Agricultural and Pastoral Landscapes in Pre-Industrial Society Fèlix Retamero,Inge Schjellerup,Althea Davies,2014-12-01 Through a series of case studies this third volume in the Earth series deals with the technological constraints and innovations that enabled societies to survive and thrive across a range of environmental conditions The contributions are structured into three sections to draw out particular commonalities and contrasts in the choices made by pre industrial communities in the construction of varied landscapes and cultural heritage Landnam from the Old Norse for taking of land deals with colonization including the drivers and processes through which colonizers developed an understanding of the productive potential and limitations of their new lands Fields and field systems Field walls are a distinctive and apparently timeless characteristic of many pre industrial farming landscapes but they present many the challenges to their study such as the effects of plowing abandonment and land use change and of urban development in fertile lowland zones which may eradicate reduce or conceal past systems of land use and division The importance of indirect and proxy evidence is illustrated and the value of interdisciplinary and modeling approaches emphasized Agro pastoralism focuses on the complex time space adaptations devised for managing cultivation and livestock production particularly the need to prevent stock incursions into arable fields during the growing season whilst making effective use of seasonal grazing resources The contributions focus on mountainous areas where temporary migrations in the form of transhumance provided access to a diversity of resources based around seasonal constraints on their availability and productivity **Rites of August First** Jeffrey R. Kerr-Ritchie,2007-08-01 Thirty years before Lincoln issued the Emancipation Proclamation the antislavery movement won its first victory in the British Parliament On August 1 1834 the Abolition of Slavery Bill took effect ending colonial slavery throughout the British Empire Over the next three decades August First Day also known as West

India Day and Emancipation Day became the most important annual celebration of emancipation among people of African descent in the northern United States the British Caribbean Canada West and the United Kingdom and played a critical role in popular mobilization against American slavery In *Rites of August First* J R Kerr Ritchie provides the first detailed analysis of the origins nature and consequences of this important commemoration that helped to shape the age of Anglo American emancipation Combining social cultural and political history Kerr Ritchie discusses the ideological and cultural representations of August First Day in print oratory and visual images Spanning the Western hemisphere Kerr Ritchie's study successfully unravels the cultural politics of emancipation celebrations analyzing the social practices informed by public ritual symbol and spectacle designed to elicit feelings of common identity among blacks in the Atlantic World *Rites of August First* shows how and why the commemorative events changed between British emancipation and the freeing of slaves in the United States a generation later while also examining the connections among local regional and international commemorations While shedding light on an important black institution that has been long ignored *Rites of August First* also contributes to the broader study of emancipation and black Atlantic identity Its transnational approach challenges local and national narratives that have largely shaped previous investigations of these questions Kerr Ritchie shows how culture and community were truly political at this important historical moment and most broadly how politics and culture converge and profoundly influence each other
