**The Rugg Social Science Course: An introduction to American civilization** Harold Ordway Rugg,1929

**Feminisms and Ruralities** Barbara Pini,Berit

Brandth,Jo Little,2014-12-18 Feminist concern with difference has rarely extended to rurality even if it is now widely

recognized that experiences of inequality depend on intersections of several identities in each individual life This lack of

concern may reflect the urban background of the majority of feminist academics or at least their urban positionality once in

the academy It may equivalently be that feminists have been influenced by stereotypes of rural women as traditional and

reactionary and thus seen them as unlikely exponents of gender equality and an unfruitful focus for scholarly energies

Perhaps the problem is a broader one that is reflective of the much documented but still apparent unwillingness of many

feminists to recognize and address difference in any of its manifestations Regardless even with the recent interest in

intersectionality which has necessarily renewed and reenergized debates in feminism about diversity and inclusion the

question of how women are differently positioned because of their non metropolitan location has remained largely overlooked

*Cry from the Cotton* Donald Grubbs,2000-07-01 The Southern

Tenant Farmers Union was founded in eastern Arkansas in 1934 to protest the New Deal s enrichment of Southern cotton

barons at the expense of suffering sharecroppers both black and white Their courageous struggle in the face of determined

and often violent resistance from their landlords is the subject of this thorough study from Donald H Grubbs which was published to critical acclaim in 1971 *Cry from the Cotton* was the first full scale look at the STFU and its leaders It discloses that although the union operated under noticeable socialist party sponsorship in its infancy it drew much more upon the native Southern evangelical and populist traditions much as the civil rights movement would do twenty five years later Grubbs convincingly demonstrates that while the STFU failed to gain immediate social justice for its members it resulted in the formation of the Farm Security Administration which even today continues to aid the rural poor and it played a large part in forcing the formation of the La Follette Civil Liberties Committee whose spotlight on management terrorism helped the CIO toward success The volume stands as a classic on labor issues and class struggle and still echoes with the haunting plea of the dispossessed for equity

**Bygone Utopias and Farm Protest in the Rural Midwest** Daniel Jaster, 2021-04-09 This book explores those who long for bygone utopias times before rapid culturally destructive social change stripped individuals of their perceived agency The case of the wave of foreclosure protests that swept through the rural American Midwest during the 1930s illustrates these themes These actions embodied a utopian understanding of agrarian society that had largely disappeared by the late 19th century hundreds to thousands of people fixed public auctions of foreclosed farms returning owners property and giving them a second chance to save their farm Comparisons to later movements including the National Farmers Organization and the protests surrounding the 1980s Farm Crisis highlight the importance of culturally catastrophic social change occurring at a breakneck pace in fomenting these types of bygone utopian actions These activists and movements should cause scholars to re think what it means to be conservative and how we view conservatism helping us better understand why we re seeing a contemporary resurgence in nationalist and reactionary movements across the globe
