Security: Welfare, Crime And Society Cochrane, Allan,Talbot, Deborah,2008-10-01 Why is the concept of security so important in modern society Why do people and governments invest so much in the pursuit of different forms of security How do we make sense of the changing nature of the relationship between security and insecurity This book focuses on the concept of security as an idea an ideal and a practice and explores the ways in which it can shed light on the relationship between welfare and crime and the ambiguities

that arise from them The authors investigate these issues by examining particular areas of social life and policy development with a focus that ranges from global to local and neighbourhood concerns The book is integrated with engaging activities such as case studies review and reflection sections Adopting an inter disciplinary approach to explore criminological and social policy perspectives the chapters reflect the increasingly blurred area between social and crime control policy and the way in which it is managed The contributors delve into the consequences and implications of policies and practices aimed at creating security which can all too often have the opposite effect Security is key reading for students in criminology social policy and social justice **Crime, Justice and Human Rights** Leanne Weber, Elaine Fishwick, Marinella

towards behaving in a way that contravenes the Law of the Land is not an easy one to address Researchers from various different fields have nevertheless attempted to develop theoretical explanations for the existence of different types of crime and why some individuals commit such acts Crime and Criminality draws on criminology sociology psychology and neuroscience to offer a balanced perspective of crime the criminal and criminality Coverage includes a comprehensive discussion of theoretical approaches to criminal behaviour including biological social and rational choice approaches an analysis of legal and social definitions of crime and how these definitions influence the way specific behaviours are labelled as criminal an examination of different types of crime and criminals from delinquents to psychopaths and sex offenders an exploration of different ways in which crime is predicted including risk assessment and offender profiling and an overview of investigative techniques Addressing a broad range of topics and offering a synthesis of competing theoretical explanations of criminality this book is essential reading for students taking courses in criminology criminal psychology criminal behaviour forensic psychology and psychological criminology *Nineteenth-Century Crime and Punishment* Victor Bailey, 2022-07-30

Crime and Transition in Central and Eastern Europe Alenka Šelih, Aleš Završnik, 2012-04-24. Full scale political change affects every level of a society but perhaps nowhere as strikingly as in the areas of crime policy and law enforcement. Over the past two decades the European nations that have moved from totalitarianism toward democracy have come to embody this trend yet reliable sources on crime and law enforcement in these countries have not been readily accessible to the West. Representing viewpoints seldom available to outsiders the contributors to *Crime and Transition in Central and Eastern Europe* analyze changes in criminal activities and crime control strategies in the region explain the political background underlying these developments and assess their long term social impact. Experts from Slovenia Hungary Croatia Serbia the Czech Republic Poland Bosnia and Herzegovina discuss the politicization of crime the ongoing paradoxes regarding civil liberties and the future of crime policy in comparative and

country specific terms Among the topics featured in the book Crime and crime control in transitional countries politics the media and public perception of crime surveillance from national security to private industry penal policy and political change emerging trends economic and organized crime human trafficking juvenile delinquency new perspectives on corruption in the region With this fascinating insight Crime and Transition in Central and Eastern Europe is a singular reference for researchers and policymakers in criminology and political science and historians with a special interest in European affairs and policy

Crime and Society in England Clive Emsley, 2013-09-13 Acknowledged as one of the best introductions to the history of crime in the eighteenth and nineteenth centuries Crime and Society in England 1750 1900 examines the developments in policing the courts and the penal system as England became increasingly industrialised and urbanised The book challenges the old but still influential idea that crime can be attributed to the behaviour of a criminal class and that changes in the criminal justice system were principally the work of far sighted humanitarian reformers In this fourth edition of his now classic account Professor Emsley draws on new research that has shifted the focus from class to gender from property crime to violent crime and towards media constructions of offenders while still maintaining a balance with influential early work in the area Wide ranging and accessible the new edition examines the value of criminal statistics the effect that contemporary ideas about class and gender had on perceptions of criminality changes in the patterns of crime developments in policing and the spread of summary punishment the increasing formality of the courts the growth of the prison as the principal form of punishment and debates about the decline in corporal and capital punishments Thoroughly updated throughout the fourth edition also includes for the first time illuminating contemporary illustrations

Crime And Politics in India Dr. V.V.L.N. Sastry, 2020-04-20 Criminalization of politics is one of the major problems facing India There has been an increase in the number of politicians with criminal backgrounds who have been elected as legislative representatives in the past few decades This raises the question as to why Indians elect criminal politicians The causes of crime in India are classified into social economic political geographic mental and psychological and biological Criminalization of politics in India takes many forms and include electoral fraud political candidates with criminal backgrounds contesting elections use of muscle power in mobilizing voters political scams bureaucratic scams and politicians protecting criminal gangs Some of the causes of criminalization of politics in India include political control of the police state money corruption weak laws and abuse of discretion lack of intraparty democracy transparency lack of ethics or values vote bank politics and loopholes in the functioning of the Election Commission Ignorance due to illiteracy is prevalent as approximately 25% of the population are illiterate Ethnic identity is the most important factor in Indian politics Ethnic identity includes caste religion and language Competition over local dominance among various social groups is one of the major factors that makes Indian voters elect politicians with a criminal history Most of the media houses have their political affiliations and they continue to indulge in perception mapping of public Indian voters elect criminals due to the perceived benefits they would receive from them since

the politicians would have huge discretionary powers over the implementation of policies that facilitate the distribution of benefits to the public Indian voters also vote for politicians with a criminal record due to being coerced Candidates with criminal links provide the electorate with a form of social insurance The ability of candidates with criminal links to provide platforms that facilitate dispute resolutions is also one of the factors that make Indian voters choose politicians with criminal links Having a weak rule of law in India is the major factor that has led to the thriving of the alternative forms of dispute resolution The election of candidates with a criminal record has several impacts It leads to an increase in the level of political control of the police The criminal politicians can use the police to achieve their personal goals The governance delivered by the criminal politicians may contradict the prevailing principles of good governance in a democratic system For instance they may engage in practices that favor certain groups within the society to the detriment of other groups Politicians with a criminal background create negative economic impacts These politicians can use their discretionary powers in the allocation of public resources to the state controlled corporations to engage in corrupt activities that enrich them or their benefactors Therefore they may embezzle public resources or allocate the public resources to private parties for their refinement or development which would have a negative impact on the welfare of the residents of the region Criminal politicians can also treat public resources as their personal assets and use them to engage in various criminal activities It would lead to the breakdown of the rule of law since the politicians would support criminal activities conducted by their cronies This may lead to the proliferation of criminal organization which would be a threat to peace and security and also lead to the loss of public faith in the credibility of the judiciary The situation is alarming and needs to be controlled before it goes out of hand and threatens the future social economic development of the country These are the major issues that are discussed in this book
