Social Organizations:

Social Organizations Göran Ahrne, 1994-07-05 In this lively and wide ranging essay Göran Ahrne sketches an organizational theory of society Combining the insights of organization theory with the traditional concerns of social theory he makes an innovative and creative contribution to both fields Using a broad definition of organizations the author shows that what goes on inside outside and among organizations is central to understanding social relations Organizations provide people with resources and motives and they set the frames for human action Although organizations do not form societies or systems society is shaped and changed through interaction between organizations Drawing on various schools of organization theory including institutional ecological and contingency theories the book shows how their synthesis with social theory clarifies the nature and effects of organizational interactions

Social Organizations and the Authoritarian State in China Timothy Hildebrandt, 2013-02-18 Received wisdom suggests that social organizations such as non government organizations NGOs have the power to upend the political status quo However in many authoritarian contexts such as China NGO emergence has not resulted in this expected regime change In this book Timothy Hildebrandt shows how NGOs adapt to the changing interests of central and local governments working in service of the state to address social problems In doing so the nature of NGO emergence in China effectively strengthens the state rather than weakens it This book offers a groundbreaking comparative analysis of Chinese social organizations across the country in three different issue areas environmental protection HIV AIDS prevention and gay and lesbian rights It suggests a new way of thinking about state society relations in authoritarian countries one that is distinctly co dependent in nature governments require the assistance of NGOs to govern while NGOs need governments to extend political economic and personal opportunities to exist

Interacting Complexities of Herds and Social Organizations Stanislaw Raczyński, 2019-09-05 This book presents examples of and the latest simulation studies on artificial societies and populations highlighting innovative implementations of various models of artificial societies and populations using a new C related simulation tool It demonstrates that the prey predator models including spatial distribution moving patterns limited renewable food fear gregarious herd instinct clustering epidemics and competition are more complex than other publications have suggested and highlights the great discrepancy between agent based and conventional continuous models The book also discusses the modeling and simulation of self organization and interactions between organizations including terror organizations offering fascinating insights into organizational dynamics The book provides a broad range of examples and comparisons with the classical dynamics approach showing readers how to construct models of complex systems It starts with descriptions of the behavior of interacting individuals and also includes important information on the macro behavior of the whole system

Emotional and social value of organizations Virginia Barba-Sánchez, Jose Luis Retolaza, Leire San-Jose, Adrian Zicari, 2023-01-05 *Globalizing China - Social and Governance Reforms* Ka Ho Mok, 2022-12-30 Unlike most books which consider China's transformation

and globalization over the last four decades by focusing on China's economic growth this book examines how the Chinese regime has handled the increasingly complex sociopolitical and socio-economic challenges generated as a result of the country's economic growth and transformation challenges arising both from within the country and also from the external political environment Based on extensive original research the book outlines how China's economic development has generated social and governance pressures discusses the government's social educational and governance reforms and highlights how China's development experiences which differ from the Western economies with democratic political regimes have drawn increasing attention from other countries in the developing world as an example to follow

Human Behavior in the Social Environment Anissa Taun Rogers, 2016-04-14 This addition to Anissa Rogers bestselling *Human Behavior in the Social Environment* expands the original text with new chapters on spirituality families and groups organizations and communities Written in the compact concise manner of the original text the new chapters cover mezzo and macro contexts and offer additional material valuable to two and three semester HBSE courses

Global Trends in Public Sector Reform Michel S. de Vries, Juraj Nemec, 2012-12-20 Have the underlying ideas behind New Public Management NPM been forgotten This book investigates whether this idea is reflected in the real world of public administration or if it is mere wishful thinking The investigations in this volume comprise studies of not only European countries but also major Asian African and Latin American countries that is countries of which much less is known regarding the developments in Public Administration reform It provides the reader with a remarkable overview of what is actually happening in countries all over the world More importantly the chapters provide ample information which is indicative for an answer to the question raised above What has remained of NPM and what is the role of NPM tools in public administration today

Middle-Income Trap Zhijie Zheng, 2020-09-21 This book explores the essence of the middle income trap based on two major perspectives namely economic transformation and social transformation China has experienced high speed economic growth for nearly 40 years since the adoption of the Reform and Opening policies However China's economic growth has been slowing down significantly in recent years Has China tumbled into the middle income trap This book reveals the essence of the middle income trap is that a country's economic growth is facing a double squeeze in the middle income stage while the social structure and system are unsuitable for the new social development stage which leads to economic stagnation or recession and the aggravation of social contradictions that is the double predicament of economic transformation and social transformation This judgment is of great value for understanding the problems encountered in the current development of China

NGOs in China and Europe Yuwen Li, 2016-05-06 This volume presents a comparison of the experiences of NGOs in China and Europe The chapters on China contain the most comprehensive and up to date analysis of various types of NGOs currently active in the country The contributions on foreign NGOs in China non governmental think tanks public interest legal organizations labour related NGOs and charity organizations are the first in English to discuss successful experiences

as well as the difficulties they face in the post Mao era The European studies draw examples from countries where the experiences of NGOs are at various stages of development The section on NGOs in Central and Eastern Europe examines the rapid expansion of civil society and their pivotal role in promoting political change and building democracy in a transitional society as well as the challenges they confront in advancing a strong civil society Those chapters on NGOs experiences in Western European countries especially in the Netherlands and the UK provide insightful information and examination of the most contentious issues concerning NGOs accountability governance and relationship with the government **Advances in**
