Social Solidarity And The Gift:

Social Solidarity and the Gift Aafke E. Komter, 2004-11-15 This book brings together two traditions of thinking about social ties sociological theory on solidarity and anthropological theory on gift exchange The purpose of the book is to explore both how theoretical traditions may complete and enrich each other and how they may illuminate transformations in solidarity The main argument supported by empirical illustrations is that a theory of solidarity should incorporate some of the core insights from anthropological gift theory The book presents a theoretical model covering both positive and negative selective and excluding aspects and consequences of solidarity It is concluded that over the past century solidarity has undergone a fundamental transformation from Durkheim's organic solidarity to a type of solidarity which can be called segmented separate autonomous social segments connecting with other segments no longer out of necessity and mutual dependency but on the basis of individual choice Solidarity has thereby become more noncommittal

Women and Gift Exchange in Eighteenth-Century Fiction Linda Zionkowski, 2016-05-26 This book analyzes why the most influential novelists of the long eighteenth century centered their narratives on the theory and practice of gift exchange Throughout this period fundamental shifts in economic theories regarding the sources of individual and national wealth along with transformations in the practices of personal and institutional charity profoundly altered cultural understandings of the gift's rationale purpose and function Drawing on materials such as sermons conduct books works of political philosophy and tracts on social reform Zionkowski challenges the idea that capitalist discourse was the dominant influence on the development of prose fiction Instead by shifting attention to the gift system as it was imagined and enacted in the formative years of the novel the volume offers an innovative understanding of how the economy of obligation shaped writers' portrayals of class and gender identity property and community Through theoretically informed readings of Richardson's *Clarissa* and Sir Charles Grandison Burney's *Cecilia* and *The Wanderer* and Austen's *Mansfield Park* and *Emma* the book foregrounds the issues of donation reciprocity indebtedness and gratitude as it investigates the conflicts between the market and moral economies and analyzes women's position at the center of these conflicts As this study reveals the exchanges that eighteenth-century fiction prescribed for women confirm the continuing power and importance of gift transactions in the midst of an increasingly commercial culture The volume will be essential reading for scholars of the eighteenth-century novel economic literary criticism women and gender studies and book history

The Gift and its Paradoxes Olli Pyyhtinen, 2016-03-03 Bringing social theory and philosophy to bear on popular movies novels myths and fairy tales *The Gift and its Paradoxes* explores the ambiguity of the gift it is at once both a relation and a thing alienable and inalienable present and poison Challenging the nature of giving as reciprocal the book engages critically with the work of Mauss and develops a new theory of the gift according to which the gift cannot be reduced to a model of exchange but must instead entail a loss or sacrifice Ultimately the gift is examined in the book as the impossible occurrence of gratuitous giving In addition to exploring the conditions of

possibility and impossibility of the gift the book draws on the thought of figures such as Derrida Serres Simmel Cixous Irigaray and Heidegger to argue for the relevance of the phenomenon of the gift to broader issues in contemporary social sciences It takes up questions concerning the constitution of community and the processes by which people are included in or excluded from it gender relations materiality the economy and the possibility that death itself could be a gift in the form of euthanasia or self sacrifice A rigorous yet accessible examination of the phenomenon of the gift in relation to a range of contemporary concerns *The Gift and its Paradoxes* will appeal to scholars and students within sociology philosophy anthropology political theory and film and literature studies

An Analysis of Marcel Mauss's The Gift The Macat Team, 2017-07-05 Marcel Mauss's 1925 essay *The Gift* is an enduring classic of sociological and anthropological analysis by a thinker who is one of the founding fathers of modern anthropology *The Gift* exploits Mauss's high level analytical and interpretative skills to produce a brilliant investigation of the forms meanings and structures of gift giving across a range of societies Mauss along with many others had noted that in a wide range of societies especially those without monetary exchange or legal structures gift giving and receiving was carried out according to strict customs and unwritten laws What he sought to do in *The Gift* was to analyse the structures that governed how and when gifts were given received and reciprocated in order to grasp what implicit and unspoken reasons governed these structures He also wanted to apply his interpretative skills to asking what such exchanges meant in order to explore the implications his analysis might have for modern western cultures In Mauss's investigations it became clear that gift giving is in many cultures a crucial structural force binding people together in a web of reciprocal commitments generated by the laws of gifting Indeed he concluded gifts can be seen as the glue of society

The Medieval Warrior Aristocracy Andrew Cowell, 2007 A major reconsideration of the relationship between warrior aristocrats epics and heroes in medieval culture The process of identity formation during the central Middle Ages 10th 12th centuries among the warrior aristocracy was fundamentally centered on the paired practices of gift giving and violent taking inextricably linked elements of the same basic symbolic economy These performative practices cannot be understood without reference to a concept of the sacred which anchored and governed the performances providing the goal and rationale of social and military action After focussing on anthropological theory social history and chronicles the author turns to the literary persona of the

hero as seen in the epic He argues that the hero was specifically a narrative touchstone used for reflection on the nature and limits of aggressive identity formation among the medieval warrior elite the hero can be seen from a theoretical perspective as a supplement to his own society who both perfectly incarnated its values but also in attaining full integrity short circuited the very mechanisms of identity formation and reciprocity which undergirded the society The book shows that the relationship between warriors heroes and their opponents especially Saracens must be understood as a complex tri partite structure not a simple binary opposition in which the identity of each constituent depends on the other two ANDREW COWELL is Associate Professor of the Department of French and Italian and the Department of Linguistics at the University of Colorado

