for anyone concerned with Nietzsche's thought, political philosophy and the history of political ideas African Theology Today Emmanuel M. Katongole, 2017-05-09 This book brings together twelve essays on a wide and rich range of topics, discussions and methodologies in African theology today. Even the book's limitations provide an insight into the situation; its variety also indicates the absence of comprehensive and sustained discussion flowing from the economic and institutional limitation of Africa where research in theology is often beyond the means of many theologians. Then there is the difficulty of staying abreast of continually changing contexts and events in Africa itself. For all of these reasons, then, a compelling introduction to a dynamic analysis and conversation *Encyclopedia of Modern Political Thought (set)* Gregory Claes, 2013-08-20 This groundbreaking new work explores modern and contemporary political thought since 1750, looking at the thinkers, concepts, debates, issues and national traditions that have shaped political thought from the Enlightenment to post-modernism and post-structuralism. *Encyclopedia of Modern Political Thought* is a two-volume A to Z reference that provides historical context to the philosophical issues and debates that have shaped attitudes toward democracy, citizenship, rights, property, duties, justice, equality, community, law, power, gender, race and legitimacy over the last three centuries. It profiles major and minor political thinkers and the national traditions, both Western and non-Western, which continue to shape and divide political thought. More than 200 scholars from leading international research institutions and organizations have provided signed entries that offer comprehensive coverage of thought of regions and countries including African political thought, American political thought, Australasian political thought, Australian and New Zealand, Chinese political thought, Indian political thought, Islamic political thought, Japanese political thought and more. Thought regarding contemporary issues such as abortion, affirmative action, animal rights, European integration, feminism, humanitarian intervention, international law, race and racism and more. The ideological spectrum from Marxism to neoconservatism, including anarchism, conservatism, Darwinism and Social Darwinism, Engels, fascism, the Frankfurt School, Lenin and Leninism, socialism and more. Connections of political thought to key areas of politics and other disciplines such as economics, psychology, law and religion. Notable time periods of political thought since 1750. Concepts including class, democratic theory, liberalism, nationalism, natural and human rights and theories of the state. Theorists and political intellectuals, both Western and non-Western, including John Adams, Edmund Burke, Mohandas Gandhi, Immanuel Kant, Ayatollah Khomeini, Ernst Friedrich Schumacher, George Washington and Mary Wollstonecraft **Political Ideas in Modern India** Project of History of Indian Science, Philosophy, and Culture, 2006-03-31 The volumes of the Project on the History of Science, Philosophy and Culture in Indian Civilization aim at discovering the main aspects of India's heritage and present them in an interrelated way. culture composite nationalism and international peace and justice , An Introduction to Political Philosophy Henry Percy Farrell,1917 *Amoral Politics* Ben-Ami Scharfstein,2016-02-24 This is a study of how and why politics is amoral It deals especially with what the author terms Machiavellism the disregard of moral scruples for political ends that leads to the justification and use of deception and force in all aspects of political life A comparative cultural study it examines the theory and practice of politics in ancient China ancient India Renaissance Italy and modern Europe as well as tribal cultures in order to test how widespread such political amorality has been throughout history Scharfstein concludes that political or ethical theories that do not view Machiavellism as inseparable from political life are inadequate to human affairs and of doubtful relevance to politics In reaching this conclusion he explores such topics as why people readily accept political violations of truthfulness and fairness whether decisive philosophical arguments have been advanced against Machiavellism whether the use of deception in politics is in politicians own best interests and whether the prevalence of Machiavellism rules out the likelihood of a better political future **Western Political Thought** Robert Eccleshall,Michael Kenny,1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate indicate their significance controversial nature and readability John Locke's Political Philosophy and the Hebrew Bible Yechiel J. M. Leiter,2018-06-28 John Locke s treatises on government make frequent reference to the Hebrew Bible while references to the New Testament are almost completely absent To date scholarship has not addressed this surprising characteristic of the treatises In this book Yechiel Leiter offers a Hebraic reading of Locke s fundamental political text In doing so he formulates a new school of thought in Lockean political interpretation and challenges existing ones He shows how a grasp of the Hebraic underpinnings of Locke s political theory resolves many of the problems as well as scholarly debates that are inherent in reading Locke More than a book about the political theory of John Locke this volume is about the foundational ideas of western civilization While focused on Locke s Hebraism it demonstrates the persistent relevance of the biblical political narrative to modernity It will generate interest among students of Locke and political theory philosophy and early modern history and within Bible study communities **The Regional Roots of Developmental Politics in India** Aseema Sinha,2005-04-14 A comparative chapter applies the model to data from China Brazil Russia and the former Soviet Union *Understanding Literary Theory: Key Figures in Contemporary Thought* Krishna Sharma,2025-07-07 *Understanding Literary Theory Key Figures in Contemporary Thought* by Krishna Sharma offers a concise yet comprehensive overview of major literary theorists and their critical contributions to contemporary thought Designed especially for students educators and exam aspirants this book simplifies complex theoretical ideas making them accessible and relevant for academic success Covering influential figures in structuralism post structuralism Marxism feminism psychoanalysis postcolonialism and more this book is an essential companion for those preparing for competitive exams such as UGC NET SET and Assistant Professor recruitment With clear
