laws integration policies and guidelines historical documents original interviews with policy makers and statistical analysis based on data from the European Labor Force Survey While the book draws on evidence from Italy and Spain in an effort to bring these case studies to the core of fundamental debates on immigration and citizenship studies its broader aim is to contribute to a better understanding of state interventionism in immigrant integration in contemporary Europe The book will be a useful text for students and scholars of global immigration integration citizenship European integration and European society and culture

Children, Gender and Families in Mediterranean Welfare States Mimi Ajzenstadt, John Gal, 2010-07-01 countries in this region have been particularly limited for an exception to this see Petmesidou Papatheodorou 2006 The underlying assumption in this volume is that despite the diversity of welfare states bordering the Mediterranean Sea some interesting commonalities are shared by these nations Indeed in his contribution to this volume Gal has described these nations as belonging to an extended family of welfare states that share some common characteristics and outcomes one of which is the role of the family By bringing together case analyses of the welfare states in the Mediterranean which focus on children gender and families we maintain that it is possible to shed light on aspects of social policy that do not necessarily emerge in most discussions of these issues in the literature The rationale inherent in a volume that focuses on a group of welfare states is of course embedded in the welfare regime typology notion that has dominated much of the comparative social policy literature over the last two decades The publication of Esping Andersen s seminal work *The Three Worlds of Welfare Capitalism* in 1990 and his related 1999 book which distinguished between three welfare regimes became a landmark for comparative work of social policies in various countries Esping Andersen regarded his typology as a useful tool for comparison between welfare states because it allowed for greater analytical parsimony and help s us to see the forest rather than myriad trees 1999 p 73
