## **Social History Of Labor In The Middle East:**

**The Social History Of Labor In The Middle East** Ellis Goldberg, 2019-07-11 Once considered of little import the social history of labor in the Middle East emerged in the 1980s as a major area of research as historians sought to uncover the roots of working class organizing This volume the first in an important new series presents a broad overview of recent literature on the history of workers in the Middle East since 1800 in a bold effort to bring together new directions in research and to reexamine the relevance of established ones Contributors explore the history of labor by situating state led industrialization within the context of older artisanal social communities They examine how industrialization enhanced government control over the economy as a whole and analyze the public's reaction to centralized economic authority They also explain the longevity of social coalitions supporting state industrial monopolies and examine their breakdown along with the emergence of Islamist and other oppositional movements Taken together the essays provide a historically grounded context for viewing the shifting relationship between states and the world economy as well as between particular states and classes and form a rich synthesis of current interdisciplinary literature on work and workers in the region The Social History of Labor in the Middle East Ellis Goldberg, 2017 The social history of labor in the Middle East emerged in the 1980s as a major area of research as historians sought to uncover the roots of working class organizing This volume the first in an important new series presents a broad overview of recent literature on the history of workers in the Middle East since 1800 in a bold effort to bring together new directions in research and to reexamine the relevance of established ones Taken together the essays provide a historically grounded context for viewing the shifting relationship between states and the world economy as well as between particular states and classes *Workers and Working Classes in the Middle East* Zachary Lockman, 1994-01-01 This book brings together for the first time the work of many of the leading scholars in the field of Middle East working class history Using historical material from nineteenth century Syria late Ottoman Anatolia republican Turkey Egypt from the late nineteenth century through the Sadat period Iran before and after the overthrow of the Shah and Ba thist Iraq the authors explore different forms and interpretations of working class identity action and organization as expressed in language culture and behavior In addition they examine different narratives of labor history and the place of workers in their respective national histories Included are articles by Feroz Ahmad Assef Bayat Joel Beinin Edmund Burke III Dipesh Chakrabarty Eric Davis Ellis Goldberg Kristin Koptiuch Zachary Lockman Marsha Pripstein Posusney Donald Quataert and Sherry Vatter The book provides not only an introduction to the state of the field in Middle East working class history but also demonstrates how that field is being influenced by the new paradigms which are transforming labor history and social history more broadly worldwide It also opens the way for fruitful comparisons among Middle Eastern countries and between the Middle East and other parts of the world State Power and Politics in the Making of the Modern Middle East Lecturer in the Recent Economic History of the Middle East and Fellow Roger Owen, Roger Owen, 2002-04-12 Roger

Owen has fully revised and updated his authoritative text to take into account the considerable developments in the Middle East in the 1990s

**Marxist Historiographies** Q. Edward Wang, Georg G. Iggers, 2015-07-16 Marxist Historiographies is the first book to examine the ebb and flow of Marxist historiography from a global and cross cultural perspective Since the eighteenth century few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist historiography throughout a wider region Taking a truly global perspective on this topic Marxist Historiographies demonstrates clearly the breadth and depth of Marxism s influence in historical writing throughout the world and is essential reading for all students of historiography

Trade Unions and Arab Revolutions Heba F. El-Shazli, 2019-05-24 We started the 2011 revolution and the rest of Egypt followed say Egyptian workers with strong conviction and passion Egyptian independent workers continuous claims of contention and protest repertoires were one of several main factors leading to the January 25 2011 uprising After thirty two years of a Mubarak led authoritarian regime massive protests began in January 2011 and forced President Mubarak to step down from his position on February 11 2011 So how did Egyptian workers challenge the regime and how did they become one of the factors leading to the January 2011 uprising These workers were organized into loose networks of different independent groups that had been protesting for a decade and longer prior to January 2011 These regular protests for over a decade before 2011 challenged the Egyptian authoritarian regime This book examines the combative role of Egyptian independent workers formal and informal organizations as a contentious social movement to challenge the regime It will examine the evolving role of workers as socio economic actors and then as political actors in very political transitions Social movement theory SMT and its mechanisms and social movement unionism SMU will be the lenses through which this research will be presented The methodology used will be the comparative case studies of two different movements where workers who advocated for their rights for a decade prior to January 2011 experienced significantly differing outcomes One case study showcases the municipal real estate tax collection workers who were able to establish a successful social movement and then create an independent trade union The second case study examines an influential group of garment and textile workers who also developed an effective social movement yet they were not able to take it to the next step to establish

an independent union I will explore within this research a second question why one group of workers was able to establish an independent union while the other arguably more influential group of workers the garment and textile workers was not able to do so This had an impact on the overall influence they were able to exercise over the regime in addition to their effectiveness as a social movement for change

Soldiers, Shahs and Subalterns in Iran S. Cronin, 2010-10-27 Against conventional views of the unchallenged hegemony of a modernizing monarchy this book argues that power was continuously contested in Riza Shah's Iran Cronin excavates the successive challenges to Riza Shah's regime posed by a range of subaltern social groups and seeks to restore to these groups a sense of their historical agency

**Re-Envisioning Global Development** Sandra Halperin, 2013-04-17 Re Envisioning Global Development offers an original conceptualisation of capitalist development from its origins to the present day Most approaches to understanding contemporary development assume that industrial capitalism was achieved through a process of nationally organised economic growth and that in recent years its organisation has become increasingly trans local or

global However Halperin shows that nationally organised economic growth has rarely been the case it has only recently come to characterise a few countries and for only a few decades This innovative text elaborates an alternative ontology and way of thinking about global development during the last two centuries one linked not to nations and regions but to a set of essentially trans national relations and connections It argues that capitalist development has everywhere and from the start involved not whole nations or societies but only sectors or geographical areas within states By bringing this aspect of historically normal capitalist development into clearer focus the book clarifies the specific conditions and circumstances that enabled European economies to pursue a more broad based development following World War II and what prevented a similar outcome in the contemporary third world It also clarifies the nature spatial extent and circumstances of current globalising trends Wide ranging and provocative this book is required reading for advanced level students and scholars in development studies development economics and political science
