Social Origins of the Irish Land War Samuel Clark, 1979 **Nationalism and Popular Protest in Ireland** Charles H. E. Philpin, 2002-08-08 Essays on Irish nationalism some on particular protest movement others on more general themes

Ireland, Sweden, and the Great European Migration, 1815-1914 Donald Harman Akenson, 2011-08-23 This book is the product of Donald Akenson's decades of research and writing on Irish social history and its relationship to the Irish diaspora it is also the product of a lifetime of trying to figure out where Swedish America actually came from and why These two matters Akenson shows are intimately related Ireland and Sweden each provide a tight case study of a larger phenomenon one that for better or worse shaped the modern world the Great European Diaspora of the true nineteenth century Akenson's book parts company with the great bulk of recent emigration research by employing sharp transnational comparisons and by situating the two case studies in the larger context of the Great European Migration and of what determines the physics of a diaspora no small matter as the concept of diaspora has become central to twenty first century transnational studies He argues against the increasing refusal of mainstream historians to use empirical databases that the history community still has a lot to learn from economic historians and simultaneously that despite the self confidence of their proponents narrow economically based explanations of the Great European Migration leave out many of the most important aspects of the whole complex transaction Akenson believes that culture and economic matters both count and that leaving either one on the margins of explanation yields no valid explanation at all Politics and the Irish Working Class, 1830-1945 Donal Ó

Drisceoil, F. Lane, 2005-09-30 This book is the first ever collection of scholarly essays on the history of the Irish working class It provides a comprehensive introduction to the involvement of Irish workers in political life and movements between 1830 and 1945 Fourteen leading Irish and international historians and political scientists trace the politicization of Irish workers during a period of considerable social and political turmoil The contributions include both surveys covering the entire period and case studies that provide new perspectives on crucial historical movements and moments This volume is a milestone in Irish labour and political historiography and an important contribution to the international literature on politics and the working class **Ireland, Radicalism, and the Scottish Highlands, c.1870-1912** Andrew Newby, 2019-08-06 No

John Bull's Other Homes Murray Fraser, 1996-01-01 State housing became an integral part of the relationship between Ireland and Great Britain from the 1880s until the early 1990s Using research from both Irish and Westminster sources this book shows that there was recurrent pressure for the state to intervene in housing in Ireland in a period when the Irish Question was the major domestic political issue The result was that the model of subsidized state housing subsequently introduced in Britain was first developed in Ireland as a product of the tensions of British rule An important corollary of innovative Irish housing policy was its influence even in a negative sense on developments in mainland Britain This book also examines the cultural impact of imperialism and in particular the way in which British ideas of garden suburb housing and town planning design came significantly to reshape the Irish urban environment Fraser not only presents hitherto unknown material but does so in a unique interdisciplinary blend of architectural planning urban and socio economic history

Durkheim and National Identity in Ireland J. Land questions in modern Ireland Fergus Campbell, Tony Varley, 2016-05-16 This collection of essays explores the nature and dynamics of Ireland's land questions during the nineteenth and twentieth centuries and also the ways in which the Irish land question has been written about by historians The book makes a vital contribution to the study of historiography by including for the first time the reflections of a group of prominent historians on their earlier work These historians consider their influences and how their views have changed since the publication of their books so that these essays provide an ethnographic study of historians' thoughts on the shelf life of books exploring the way history is made The book will be of interest to historians of modern Ireland and those interested in the revisionist debate in Ireland as well as to sociologists and anthropologists studying Ireland or rural societies
