Social Realism Art As A Weapon:

Social Realism: Art as a Weapon David Shapiro, 1973 In an introductory essay David Shapiro appraises the roots and achievements of Social Realism providing an overall framework within which the source material that follows can be understood Was Social Realism only a response to the economic collapse of the 1930s or was it part of a continuing American art tradition A primary selection of documents ranging from Hugo Gellert's exultant *We Capture the Walls* 1932 to Oliver Larkin's retrospective *Common Cause* 1949 fixes the period's social and aesthetic background It includes spirited contributions by Diego Rivera Meyer Schapiro Stuart Davis and others A second selection of documents focuses on five major Social Realists Philip Evergood William Gropper Jacob Lawrence Jack Levine and Ben Shahn for closer study This section includes individual biographical outlines personal statements by the artists and representative critical analyses of their work The book concludes with an especially compiled list of major Social Realists an extended bibliography and a detailed index

Includes ten reproductions From book jacket **The Social and the Real: Political Art of the 1930s in the Western Hemisphere**, 2006 Pollock and After Francis Frascina, 2000 This revised edition features ten new articles and is fully

updated to take account of new critical approaches to post war American art *Marxism and 20th-Century English-Canadian Novels* John Z. Ming Chen, Yuhua Ji, 2015-06-09 This monograph is the first academic work to apply a neo Marxist approach to 20th century Canadian social realist novels pursuing a refreshingly neo Marxist approach to such issues as Bakhtinian notions of the novelistic form and dialogism as applied to Canadian socio political novels influenced by various socialisms socialist feminist concerns economic and sexual politics and the genre of social realism In so doing it demonstrates that Marxist socialism is as relevant today as it was in the 1930s just as social realist novels continue to thrive as a critique of capitalism Readers will find valuable insights into the social significance formal innovations moral sensitivity aesthetic enrichment and ideological complexity of Canadian social realist novels

Labor's Canvas Laura Hapke, 2009-03-26 At an unprecedented and probably unique American moment laboring people were indivisible from the art of the 1930s By far the most recognizable New Deal art employed an endless frieze of white or racially ambiguous machine proletarians from solo drillers to identical assembly line toilers Even today such paintings particularly those with work themes are almost instantly recognizable Happening on a Depression era picture one can see from a distance the often simplified figures the intense or bold colors the frozen motion or flattened perspective and the uniformity of laboring bodies within an often naive realism or naturalism of treatment In a kind of Social Realist dance the FAP's imagined drillers haulers construction workers welders miners and steel mill workers make up a rugged industrial army In an unusual synthesis of art and working class history *Labor's Canvas* argues that however simplified this golden age of American worker art appears from a post modern perspective The New Deal's Federal Art Project FAP under the aegis of the Works Progress Administration WPA revealed important tensions Artists saw themselves as cultural workers who had much in common with the blue collar workforce Yet

they struggled to reconcile social protest and aesthetic distance Their canvases prints and drawings registered attitudes toward laborers as bodies without minds often shared by the wider culture In choosing a visual language to reconnect workers to the larger society they tried to tell the worker from the work with varying success Drawing on a wealth of social documents and visual narratives Labor s Canvas engages in a bold revisionism Hapke examines how FAP iconography both chronicles and reframes working class history She demonstrates how the New Deal s artistically rendered workforce history reveals the cultural contradictions about laboring people evident even in the depths of the Great Depression not the least in the imaginations of the FAP artists themselves **Antifascism in American Art** Cécile Whiting,1989-01-01 Whiting examines the various manifestations of antifacist art showing how each negotiated the competing demands of artistic conventions aesthetic and political theories and historical developments *Cultural Hermeneutics of Modern Art* Eldert Willems,Hubert Dethier,2023-07-24 **Imagining Our Americas** Sandhya Shukla,Heidi Tinsman,2007-07-20 Challenges the disciplinary boundaries and the assumptions underlying the fields of Latin American Studies and American U S Studies demonstrating that the Americas is a concept that transcends geographical place Hearings Before the Committee on Un-American Activities, House of Representatives, Eighty-fourth Congress, Second Session Estados Unidos. Committee on Un-American Activities,1956 **Framing the Audience** Isadora Helfgott,2015-10-15 Framing the Audience explores the cultural politics of the Great Depression and World War II through the prism of art appreciation Isadora Helfgott interrogates the ideological and political motivations for breaking down barriers between fine art and popular culture She charts the impact that changes in art appreciation had on the broader political social cultural and artistic landscape Framing the Audience argues that efforts to expand the social basis of art became intertwined with and helped shape broader debates about national identity and the future of American political economy Helfgott chronicles artists efforts to influence the conditions of artistic production and display She highlights the influence of the Federal Art Project the impact of the Museum of Modern Art as an institutional home for modernism in America and as an organizer of traveling exhibitions and the efforts by LIFE and Fortune magazines to integrate art education into their visual record of modern life In doing so Helfgott makes critical observations about the changing relationship between art and the American public *American Studies* Jack Salzman,1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface

