Social System and Tradition in Southern Africa Eileen Jensen Krige, 1978

The Zulu-Boer War 1837-1840 Michał Leśniewski, 2021-04-19 This book offers an in depth examination of the conflict of 1838 to 1840 between the Zulus and the Boers Le niewiczski reflects on the established historiography and reappraises some key conceptions of the war The conflict has often been seen as a colonial war with the Zulus cast into the role of either villains or victims Drawing on written primary sources and Zulu oral tradition the author instead argues that the war was a struggle between an established regional power aiming to defend and consolidate its position and an incoming power seeking land settlement and local supremacy

The Creation of the Zulu Kingdom, 1815-1828 Elizabeth A. Eldredge, 2014-10-30 This scholarly account traces the emergence of the Zulu Kingdom in South Africa in the early nineteenth century under the rule of the ambitious and iconic King Shaka In contrast to recent literary analyses of myths of Shaka this book uses the richness of Zulu oral traditions and a comprehensive body of written sources to provide a compelling narrative and analysis of the events and people of the era of Shaka s rule The oral traditions portray Shaka as rewarding courage and loyalty and punishing failure as ordering the targeted killing of his own subjects both warriors and civilians to ensure compliance to his rule and as arrogant and shrewd but kind to the poor and the mentally disabled The rich and diverse oral traditions transmitted from generation to generation reveal the important roles and fates of men and women royal and subject from the perspectives of those who experienced Shaka s rule and the dramatic emergence of the Zulu Kingdom

The Social and Sexual Roles of Hima Women Yitzchak Elam, 1973 *The Land Is Sung* Thomas M. Pooley, 2023-10-17 What does it mean to belong In *The Land is Sung* musicologist Thomas M Pooley shows how performances of song dance and praise poetry connect Zulu communities to their ancestral homes and genealogies For those without land tenure in the province of KwaZulu Nata performances articulate a sense of place Migrants express their allegiances through performance and spiritual relationships to land are embodied in rituals that invoke ancestral connection while advancing well being through intergenerational communication Engaging with justice and environmental ethics education and indigenous knowledge systems musical and linguistic analysis and the ethics of recording practice Pooley s analysis draws on genres of music and dance recorded in the midlands and borderlands of South Africa and in Johannesburg s inner city His detailed sound writing captures the visceral experiences of performances in everyday life The book is richly illustrated and there is a companion website featuring both video and audio examples

Kingdom in Crisis John Laband, 1992 *The State and the Social* Ørnulf Gulbrandsen, 2012 The development of Tswana merafe kingdoms and the arrival of Christianity and colonialism Tswana consolidation within the colonial State development of a postcolonial State embryo Cattle diamonds and the grand coalition The State and indigenous authority

H. Reader,1966 The Eight Zulu Kings John Laband,2018-08-17 In Eight Zulu Kings well respected and widely published historian John Laband examines the reigns of the eight Zulu kings from 1816 to the present Starting with King Shaka the renowned founder of the Zulu kingdom he charts the lives of the kings Dingane Mpande Cetshwayo Dinuzulu Solomon and Cyprian to today s King Goodwill Zwelithini whose role is little more than ceremonial In the course of this investigation Laband places the Zulu monarchy in the context of African kingship and tracks and analyses the trajectory of the Zulu kings from independent and powerful pre colonial African rulers to largely powerless traditionalist figures in post apartheid South Africa Sources of the African Past David Robinson,Douglas K. Smith,1999 Sources of the African Past combines a case study approach with an emphasis on primary and orally transmitted sources to accomplish three objectives to tell a story in some depth to portray major themes and to raise basic questions of analysis and interpretation The case studies are set in the nineteenth century and deal with critical periods in the fortunes of five societies in different parts of the continent South East and West Africa The authors wish students to work with the raw materials of history and to that end have provided a workbook for a laboratory experience Sources of the African Past is designed for use in a wide variety of courses and in conjunction with other texts The authors have kept their own interpretations to a minimum and invited scrutiny of their decision of selection and arrangement They chose the cases on the basis of several criteria geographical coverage abundance and diversity of primary sources importance in the secondary literature and relevance to important historical problems All the studies emphasize political change All witness some growth in European intervention In selecting the documents the authors sought a balance of perspective without sacrificing accuracy and relevance This means a conscious effort to present a variety of views African and European internal and external participant and observer those of the victims as well as those of the victors those of the people as well as those of the elite Within the limitations of space they have made the excerpts sufficiently long to allow the reader to examine the author s style purpose and other characteristics Keeping in mind the limitations of libraries they have attempted to make each chapter self contained Christianity and Social Systems Rosemary Radford Ruether,2009 From the earliest interactions of Christians with the Roman Empire to today s debates about the separation of church and state the Christian churches have been in complex relationships with various economic and political systems for centuries Renowned theologian Rosemary Radford Ruether analyzes the ways the Christian church has historically interacted with powerful systems such as patriarchy racism slavery and environmentalism while looking critically at how the church shapes these systems today With a focus on the United States Christianity and Social Systems provides an introductory analysis of the interactions between the churches and major systems that have shaped western Christian and

