the identification of international legal rules with a view to expanding international law The book seeks to revitalize and refresh the formal identification of rules by engaging with some tenets of the postmodern critique of formalism As a result the book not only grapples with the practice of law making at the international level but it also offers broad theoretical insights on international law dealing with the main schools of thought in legal theory positivism naturalism legal realism policy oriented jurisprudence and postmodernism This paperback edition features the author's discussion of this book on the EJIL Talk blog

Postmodernism is Not What You Think Charles C. Lemert, 2015-12-03 Charles Lemert is one of the most thoughtful and interesting of sociology's postmodernists He recurrently finds new angles of vision and is especially helpful for overcoming the pernicious opposition of micro and macro perspectives Craig Calhoun New York University on the first edition Highly readable the second edition of *Postmodernism Is Not What You Think* responds to the widespread claim that postmodernism is over It explains the historical connections between the postmodern and globalization Those who wish to kill the term postmodernism still must face the facts that the former nationalistic world system has collapsed and is slowly being replaced by a more global set of structures The book is completely revised and updated with an entirely new section on globalization The media and popular culture identity politics the science wars politics and cultural studies structuralism and poststructuralism and the new sociologies are also put in perspective as signs of the new social formations dawning at the end of the modern age Lemert shows that the postmodern is less a theory than a condition of social life brought about by the trouble modernity has gotten itself into