Washington,2014-04-08 Mary Helen Washington recovers the vital role of 1950s leftist politics in the works and lives of
modern African American writers and artists While most histories of McCarthyism focus on the devastation of the blacklist
and the intersection of leftist politics and American culture few include the activities of radical writers and artists from the
Black Popular Front Washington s work incorporates these black intellectuals back into our understanding of mid twentieth
century African American literature and art and expands our understanding of the creative ferment energizing all of America
during this period Mary Helen Washington reads four representative writers Lloyd Brown Frank London Brown Alice
Childress and Gwendolyn Brooks and surveys the work of the visual artist Charles White She traces resonances of leftist
ideas and activism in their artistic achievements and follows their balanced critique of the mainstream liberal and
conservative political and literary spheres Her study recounts the targeting of African American as well as white writers
during the McCarthy era reconstructs the events of the 1959 Black Writers Conference in New York and argues for the
ongoing influence of the Black Popular Front decades after it folded Defining the contours of a distinctly black modernism
and its far ranging radicalization of American politics and culture Washington fundamentally reorients scholarship on African
American and Cold War literature and life Cold War Exiles in Mexico Rebecca Mina Schreiber,2008 The onset of the Cold
War in the 1940s and 1950s precipitated the exile of many U S writers artists and filmmakers to Mexico Rebecca M
Schreiber illuminates the work of these cultural exiles in Mexico City and Cuernavaca and reveals how their artistic
collaborations formed a vital and effective culture of resistance *Cinema in the Cold War* Cyril Buffet,2017-10-02 The film
industry was an important propaganda element during the Cold War As with other conflicts the Cold War was fought not just
with weapons but with words and images Throughout the conflict cinema was a reflection of the societies the ideologies and
the political climates in which the films were produced On both sides great stars major companies famous scriptwriters and
filmmakers were enlisted to help the propaganda effort It was not only propaganda that was created by the cinema of the
Cold War it also articulated criticism and the movie industries were centres of the fabrication of modern myths The cinema
was undoubtedly a place of Cold War confrontation and rivalry and yet there were aesthetic technical narrative exchanges
between West and East All genres of film contributed to the Cold War thrillers westerns comedies musicals espionage films
documentaries cartoons science fiction historical dramas war films and many more These films shaped popular culture and
national identities creating vivid characters like James Bond Alec Leamas Harry Palmer and Rambo While the United States

and the Soviet Union were the two main protagonists in this on screen duel other countries such as Britain Germany Poland Italy and Czechoslovakia also played crucially important parts and their prominent cinematographic contributions to the Cold War are all covered in this volume This book was originally published as a special issue of Cold War History **The Political Economy of Art** Julie F. Codell,2008 Political economy is defined in this volume as collective state or corporate support for art and architecture in the public sphere intended to be accessible to the widest possible public raising questions about the relationship of the state to cultural production and consumption This collection of essays explores the political economy of art from the perspective of the artist or from analysis of art s production and consumption emphasizing the art side of the relationship between art and state This volume explores art as public good a central issue in political economy Essays examine specific cultural spaces as points of struggle between economic and cultural processes Essays focus on three areas of conflict theories of political economy put into practices of state cultural production sculptural and architectural monuments commissioned by state and corporate entities and conflicts and critiques of state investments in culture by artists and the public amazon com edit desc *The Artwork of Gerhard Richter* Darryn Ansted,2017-07-05 By uniquely treating Gerhard Richter s entire oeuvre as a single subject Darryn Ansted combines research into Richter s first art career as a socialist realist with study of his subsequent decisions as a significant contemporary artist Analysis of Richter s East German murals early work lesser known paintings and destroyed and unfinished pieces buttress this major re evaluation of Richter s other well known but little understood paintings By placing the reader in the artist s studio and examining not only the paintings but the fraught and surprising decisions behind their production Richter s methodology is deftly revealed here as one of profound yet troubled reflection on the shifting identity culture and ideology of his period This rethinking of Richter s oeuvre is informed by salient analyses of influential theorists ranging from Theodor Adorno to Slavoj i ek as throughout meticulous visual analysis of Richter s changing aesthetic strategies shows how he persistently attempts to retrace the border between an objective reality structured by ideology and his subjective experience as a contemporary painter in the studio Its innovative combination of historical accuracy philosophical depth and astute visual analysis will make this an indispensable guide for both new audiences and established scholars of Richter s painting
