Social Production Of Art:

The Social Production of Art Janet Wolff,1981 **The Social Production of Art** Janet Wolff,1993-10 In *The Social Production of Art* Janet Wolff shows systematically that the arts can be understood adequate only in a sociological perspective and argues that art is the complex construction of a number of historical factors **The Social Production of Art** ,1981 *Theories of Art Today* Noël Carroll,2000 What is art The contributors to *Theories of Art Today* address the assertion that the term art no longer holds meaning They explore a variety of issues including aesthetic and institutional theories of art feminist perspectives on the philosophy of art the question of whether art is a cluster concept and the relevance of tribal art to philosophical aesthetics Contributors to this book include such distinguished philosophers and historians as Arthur Danto Joseph Margolis and George Dickie Social production of art J. Production offers a timely and compelling manifesto **Sociology about Art** Sara Malou Strandvad,Quirijn Lennert van den Hoogen,Manuel Reyes,2024-12-02 For sociologists making distributing and using art and cultural products constitute social practices yet sociologists disagree on how to investigate these practices Organised around three main schools of thought critical sociology symbolic interactionism and social systems theory Sociology about Art serves as an introduction to and a self reflective discussion about how sociologists study the Arts Providing a wide spectrum of approaches in art sociology the book focuses on examining not only the famously cited theorists notably Bourdieu Becker and Peterson but also offers an overview of the sociologists who are often overlooked Hennion Heinich Luhmann and Van Maanen among others In presenting these various approaches the crux of discussion concerns the status of art in sociological analyses Following a critical assessment of the classical theories and assessing the risks of failing to observe the function of art the authors contend that the perspective on art works their forms affordances and meanings can and should be integrated into sociological research for it to become a sociology that is truly about art A vital resource for students seeking to understand sociological discourses surrounding art and set up their own research projects Sociology about Art will appeal to scholars and students of sociology with interests in the arts and cultural policy From Space in Modern Art to a Spatial Art History Jutta Vinzent,2019-12-02 This book traces artists theories of constructive space in the first half of the twentieth century Drawing on these concepts and recent theories on space it develops a methodology termed Spatial Art History that conceives of artworks as physical spatio temporal things which produce the social to overcome the reductive understanding of art as a mere mirror or facilitator of society **The Cambridge Companion to the Drum Kit** Matt Brennan,Joseph Michael Pignato,Daniel Akira Stadnicki,2021-06-17 The drum kit is ubiquitous in global popular music and culture and modern kit drumming profoundly defined the sound of twentieth century popular music The Cambridge Companion to the Drum Kit highlights emerging scholarship on the drum kit drummers and key debates related to the instrument and its players Interdisciplinary in scope this volume draws on research from across the humanities sciences and social sciences to showcase the drum kit a relatively recent historical phenomenon as a site worthy of analysis critique and reflection Providing readers with an array of perspectives on the social material and performative dimensions of the instrument this book will be a valuable resource for students drum kit studies scholars and all those who want a deeper understanding of the drum kit drummers and drumming Art, Design and Visual Culture Malcolm Barnard,1998-09-23 Most of our expereince is visual We obtain most of our information and knowledge through sight whether from reading books and newspapers from watching television or from quickly glimpsing road signs Many of our judgements and decisions concerning where we live what we shall drive and sit on and what we wear are based on what places cars furniture and clothes look like Much of our entertainment and recreation is visual whether we visit art galleries cinemas or read comics This book concerns that visual experience Why do we have the visual experiences we have Why do the buildings cars products and advertisements we see

look the way they do How are we to explain the existence of different styles of paintings different types of cars and different genres of film How are we to explain the existence of different visual cultures This book begins to answer these questions by explaining visual experience in terms of visual culture The strengths and weaknesses of traditional means of analysing and explaining visual culture are examined and assessed Using a wide range of historical and contemporary examples it is argued that the groups which artists and designers form the audiences and markets which they sell to and the different social classes which are produced and reproduced by art and design are all part of the successful explanation and critical evaluation of visual culture Periklean Athens and Its Legacy Judith M.