The Tsar's Happy Occasion Russell E. Martin, 2021-05-15 The Tsar's Happy Occasion shows how the vast ornate affairs that were royal weddings in early modern Russia were choreographed to broadcast powerful images of monarchy and dynasty Processions and speeches emphasized dynastic continuity and legitimacy Fertility rites blended Christian and pre Christian symbols to assure the birth of heirs Gift exchanges created and affirmed social solidarity among the elite The bride performed rituals that integrated herself and her family into the inner circle of the court Using an array of archival sources Russell E Martin demonstrates how royal weddings reflected and shaped court politics during a time of dramatic cultural and dynastic change As Martin shows the rites of passage in these ceremonies were dazzling displays of monarchical power

unlike any other ritual at the Muscovite court And as dynasties came and went and the political culture evolved so too did wedding rituals Martin relates how Peter the Great first mocked then remade wedding rituals to symbolize and empower his efforts to westernize Russia After Peter the two branches of the Romanov dynasty used weddings to solidify their claims to the throne The Tsar s Happy Occasion offers a sweeping yet penetrating cultural history of the power of rituals and the rituals of power in early modern Russia Sinews of the Nation Dan Lainer-Vos,2013-04-03 Fundraising may not seem like an obvious lens through which to examine the process of nation building but in this highly original book Lainer Vos shows that fundraising mechanisms ranging from complex transnational gift giving systems to sophisticated national bonds are organizational tools that can be used to bind dispersed groups to the nation Sinews of the Nation treats nation building as a practical organizational accomplishment and examines how the Irish republicans and the Zionist movement secured financial support in the United States during the first half of the twentieth century Comparing the Irish and Jewish experiences whose trajectories of homeland diaspora relations were very different provides a unique perspective for examining how national movements use economic transactions to attach disparate groups to the national project By focusing on fundraising Lainer Vos challenges the common view of nation building as only a matter of forging communities by imagining away internal differences he shows that nation building also involves organizing relationships so as to allow heterogeneous groups to maintain their difference and yet contribute to the national cause Nation building is about much more than creating unifying symbols it is also about creating mechanisms that bind heterogeneous groups to the nation despite and through their differences **Envisioning a future without food waste and food poverty** Leire Escajedo San-Epifanio,Mertxe De Renobales Scheifler,2023-08-07 Different factors have contributed to what is known as the Contemporary Food Paradox To express this more graphically let us say that more than a third of the food in the world is wasted while almost 800 million people suffer extreme malnutrition Now the Millennium Goals deadline expired we must set the targets for the Sustainable Development Goals for the next decades Many national and international organizations point out the imperative need to give an adequate reply to this paradox Food waste has important economic and environmental implications and in addition there is an undeniable ethical and social justice aspect Beyond the figures of hunger and malnutrition mothers the unweaned and small children die prematurely and young people experience a deficient physical and mental development All these people members of our human family oblige us to recognize their inherent dignity as human beings and their equal and inalienable rights In this work academics from fifteen countries and different disciplines discuss proposals and strategies in order to respond to the desire for a world without waste or food poverty *The Gift in Antiquity* Michael Satlow,2013-02-22 The Gift in Antiquity is an exciting and learned dialogue with Marcel Mauss s *The Gift Forms and Functions of Exchange in Archaic Societies* published ninety years ago The essays engage Mauss s model offering critique and nuance and sometimes push Mauss s insights far beyond what he had imagined While many anthologies are useful for the one or two essays they contain

this volume offers a tightly organized collection useful as a reader in classics religion or anthropology courses John S Kloppenborg University of Toronto *The Gift in Antiquity* offers a rousing demonstration of the lessons to be learned from Marcel Mauss's early insight that gift giving offers a privileged way to understand social relations and social obligations The book brims with the excitement of scholars from different disciplines building on a common theoretical tool to offer new perspectives on topics in their own fields as well as on the foundational concept of the gift itself It is a book that all scholars of the ancient Mediterranean and Near East as well as all scholars interested in the gift will want to read David I Kertzer Brown University In his seminal essay *The Gift* 1922 French sociologist Marcel Mauss proposed an original theoretical framework for thinking about gift giving practices Emphasizing that all gifts were total social facts that created bonds of reciprocity between communities and individuals Mauss's framework has been fundamental in anthropological research *The Gift in Antiquity* applies Mauss's notion of gift giving as a catalyst in strengthening group bonds to the study of antiquity This thought provoking collection of 14 original essays covers such wide ranging topics as vows in the Hebrew Bible ancient Greek wedding gifts Hellenistic civic practices Latin literature Roman and Jewish burial practices and Jewish and Christian religious gifts along with wider theoretical and methodological reflections Collectively the essays open up a cross cultural dialogue that generates new ways of thinking about both antiquity and theories of gift giving and reciprocity *The Gift in Antiquity* offers illuminating insights into the enduring value of Mauss's work and the influential nature of reciprocity and exchange throughout the course of history