post Christian society Ruether discusses ideologies such as liberalism and socialism and includes three country case studies Nicaragua South Africa and North and South Korea to further illustrate the profound influences Christianity and social systems have with each other This book is neither an attack on the relationship between Christianity and these systems nor an apology but rather a nuanced examination of the interactions between them By understanding how these interactions have shaped history we can more fully understand how to make ethical decisions about the role of Christianity in some of today s most pressing social issues from economic and class disparities to the environmental crisis **Transnational**

Religious Spaces Philip Clart,Adam Jones,2020-07-06 This volume bringing together work by scholars from Europe East Asia North America and West Africa investigates transnational religious spaces in a comparative manner by juxtaposing East Asian and African examples It highlights flows of ideas actors and organizations out of into or within a given continental space These flows are patterned mainly by colonialism or migration The book also examines cases where the transnational space in question encompasses both East Asia and Africa notably in the development of Japanese new religions in Africa Most of the studies are located in the present a few go back to the late nineteenth century The volume is rounded off by Thomas Tweed s systematic reflections on categories for the study of transnationalism his chapter Flows and Dams critically weighs the metaphorical language we use to think speak and write about transnational religious spaces *African Systems of*

The Cambridge History of the British Empire Eric Anderson Walker,1963 **Feuding and Warfare** Keith F.

Otterbein,2020-12-22 Originally published in 1994 the late Keith F Otterbein s scholarship had followed an overall design since 1962 when he began conducting comparative studies of warfare using both ethnographic and cross cultural methods Through a conceptual framework derived from systems theory he made signal contributions to our understanding of the role of warfare in human social evolution He formulated a Fraternal Interest Group theory utilizing it to explain not only feuding and warfare but also rape and capital punishment Believing that armed combat is learned behaviour he posed questions about its learning process that had yet to be answered He acted as a major synthesizer of the growing literature on warfare

and led attempts among anthropologists to apply their knowledge of war and peace to current events This volume will serve both as a useful introduction to the anthropology of war and as a needed compendium of Professor Otterbein's ideas

Reimagining Social Medicine from the South Abigail H. Neely, 2021-07-12 In *Reimagining Social Medicine from the South* Abigail H Neely explores social medicine's possibilities and limitations at one of its most important origin sites the Pholela Community Health Centre PCHC in South Africa The PCHC's focus on medical and social factors of health yielded remarkable success And yet South Africa's systemic racial inequality hindered health center work and witchcraft illnesses challenged a program rooted in the sciences To understand Pholela's successes and failures Neely interrogates the social in social medicine She makes clear that the social sciences the PCHC used failed to account for the roles that Pholela's residents and their environment played in the development and success of its program At the same time the PCHC's reliance on biomedicine prevented it from recognizing the impact on health of witchcraft illnesses and the social relationships from which they emerged By rewriting the story of social medicine from Pholela Neely challenges global health practitioners to recognize the multiple worlds and actors that shape health and healing in Africa and beyond

The Anglo Zulu War: Isandlwana Ron Lock, 2017-10-30 A concise history of the Battle of Isandlwana the first encounter of the Anglo Zulu War in 1879 In 1878 H M High Commissioner for Southern Africa and the Lieut General Commanding H M Forces clandestinely conspired to invade the Zulu Kingdom Drastically underestimating their foe the invaders had been vanquished within days of entering the Zulu Kingdom in one of the greatest disasters ever to befall a British army The author not only dramatically describes the events leading up to the Battle of Isandlwana and the battle itself but with new evidence disputes many aspects of the campaign long held sacrosanct Praise for *The Anglo Zulu War Isandlwana* It offers a controversial but compelling account of the battle that underlines the consequences of operational arrogance and underestimating the fighting abilities of a less technologically equipped enemy something that should resonate with all those who serve Soldier This is a book that should be on the bookshelves of everyone who is interested in the history of South Africa The South African Military Society
