Social Impact Assessment:

New Directions in Social Impact Assessment Frank Vanclay, Ana Maria Esteves, 2011-01-01 This book should be read by anyone commissioning impact assessments who wants to build their understanding of the more progressive and innovative end of the topic. A job well done in the eyes of stakeholders and regulators requires proper social analysis. Jon Samuel Head of Social Performance, Anglo American. The list of authors reads like a who's who in SIA. Academics and practitioners are equally represented among the authors. The book provides a good mix of broad theoretical concepts and specific practical topics. Martin Haefele, Manager Environmental Impact Assessment at Mackenzie Valley Environmental Impact Review Board, Yellowknife, Northwest Territories, Canada. This book gives a very broad overview of where Social Impact Assessment is coming from, where it is now, and where it could go, from an impact assessment tool to an impact management tool. It provides a realistic insight into both the achievements and the struggles of Social Impact Assessment. A recommended read for both those interested in Social Impact Assessment and those in related domains where social issues are gaining increasing importance, such as Environmental Assessment and Sustainability Appraisal. Rob Verheem, Deputy Director, Netherlands Commission for Environmental Assessment. This important new book outlines current developments in thinking in the field of Social Impact Assessment (SIA). It advances the theory and practice of SIA and argues that a dramatic shift is required in the way socioeconomic studies and community participation is undertaken. The book emphasizes that much more than the act of predicting impacts in a regulatory context, SIA needs to be the process of managing the social aspects of development, and that there needs to be a holistic and integrated approach to impact assessment. It stresses that greater attention needs to be given to ensuring that the goals of development are attained and enhanced. This significant addition to the literature will be an invaluable reference for academics, consultants, and practitioners.

The International Handbook of Social Impact Assessment H. A. Becker, Frank Vanclay, 2003-01-01 This book provides a valuable addition to the Social Impact Assessment (SIA) literature. While the volume addresses several good examples of how to do case studies, it also firmly addresses the importance of the need for firm conceptual and theoretical guidelines for SIA practice. The volume is an excellent contribution to the SIA literature, and I highly recommend it to both practitioner and researcher alike. Geoff Syme, *Australasian Journal of Environmental Management*. An innovative collection which takes social impact assessment to the frontiers of environmental and social policy and citizen awareness. Unusually, this collection includes both sophisticated quantitative tools and equally important chapters on participation, stakeholder involvement, and environmental mediation. A most valuable source book. Michael Redclift, King's College London, UK. Social Impact Assessment (SIA) is the process of analysing and managing the intended and unintended consequences on the human environment of planned interventions, policies, programmes, plans, projects, so as to bring about a more sustainable and equitable biophysical and human environment. This important Handbook presents an indispensable overview of the range of new methods and of the conceptual advances in SIA. Recent increased

attention to social considerations has led to substantial development in the techniques useful to and the thinking in SIA A distinguished group of contributors provides an up to date and comprehensive account of the cutting edge in SIA development This Handbook outlines a new understanding and definition of SIA and as such will be an invaluable reference tool for both practitioners and scholars at different levels working in the fields of SIA and environmental studies including both impact assessment and management *A Conceptual Approach to Social Impact Assessment* Rabel J. Public Involvement And Social Impact Assessment Gregory Daneke, Jerome Delli Priscoli, Margot Garcia, 2019-06-04 The participation of the public sector in assessing the social impact of a wide range of projects is the focus of this groundbreaking book. Leading experts from the U.S. and Canada have contributed original articles based on their empirical research conducted in current impact situations. These are supplemented by the editors' analytical overviews. The book concludes with projections regarding future linkages between public involvement and social impact assessment. Dr Gregory A. Daneke is an associate professor of public affairs and business administration at Arizona State University. He has co-edited *Energy Policy and Public Administration* (1980) and co-authored *Performance Administration: Improved Responsiveness and Effectiveness in Public Services* (1980). Dr Margot W. Garcia is a program analyst with the USDA Forest Service as part of a nationwide training program for the Forest Service in land management planning; she taught public involvement and land management planning. Dr Jerome Delli Priscoli is a senior policy analyst at the Institute for Water Resources, U.S. Army Corps of Engineers, Ft. Belvoir, Virginia.
